

SENSATION PROMISED BY STEVE ADAMS' ATTORNEYS

WILL REPUDIATE HIS CONFESSION

Judge O. N. Hilton Declares Defendant Signed Document Under Duress.

(Special Dispatch to The Journal.)
 Grand Junction, Colo., June 12.—The biggest sensation that has ever been sprung in connection with labor troubles in the west will probably be brought to light in the trial of Steve Adams, accused of the murder of Arthur Collins, manager of Smuggler-Union mine, which begins here June 22, according to Judge O. N. Hilton, chief counsel for the defense. Discussing the case today Judge Hilton said:

"This entire case against Steve Adams rests on the alleged confession he made to Bulkeley Wells. The prosecution hopes to get Steve Adams to reaffirm the statements in the confession and not disclaim it, so that if the confession stands they can then rearrest Meyer, Pettibone and Haywood and try them for the charges which are said to have been committed in Colorado. But Steve Adams will repudiate that confession. I do not mean that he will deny having made and signed it but he will declare it was secured from him under duress and coercion."

Easy Prey for Master Mind.
 Adams is simple, uneducated and inexperienced in any way for a master mind and I believe that if you were to talk to him you could get him to confess to anything. He is a different man from Harry Orchard. The latter has had more experience, is more shrewd, more designing. McFarland, who will be a witness in the trial here, entered Adams' cell while the latter was confined in the Boise prison, not under a charge but for detention. McFarland posed as a minister of grace and told Adams biblical stories in order to influence him. He told Steve how he (McFarland) had run to earth the Molly Maguire in Pennsylvania and how every man in the gang had been executed except those who turned state's evidence. McFarland said that he had kept his word in Pennsylvania and that if Adams would make a confession he would keep his word and secure him immunity and thus save him from being hanged, as was almost certain.

Discarded by Jury.
 Adams made the confession, or rather signed the confession brought to him by McFarland. Adams made another confession, but both were discarded by the jury. The first jury turned the confession down 11 to one, and the second by a vote of 10 to two, showing that they placed no faith in it.

Mr. Hilton said that he would like to have Adams brought to Grand Junction before June 19 if possible as the trial opens June 22 and the time will

Steve Adams.

be short. He declared that he was certain that no continuance of the case would be asked but that both sides would go to trial. Adams' confession is discarded by the jury, the case of the state will be lost, said Mr. Hilton, "and right now in Telluride Steve is being persecuted in the hope that he may be induced to reclaim it. Men have been placed in his cell there in an effort to influence him. Representatives of the prosecution are trying to poison his mind against his own attorneys by saying that they will go back on him, but so far he has stood pat and I think he will continue to do so. Sheriff Fitzpatrick of San Miguel county, has worked upon him, has breathed in his ears the reports that the W. F. M. attorneys would not stand by him. Adams has even been refused vegetables, so hard are his persecutors trying to win him over."

District Attorney Hugo Selig has gone to Denver and will return in a short time to take active hold of the case. Congressman H. M. Hoag has already begun work on the case. Before leaving for Denver Mr. Selig declared emphatically that Harry Orchard would not be brought to Colorado to testify against Steve Adams.

Orchard Will Not Be Witness.
 Selig said that he did not care for Orchard as a witness under any circumstances.

In proportion. The system used in producing this turpentine is a very simple one but to be used to advantage there must be sufficient stumps in a vicinity to warrant the establishment of a plant and it would not be profitable to bring the stumps and roots to a central plant. Dr. Hawley will receive from the Walruski in a few days samples of stumps and roots with which he will make careful tests at his laboratory at the Clatsop mill.

TURPENTINE FROM STUMPS AND ROOTS

(Special Dispatch to The Journal.)
 Astoria, Or., June 12.—Dr. Hawley, the government forestry expert, accompanied by H. G. Van Dusen, made a trip Wednesday to the Walruski district to examine some land that had been logged off and which would be desirable farming land if the stumps could be removed at a reasonable expense. Dr. Hawley found one stump, estimated to contain four cords, including the roots, which he said would contain at least 15 cords of turpentine. Other stumps and roots in the same neighborhood would develop

FUNNY JOKES IN RAIL CONTRACTS

Railroad Commission Analyzing These Humorous Documents.

(Salem Bureau of The Journal.)
 Salem, Or., June 12.—Argument in the case of G. B. Burdick vs. the Oregon Railway & Navigation company, the Southern Pacific and the Northern Pacific was submitted before the railroad commissioners yesterday. The object of this case is to compel the railroads to revise their contracts for shipping livestock so that the shippers will be protected in some measure against loss.

was contended by Charles McNary, attorney for the complainant, that the shipper is now compelled to sign away almost everything, even to the property in the livestock, merely for a consideration of a reduced rate that is in some instances very doubtfully a reduced rate at all. The value placed on livestock by the railroads also is regarded as too small.

