

DISTANCE RULES IN RATE FIXING

Court in Milwaukie Case Says the Same Distance Means Same Fare.

(Salem Bureau of The Journal.) Salem, Or., June 10.—Discrimination against Milwaukie in favor of Lents was the point most considered by Judge Galloway of the Marion county circuit court in deciding that the people of Milwaukie are deserving of a 5-cent fare to Portland instead of a 10-cent fare, the rate now charged by the Portland Railway, Light & Power company.

Distance, and not dissimilarity of conditions affecting the traffic, was the special point upon which this consideration was based. "If the distance from Milwaukie to Portland is the same as the distance from Lents to Portland, then," said Judge Galloway, "Milwaukie is entitled to the same rate as that in force from Lents. As compared with the rate to Oregon City, the fare to Milwaukie from Portland is not exorbitant, but as compared with similar localities it would seem the rate to Milwaukie is exorbitant."

Lents Contract Disregarded. Regarding the point raised by the attorney for the railroad company to the effect that a contract with the people of Lents provided for the 6-cent fare to Portland from that point, the judge said that such a contract could not be considered in view of the fact that the regulation of common carriers is part of the police power of a state.

The case was first launched by the people of Milwaukie and Oak Grove last August by formal complaint to the railroad commission. After a number of rulings and injunctions the case came up for trial before Judge Galloway last month, the order of the commission having been contested by the railroad.

The point was raised by the railroad company that if a fare of 5 cents is charged between Portland and Milwaukie and a 10-cent rate to Oak Grove in lieu of the 10 and 15-cent rates in force to those respective points at this time, an injunction was secured from the Marion county court some time ago that prevents the order from going into effect until the final disposition of the case.

Shipyards Reorganized. Hamburg, June 10.—The directors of the shipyards, Reinecke, Rostock, Howaldtswerke, Kiel and Elderwerst of Tonnage have resolved to combine and form a single corporation. It is believed that the stockholders of all the companies will approve the resolution.

NARROW MARGIN FOR UNIVERSITY

Official Count Shows Appropriation Bill Passed by a Few Votes.

(Salem Bureau of The Journal.) Salem, Or., June 10.—As the official count progresses in the secretary of state's office it grows more apparent how narrow is the margin by which the university appropriation has passed. Many reasons are offered for its narrow escape and many conjectures are made on the peculiar vote. The western Oregon counties where those people live who will derive the most benefit from an efficient state university went against the university with large pluralities, while the eastern Oregon counties, where there are few schools, went heavily in favor of the university.

Repeating statements were made during the campaign by Cyrus H. Walker of Albany and others to the effect that the irrevocable school fund of the state of Washington was \$50,000,000, and therefore that state was better able to appropriate \$50,000 a year for the maintenance of its university than was Oregon able to appropriate \$125,000, since Oregon's permanent school fund is but \$3,000,000. It is learned that the school fund of the state of Washington is not as large as Oregon's school fund.

According to the last statement of State Treasurer George G. Mills of Washington, the school fund of that state is \$5,024,312.60. The Oregon state fund was \$5,370,754.25, almost a quarter of a million greater. It is true that Washington has 4,000,000 acres of unsold school lands, but if these were sold for \$10 an acre the school fund of Washington would not equal \$30,000,000, much less than \$50,000,000, as claimed by Mr. Walker.

PORTLAND BUILDER BREAKS HIS WRISTS. (Special Dispatch to The Journal.) Silverton, Or., June 10.—Joe Clark, a contractor from Portland, who was engaged in erecting a building in this city for Mayor Jack, fell from one of the main structural columns, fracturing both wrists. He was taken to his home at Portland this morning.

YOU'RE TOO THIN TEACHERS IN STATE NORMALS

Ranks of Instructors Augmented by 111 This Year —Lists by Schools.

(Salem Bureau of The Journal.) Salem, Or., June 10.—One hundred and eleven teachers will have been graduated from the four normal schools of this state when the normals close this month.
