PLATT WEARIES OF PUBLIC LIFE

Former Boss of New York Pathetic Figure in Latter Day Politics.

(United Press Leased Wire.)
New York, June 12.—"The days are past when anyone cares what I say about politics," said Thomas Collier Platt today as he sat alone in his uptown apartment. The former boss of the Republican organization in New York state and for over 30 years an important factor in national politics, was a pathetic figure as he sat alone in his room while many of his former lieutenants were speeding to Chicago to participate in the convention. This is the first national convention Platt has missed attending in many years. His home district up the state did him the honor to elect him as a delegate as it was known that he would not go and so notified the alternate.

EUGENE IS KIND TO POOR MRS. HUMPHREY

(Special Dispatch to The Journal.)
Eugene, Or., June 12.—The case of Mrs. Lizzie Humphrey, the Portland woman who walked all the way from that city to Eugene, wheeling her two babes in a push-cart, which has created quite a stir in Eugene on account of the officers of the juvenile court taking the children away from her, came up in the local court yesterday. A number of citizens interested themselves in the woman's behalf and subscribed enough money to rent her a house to properly care for the children, and promised her work. For this reason Judge Chrisman ordered that the children be restored to her, although they are retained in wards of the juvenile court. A citizen of Eugene was appointed to have charge of them and to report to the probation officer each month as to their condition.

Chicago, June 12.—Perry Alderson Morgan, a genius, died last night as a result of overwork on a labor-saving device. Morgan's secret goes with him to the grave. BOLLES CALLED UPON TO EXPLAIN ROAST

Inspector of Hulls Makes Bid for Notoriety by Assailing Bob Evans.

(United Press Leased Wire.)
San Francisco, June 12.—I cannot see that any great credit is due to Admiral Evans for bringing the fleet around the Horn. Any navigator could have done the same. The vessels did not make more than 10 knots an hour and any of the other officers could have brought the fleet around at that speed. One would think that all the other ships but that commanded by Evans were manned by a lot of cowboys.

(United Press Leased Wire.)
Washington, D. C., June 12.—After an exhaustive investigation into the minerals of the north Pacific coast the United States geological survey has just issued a report showing the existence of marvelous coal and petroleum lands in the region of Controller bay. It is expected that this discovery will have a direct effect upon the cost of shipping on the Pacific coast and in case of future naval operations in Pacific waters, coal will not have to be brought half way around the world for the use of warships.
