

### POSSES CAPTURE SUSPECTS

#### Mulatto and Italian Imprisoned on Suspicion of Having Murdered Woman.

(United Press Leased Wire.)  
Bellingham, Wash., June 12.—The provincial police late last night captured the mulatto tramp seen washing his clothes at Port Kail and today he was taken to the New Westmin. jail. The man answers the description of the murderer of Mrs. Mary Morrison. He has a crippled foot that turns in and this corresponds with the tracks seen around the scene of the murder.  
The Italian arrested at Stanwood yesterday was brought to the county jail here this afternoon. He will be held pending identification. It seems to tally with the man who committed the crime, with the exception that he is younger and shorter than the description given by the eight-year-old daughter of Mrs. Morrison. He wears the same clothes as those described by the girl and carried a razor and a knife when arrested. He gives the name of Joe Fisher. He says he walked 17 miles to Stanwood, having come from Blaine. He carried a copy of a Seattle newspaper in which was given the story of the Morrison murder.

### PATRIOTISM AND FIRE PROTECTION

#### These to Be Borne Equally in Mind—The Glorious Fourth at Estacada.

(Special Dispatch to The Journal.)  
Estacada, Or., June 12.—Estacada is to have a grand Fourth of July celebration. Members of the volunteer fire company have all plans made for the big time. The railroad company has given the use of the park and pavilion and has also offered to furnish a band, but it is thought best to give the local band the first chance to furnish music. John Faye is committee of one on finance who will call on the people of Estacada for contributions and every one is asked to help make the celebration a success.  
All the proceeds above the expenses are to be used in buying hose and providing fire protection for the residence part of town on the hill, and not for the fire company. Every good citizen is invited to cooperate, putting his shoulder to the wheel and pushing for one of the most glorious of old time Fourth's.  
There will be dancing in the pavilion and music and picnicking in the park. Governor Chamberlain has been invited to make the oration of the day. The exercises will be presided over by W. A. Hyman, mayor of Estacada.  
E. Lovelace has charge of the concessions, and nothing will be permitted to operate outside of the park which will in any way interfere or compete with the business of the town.  
The fire company will have refreshments in the pavilion.

### DEFENSE SCORES FOR BUD BARNES

#### Doctors' Opinion That Any Such Killer as He Must Be a Crazy Man.

(Special Dispatch to The Journal.)  
Walla Walla, Wash., June 12.—The defense this morning scored in the Barnes case when, in answer to a hypothetical question detailing Barnes' acts and environment, Doctors Gammon, Cropp and Shaw all said a man committing a murder under such circumstances would be insane in their opinion.  
The question was overdrawn and not well supported, but it was a big count for the defense.  
The prosecution introduced the evidence of many men who have known Barnes for years. All said they thought he not insane.  
Testimony will probably be concluded this afternoon and the case seems likely to go to the jury tomorrow afternoon.  
Barnes is standing his trial well and had a confident air as his defense was brought out.

### FLOWING WELLS MAY SUPPLY LA GRANDE

(Special Dispatch to The Journal.)  
La Grande, Or., June 12.—Considerably more than 100 taxpayers in this city have signed a petition to the city council to have drilled a trial well in an effort to find sufficient artesian water to supply the future needs of the town. That artesian water is obtainable has been proved by numerous flowing wells in almost every part of the valley. One was drilled last year for the O. R. & N. company in the yards here that was a decided success. Another has recently been finished on the hillside west of town, where the surface of the ground is at least 100 feet above the principal business and residence section of the town as it is now built, and in which the water lacks but two feet of rising to the surface. These and many other examples have caused the people to hope that a supply of pure water, at least for domestic needs, may be obtained at considerably less expense than by bringing it from the mountains.

### BUILT UP

#### Light Food Gives Strength and Brain Power.

The natural elements of wheat and barley, including the phosphate of potash, are found in Grape-Nuts, and that is why persons who are run down from improper food pick up rapidly on Grape-Nuts.  
"My system was run down by excessive night work," writes a New York man, "in spite of a liberal supply of ordinary food."  
After using Grape-Nuts I noticed improvement at once. In strength, and nerve and brain power.  
"This food seemed to lift me up and pay with me for better exertion, with less fatigue. My weight increased 20 pounds with vigor and comfort in proportion."  
When traveling I always carry the food with me to insure having it.  
Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.  
Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

### JUDGE PRESENTS COURT

#### Attorney Geary and Prosecutor Cook Have Hot Words at the Barnett Trial.

(United Press Leased Wire.)  
San Francisco, June 12.—A dispute that came near leading to fistifuffs marked the morning session of the trial of Walter Barnett, accused bank wrecker, today. Assistant District Attorney Cook and Attorney Geary for the defendant were like belligerent parties and the court had to intervene to stop the quarrel.  
The difference arose over the questioning of Benjamin M. Gunn, a real estate man and broker, who was placed on the stand today so that he could leave the jurisdiction of the court. The witness disappointed Prosecutor Cook and the assistant district attorney asked permission to recall him. Monday, Geary objected and Cook replied that he would confront the witness with his testimony before the grand jury and with his signature on a bank transaction in question.  
These coercive measures might work with Barnett but they won't work with this witness," shouted Geary. Gunn had but a hazy recollection of the facts that Cook tried to bring out, which was a visit of the witness and Barnett to a bank to borrow money on the Colton securities.

