

FARMERS WHIP MR. HARRIMAN

Force Railroad to Terms in Warehouse Business by Shipping Elsewhere.

(Special Dispatch to The Journal.)
Farmington, Wash., June 5.—The farmers of the entire Palouse country are sedulously organizing the farmers' cooperative union, and by another season will control most of the warehouses these lines of the O. R. & N. and the Northern Pacific. Last year the farmers organized at this place to protect themselves from the warehouses and grain buyers, and want to the O. R. & N. and asked for their warehouses, but that company turned them down, claiming they had the houses rented and could do nothing for the farmers. The farmers informed the corporation that if it did not let the wheat raisers have its warehouses the O. R. & N. would ship no grain out of Farmington, and it did not. The Northern Pacific told the wheat growers they could have anything in sight; therefore the grain was all handled by that company.

GIRLS CAN BUY CIGARETTES IN ENGLAND BUT BOYS CAN'T

(Special Dispatch to The Journal.)
London, June 5.—It is now legal for a girl to buy cigarettes in England and smoke them, but a boy is not allowed this privilege, according to a law which goes into effect next week. The bill does not make it an offense to give away cigarettes so the young men will have to apply to their sisters to buy their smokes for them.

The peculiar situation arises out of the wording of the law which reads, "boy," in the clause making it illegal for minors to purchase cigarettes. The bill originally read "minor persons," but was changed while the bill was before the house of commons, the British lawmakers being unwilling to be ungalant enough to restrict such members of the fair sex as care to smoke.

Controversy Threatens to Disrupt St. Mark's Epis- copal of New York.

(United Press Leased Wire.)

New York, June 5.—An animated controversy threatens to disrupt the St. Mark's Episcopal church because some of the members are radically opposed to the holding of a series of "health conferences," that have been announced for next fall, and today several of the prominent members of the church stated that they would withdraw from the church if the rector, Dr. Loring W. Patton persists in holding the meetings.

The meetings will be the first attempt ever made in this city to treat diseases by mental suggestion outside of a Christian Science church, and have aroused lively interest among orthodox Episcopalians.

BRYAN OFFERED PARKER SUPPORT BEFORE RYAN GAVE ANY MONEY

(United Press Leased Wire.)

Omaha, Neb., June 5.—Thomas H. Tibbles, populist nominee for vice-president in 1904, who then was editor of the Independent, on the plant of which Bryan's Commoner is printed today came to the defense of Bryan in connection with the contribution made by Thomas Fortune Ryan, the New York financier.

"I know right where \$5,000 of that New York contribution to the campaign fund went," said Tibbles. "It was expended on the publication of a special edition of the Independent of \$5,000 for the purpose of aiding in the election of George W. Berger, governor of Nebraska. The Independent was a Populist and Berg was a fusionist. The funds came through the Democratic national committee. In all there was \$20,000. I don't know what became of the other \$15,000.

"This I do know positively, however, William Jennings Bryan offered to support Parker long before that money came from New York."

Bryan is arranging to pay back to Ryan the \$15,000 which the traction king is admitted to have given to the fund.

MAY SUE BONDSMEN OF CITY OFFICIALS

(United Press Leased Wire.)
San Francisco, June 5.—No testimony was taken today by the finance committee of the board of supervisors in the attempt to place the responsibility for the lost \$37,572.79 check that was paid into the treasury in 1905 and its disappearance having been discovered two weeks ago.

The whole matter is so involved that the committee will put the case in the hands of City Attorney Long for action, when the supervisors meet next Monday.

The plan is to make the bondsmen of all the city officials who handled the check, defendants in a suit to recover the money, and then it will be necessary for the court to trace the money in order to fix the responsibility for the loss.
