FAMOUS DIAMOND FENCES CAUGHT

Man and Woman Who Bartered in Stolen Goods Held at Frisco.

(United Press Leased Wire.)

San Francisco, June 15.—The police of this city have communicated with the authorities of other cities all over the country in their efforts to discover the careers of George E. Farwell and Lena Winchell, and today they believe that in this pair they have the fences of many of the biggest diamond robberies that have been pulled off during the past few years.

The couple were arrested here last Friday on suspicion, and the investigation which they have been conducting shows the police that the pair has operated in nearly every large city in the United States and handled the proceeds of diamond robberies, the aggregate of which would be more than $1,000,000.

The police of Memphis, Tenn., and numerous other cities have informed the local department that they have been looking for Farwell and the Winchell woman. They have traveled under man aliases, but these are the names under which the police of the country know them.

KLICKITAT LOSES PIONEER AND PATRON

(Special Dispatch to The Journal.)

Cliffs, Wash., June 15. — Death claimed another pioneer of the west June 10 in John M. Hess, who was born in Fulton county, Illinois, October 5, 1848, and died at his home near Goldendale, Wash., of heart trouble. The funeral services were conducted at the family residence Thursday afternoon, from which place the body was escorted by the Woodmen of the World to the I. O. O. F. cemetery at Goldendale. The largest funeral procession followed the remains to the grave that has ever been seen in this county.

At the age of 19 years Mr. Hess moved to Oregon with his parents, where he resided until 1883, when he moved with his family to Klickitat county, engaging in various enterprises both in the town and country. He was married to Miss Minnie Beebe, near Salem, Or., November 18, 1873. Besides his wife he leaves two sons and two daughters.

Mr. Hess was one of the foremost men of Klickitat county in promoting public enterprises. The Goldendale water system is of his creating, and he was largely instrumental in establishing the rural telephone system in Klickitat county. For 20 years he owned and operated a large flouring mill. He was chairman of the board of townsite trustees of Cliffs, and was the original financier of the townsite project.

LARGE CLASS FROM CENTRALIA HIGH

(Special Dispatch to The Journal.)

Centralia, Wash., June 15.—The graduating class of the Centralia high school held commencement exercises Friday evening at the Chandler opera house. An excellent program was rendered before a crowded house. Professor A. H. Yoder, superintendent of the Tacoma schools, delivered the commencement address. The diplomas were presented by J. E. Lease, clerk of the school board. The graduating class consisted of 18 members, as follows: Misses Mabel Belle Brown, Florence Elizabeth Cole, Dora Anna Dix, Elizabeth M. Fleming, Ruby Blanch Frye, Lempy Mary Kesola, Edythe Lola Machen, Goldie Hortense Stephenson, Ethel May Steinborn, Lizette Doris Treat, and Messrs. Warren Ort Grim, Clyde M. McCoy, B. Frank Neeley, Chester W. Ort, Milford Jerome Pierson, Calvin Loyle Rogers, Carlton Irving Sears, and Albert A. Troxel.

The officers of the class were Warren Ort Grim, president; Miss Elizabeth M. Fleming, vice president, and Miss Florence Elizabeth Cole, secretary-treasurer.

Floral presents were in great abundance, all other presents being sent to the homes of the recipients.

RENO BRIDE IS VICTIM OF ROBBERS

(United Press Leased Wire.)

San Francisco, June 15.—The detective department here is baffled over what is admitted to be one of the most cleverly executed robberies that has occurred in years, the theft of $10,000 worth of jewelry and plate, wedding gifts that had been stored in trunks in a fashionable hotel. The stolen goods belonged to Mrs. Samuel Hill, wife of a wealthy Reno mining man and a bride of but a few weeks. The police hold to the theory that some one who witnessed the marriage of the couple in Reno and saw the outlay of valuable presents, followed the Hills to this city and made away with the goods. The trunks were completely rifled, the robbers even taking the bride's wedding gown.