The contracts offered the shipper by the Northern Pacific are much more generous than those of the Southern Pacific and the Oregon Railway & Navigation company. Only two sections in the contract of the Northern Pacific are thought to be unreasonable and against public policy.

Unreasonable and senseless. However, the contracts imposed by the Harriman lines were viewed as unreasonable and in many instances senseless by the attorneys for Burdick and a test case is to be made in an effort to compel the railroads to revise the contracts so that they will come within the bounds of common sense and law.

It was argued that the contracts are filled with verbiage and the shipper seldom if ever has time to read them. If he should read the fine printed matter of his contract he would see that he had practically signed away every vestige of a right that he might reasonably expect still to retain.

For instance, the contracts are regarded as binding upon the shipper even by the members of the railroad commission. The object seems to be, as was pointed out by Attorney McNary, merely to fool the shipper into the belief that he cannot bring suit against the company in the recovery of damages if his stock should escape or become lost while in transit.

Another alleged unreasonable provision of the contract which is regarded by the attorneys as null and should be corrected, relates to when the stock are unloaded into yards provided for the stock by the railroad. The contract provides that the shipper or the person who goes along to care for the stock as the agent of the shipper, must inspect the stock in the yard, no matter what is the condition, and if animals escape or are injured the company is again absolved from any liability.

These things and many more are to be corrected. The railroad commission has taken up this matter along with a number of others and now that the election is over and things generally have quieted down it is hoped some progress will be made. The railroads are resisting many of these steps but the commission is confident of final victory in nearly every case.

WOMEN AT FORTY

IMPORTANCE OF PRESERVING THE HEALTH AT THAT TIME.

Proof of One Case in Which a Weak, Nervous and Discouraged Woman Was Marvelously Helped by the Tonic Treatment.

Women approach their fortieth year with worry and uncertainty, for the manner in which they pass that crisis determines the health of their after-life. During this most important time in the life of a woman, her whole aim should be to build up and strengthen her system to meet the unusual demands upon it. Devotion to family should not lead to neglect of self; but hard work and household cares and worries should be avoided as far as possible. Whether she is able to do this or not, no woman should fail to take the tonic treatment if she is entering this critical period in a weak, run-down and nervous condition.

Mrs. Martha Dennis of 823 West Cedar street, Kalamazoo, Mich., who owes her health to this treatment, says: "I suffered for a year with weakness, enduring pains which almost made me frantic. My kidneys were weak, I had pains in my joints and back and could hardly stoop over or lift anything. My liver was torpid and my complexion and the whites of my eyes yellow. I had palpitation of the heart, my limbs ached and I had severe headaches. I was troubled with chills, followed by fevers, and would have to go to bed. I could not rest at night and was unable to remember anything. I was weak, irritable, nervous and discouraged."

"After several months of suffering I was advised by a friend to try Dr. Williams' Pink Pills. I filled an order and received from the first few boxes was remarkable. I was cured much sooner than I had hoped and have been in good health ever since."

Drowsiness, a feeling of heaviness, pain in the front of the head, nausea and even vomiting, dizziness, faintness, hot flashes followed by chills and profuse perspiration are some of the signs that indicate the need of tonic treatment as the change approaches. If this is your condition you should not wait another day before giving Dr. Williams' Pink Pills a trial. Our booklet, "Plain Talks to Women" is free on request. Dr. Williams' Pink Pills are sold by all druggists or sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

EUGENE'S LID LAW GOOD, COURT SAYS

Judge Harris of the Circuit Court Sustains Ordinance in the Mayhew Case.

(Special Dispatch to The Journal.)
 Eugene, Or., June 12.—Eugene's city ordinance that declares the act of keeping or storing liquors in one's house or place of business to be a nuisance has been held to be legal in all its details by Judge Harris of the circuit court.

Soon after the ordinance was passed by the council, nearly a year ago, Charles Mayhew was arrested for violating it. He was tried in police court and sentenced to pay a fine of \$30 and to imprisonment in the city jail for 60 days. The matter was carried up to the circuit court, and has been under advisement by Judge Harris until now, in the meantime the defendant being out on bonds. The judge passed on the case yesterday, declaring the ordinance legal and affirming the decision of the police court. Pending Judge Harris' decision of the case two have been under prosecution for violation of this ordinance, it being the opinion of several attorneys that the ordinance was not legal, and for that reason it was deemed best by the city authorities not to attempt another case until the first was decided.
