

TEACHERS TO MEET

Annual Convention at Eugene Will Take Up Raising and Apportionment of State School Funds—Good Attendance Expected.

County Superintendent of Schools Robinson has given out the program for the eighth annual convention of the State School association which will be held in the Willard hall, Eugene, June 25, 26 and 27. The meeting promises to be one of the most successful ever held by the teachers and a large percentage of them from all parts of the state have already signified their intention of being present.

In addition to the general program a detailed program covering the various departments has been arranged and the convention work will be made as thorough as possible for the length of time the teachers will be together. On Friday at the close of the afternoon session there will be a meeting of all teachers of science and mathematics in high schools and colleges. The place of meeting will be announced later.

Report of State Funds.
The discussion at the convention will hinge around three important topics. The first one will be the report of the state department of education on the raising and apportionment of state school funds, which work has been in the hands of a special finance committee for nearly a year, and an exhaustive report will be made to the convention. The report will be printed and distributed to all legislators, the newspapers and to persons interested in school work.

History and Industrial Education.
Edward P. Cubberly, in charge of the educational department of Leland Stanford university, and a recognized authority on school finance, will deliver four addresses upon raising and apportioning school funds and the general program will hinge closely upon this subject.

Strong Musical Program.
One of the big features of the convention promises to be the musical program which will be carried out every day. The music will be in charge of Professor I. M. Glenn of the University of Oregon.