MYSTERY OF SECOND GUEST IS CLEARED

(United Press Leased Wire.)

San Francisco, June 15.—The second of the three guests of the St. Francis hotel who recently disappeared so mysteriously has been heard from, and the hotel people are today making every effort to locate the third man, Thompson, of Ocean Park.

Captain M. S. Howard, the British army officer, who has been missing for 11 days, Sunday communicated with the St. Francis from Vancouver, asking that his baggage be forwarded to him there.

GOULD PLAN FOR TRANSPACIFIC ALLY

(United Press Leased Wire.)

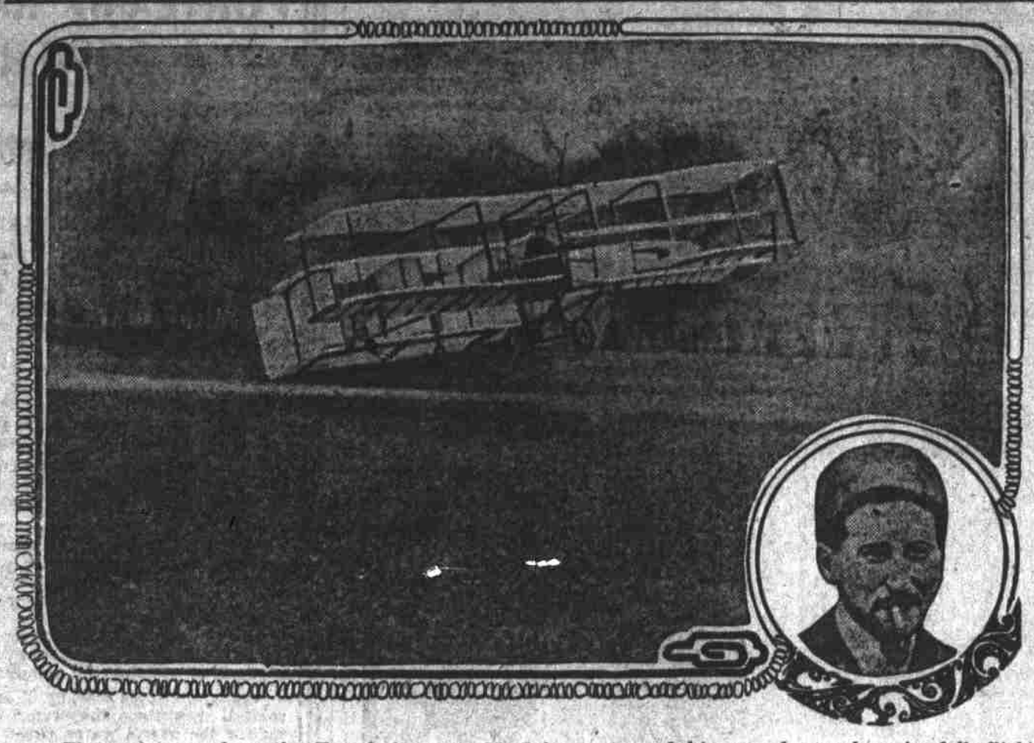
San Francisco, June 15.—Railroad circles are today discussing the reported agreement between the Western Pacific and the Toyo Kisen Kaisha, the Japanese steamship line running between here and the orient, by which the Western Pacific is to have connections with the orient through the Japanese company's boats. The agreement is said to become effective next year when the Western Pacific road to Salt Lake is completed. The understanding will give Gould a chance to get oriental trade, without which he could not hope to be a serious competitor of Harriman.

Stock Show at Union.

(Special Dispatch to The Journal.)

Union, Or., June 15.—A stock show will be given at this place June 20. It is being promoted by O. A. Coffin of La Grande. As Union county has some of the best cattle, sheep and horses in the northwest the show promises to be a very successful affair.

TRAVELS AT GREAT SPEED THROUGH AIR.



These pictures show the French inventor, M. Delagrange, and his record aeroplane in full flight over Rome, Italy. The machine recently covered a distance of 3,600 feet in 64 seconds and the inventor now announces that he has solved the problem of navigating the air.