### DRY DECISION BY JUDGE

#### Denies Wets' Petition for Injunction—Opposite Action in Union.

(Special Dispatch to The Journal.)  
Pendleton, Or., June 12.—Judge H. J. Bean has refused to issue a temporary order, as prayed for by the saloonmen of Umatilla county in their suit brought against County Judge Gilliland to restrain him from issuing a proclamation this morning putting into effect the prohibition of the sale of liquor, as voted at the recent election.  
Today is the date set by law for the county court officially to proclaim the result of the recent election, and the proclamation is now ready to be issued.  
By a suit in equity filed in the circuit court yesterday the saloonmen of the county court sought to have set aside the recent prohibition vote and Circuit Judge Bean was asked to issue an order restraining the county court from officially proclaiming the wet and dry vote cast in the recent election.  
In the suit filed Anton Nolte is named as plaintiff. The Judge Gilliland Commissioner Walker and Commissioner Lee are named as defendants. The suit was filed by Lowell A. Winchell and Ray, John and Ray.  
The first allegation was that the county court was not in session because of the holding of the recent election, and until the suit should be finally tried out a temporary restraining order was asked for.  
In this time no steps have been taken in Pendleton to raise money by a special city tax, and apparently no such action will be taken. Instead, the council will seek to pull through the coming year in the best manner possible and rely upon the regular city tax next January to cover any deficit caused by the closing of the saloons in the city. This is the plan that had been advocated from the start by Councilman Montgomery, and the course was later urged by Councilman Strain.

### UNION COUNTY WETS SECURE THE ORDER

(Special Dispatch to The Journal.)  
La Grande, Or., June 12.—Circuit Judge Crawford late yesterday granted a temporary injunction enjoining the county court from declaring and making of record the result of the late election in the county on the prohibition question.  
The complaint, signed by Julius Roesech of this city alleges that the petition upon which the order of the county court submitting the liquor question to the people at the June election was not signed by the requisite number of qualified electors of the county; that the county court acted without jurisdiction; that every act of the county clerk in connection with the election, as concerning the matter of prohibition, was illegal; and lastly, that the sheriff failed entirely in his duty to post five election notices in each precinct, excepting the precincts of Cove, North Powder, 1 and 2 in Union, and 1, 2, 3, 4 and 5 in La Grande.

### MOVING PICTURES TO BOOM BOISE-PAYETTE

(Special Dispatch to The Journal.)  
Nampa, Idaho, June 12.—B. B. Thompson, official government photographer, has arrived here and, in company with D. R. Hubbard, has gone out to the Deer Flat reservoir, where he will take photographs for the moving picture advertising undertaking that will be put on in the eastern states to advertise the Payette-Boise reclamation project.  
The expenses of this extensive advertising campaign will be met by commercial clubs of this section. Fifteen thousand dollars has been appropriated for the work, the amount being apportioned to the various towns in the territory. This city will raise \$1,000 of the amount.

### JUMPS FROM BRIDGE TO DEATH IN RIVER

(United Press Leased Wire.)  
Nevada City, Cal., June 12.—The body of David Koukoy, a prominent pioneer resident of this place, was discovered today in Deer creek, the man evidently having committed suicide by jumping from the suspension bridge, a distance of 60 feet.  
The body was found by two men who were passing along the creek. Koukoy, who was 65 years old, had been ill for some time and had recently become melancholy, which is believed to be the cause of his suicide.

### DETECTIVE QUARTET SHOWS UP FOR WORK

Detectives Snow, Rasing, Carpenter and Day this morning appeared at police headquarters, reporting for duty as a matter of form in accordance with the finding of the civil service commission. The men were not given any details by Chief Gritsmacher.  
Interest is intense around police headquarters as to what action will be taken by the executive board of the police commission when it meets tonight. It is generally believed that the four discharged detectives will not serve again, as all of them are engaged in other lines as equally as remunerative as sleuthing for the city.

### Baggage Man Killed

Elliensburg, Wash., June 12.—The body of Frank Morrison, night baggage man at the Northern Pacific depot, was found lying on the track late last night, cut entirely in two. His duties seldom called him on the rails and no one knows anything whatever about his death. He was about 22 years old.

### The following is a list of the polling places, clerks and judges who have been selected for the school election to be held June 15th, 1908.

- Should any judge or clerk be unable to serve on said day, please notify the school clerk at city hall immediately.