GERMANS START FOR FATHERLAND

Delegation of Eight Turners to Represent Pacific Coast at Turnfest.

(United Press Leased Wire.)

San Francisco, June 15.—A delegation of eight of the best Turners of the Pacific Coast, the Deutschland Riege, left this city today for Frankfort-on-the-Main, Germany, to participate in the great international turnfest to be held in that city from July 18 to 23.

The departure of the Deutschland Riege was made the occasion of a big demonstration by the Germans of the city. Headed by a band, they were escorted to the Ferry by the directors of the Pacific Turn Bezirk, and members from all the turnvereins of this and neighboring cities.

WILL SAIL FOR NORTH IN GASOLINE LAUNCH

(United Press Leased Wire.)

San Francisco, June 15.—Old skippers here are speculating as to the outcome of a voyage that will be begun this afternoon by E. M. Eddy, a Seattle capitalist, who is to make the trip from here to the northern port in a small 75-horsepower gasoline launch.

The launch was brought out from the east some time ago and no vessel could be found that would take the small boat to Seattle for less than $755, so Eddy announced that he would take the launch nrth himself. Today he is waiting for an engineer, the post having been deserted yesterday by a man who took the launch outside the heads and returned, declaring that he would not risk his life in the small craft on the long voyage.

UNIVERSITY PLANS A NEW DEPARTMENT

(United Press Leased Wire.)

Baltimore, Md., June 15.—The trustees of Johns Hopkins university are planning to establish the best-equipped psychiatric clinic in this country as the result of the gift of more than $500,000 from Henry Phipps of Pittsburg.

Phipps, who was the founder of the Phipps Institute of Tuberculosis Research in Philadelphia with an endowment of $1,300,000, gives the $500,000 to the Baltimore university and hospital for the study of insanity.

The fund is sufficient to establish an entire new department, including the election of a four-story building, equipment and salaries of a staff, nurses and other expenses for a period of 10 years.

TAKES KINKS OUT OF THE C. N. ROUTE

(Special Dispatch to The Journal.)

Klamath Falls, Or., June 15.—Chief Engineer William Hood has ordered the immediate completion of the California Northeastern to Calos, the station on the Oregon-California state line, and has also ordered a change in the survey from the state line to the swamps, eliminating a number of curves.

These orders are the result of Mr. Hood's visit of inspection over the California Northeastern recently. This brings the line up to the swamp work, which is being rushed now. The dike will be completed to navigable water in about four weeks, and without doubt when the Harriman party visits Pelican Lodge this summer they will not have any stage trip to Klamath Falls.

Schoo Money from Okanogan.

(Special Dispatch to The Journal.)

Olympia, Wash., June 15.—The sum of $25,900 has been remitted to the state land office by the county auditor of Okanogan county as the first payment on state agricultural lands at Brewster Flats, sold June 6. The sum represents one-tenth of the total amount bid for the lands. The balance of about $225,000 will be paid in nine annual installments, the deferred payments drawing 6 per cent interest. Thus the college will realize $13,500 for its current expense fund the first year. The payments on the principal go to a permanent fund which can be invested in securities but cannot be expended or reduced.

PERSONAL.

M. E. Becker of the Palais Royal is going to Carson Springs for his health and expects to be gone for some little time.

Mrs. Lizzie Percival, Madras, Or., who is visiting her sister, Mrs. Ella Davis Craig, was operated on at the North Pacific sanitarium last night, and was reported very low this morning.

NEWELL AROUSES RANCHERS' WRATH

Water Users Threaten to Cancel Contracts on Account of His Action.

(Special Dispatch to The Journal.)

Klamath Falls, Or., June 15.—Members of the Klamath Water Users' association representing approximately 30,000 acres of land have held an informal meeting at Bonanza and sent a telegram to Director Newell of the reclamation service asking for reconsideration of the Clear Lake dam bids, requesting the acceptance of the lowest bid. Committees were also appointed to draft letters setting forth the views of the land owners concerning the importance of the building of the Clear Lake dam this year. The people of the upper project feel very strongly the rejection of the Clear Lake bids, after they were approved by Project Engineer Murphy and Supervising Engineer Henry. They threaten to cancel their contracts with the government if immediate action is not taken.

When Director Newell's reasons for the rejection of the bids on this part of the Klamath project are learned it is thought probable that the land owners will take no further action tending to hinder the progress of the Klamath project.

Sideline Stories of Convention

(United Press Leased Wire.)

Chicago, June 15.—The chief topic of conversation here today in the lobbies of the various hotels and at the headquarters of the delegations is the statement made by Benjamin Ide Wheeler, president of the University of California, that the vice-presidency is not only a useless office, but has come to be a real menace to the system of government of the United States.

"In America," said President Wheeler, "we have outgrown the vice-presidency. It was all very well to have a vice-president 60 or 70 years ago. This spectacle of struggling over the second place is a fine argument against the existence of the office. The squabbles are likely to result in the placing of a weak man in a position where death or accident would make him the head of the nation. The rule of succession which we now have would be equally ample with the vice president left out. It would result in stronger cabinets and there would be less likelihood of a weak successor to a strong president.

Knox and His Friends.

Pittsburg, June 15.—A considerable stir was caused in political circles here today, when it became known that Senator Knox's son and brother left this city for Chicago last night in the company of a party of 15 millionaires of this city.

The departure of these millionaires, many of whom have never taken active interest in politics before, is looked upon as significant. That Senator Knox will have the support of this phalanx, representing more than $500,000,000 is assured and brings him again to the front of presidential possibilities.

Mrs. Longworth Booms Taft.

Chicago, June 15.—Alice Roosevelt Longworth arrived on the scene today and joined the ranks of Taft boomers.

As she stopped from the train with her husband, Congressman "Nick" Longworth of Cincinnati, a group of newspaper men surrounded her. She seemed pleased at the reception. When asked for whom she would cast her vote, she said with surprise that there should not be the slightest doubt.

"Why, Taft is to be nominated. That's sure, isn't it?"

Some one assured her that it seemed to be.

"Well, I'm glad," said the president's daughter.

The Longworths were met by Mr. and Mrs. Medill McCormick, whose guests they will be during the convention.

P. F. DOHERTY OF NAMPA A SUICIDE

(Special Dispatch to The Journal.)

Nampa, Idaho, June 15.—P. F. Doherty, proprietor of the Nampa Butcher company, committed suicide some time Saturday night by cutting his throat. He went to his slaughter house, folded his coat for a pillow, laid down on the floor and drew the blade across his windpipe. Family troubles caused the deed. He leaves a wife and seven children.

Elgin Will Celebrate.

(Special Dispatch to The Journal.)

Elgin, Or., June 15.—Elgin will celebrate the Fourth of July this year, and every effort will be made to make the event one of the greatest in the history of Union county. Over $400 has been subscribed.

Idaho Guard Encampment.

(Special Dispatch to The Journal.)

Boise, Idaho, June 15.—The Second and Third battalions, Idaho National Guard, will hold an encampment at Boise barracks from July 27 to August 16.

ARMY MAY USE NOISELESS GUN

Government Test of New Engine of War Will Probably Be Made Soon.

(United Press Leased Wire.)

Washington, June 15.—While the ordnance bureau of the army says that no overtures for the test of his noiseless gun have been made by Hiram Maxim, all of the officers believe that a government test will be held soon. One of the experts said today:

"It may be said to be revolutionary. The adoption of a noiseless gun would necessitate the solution of a number of entirely new military problems. It would add tremendously to the horrors of war. "If the test made was as successful as it has been declared to be then Maxim has made a wonderful discovery and one that will necessitate much study on the part of military experts."

CHICAGO FEARS A HIGHBINDER FIGHT

(United Press Leased Wire.)

Chicago, June 15.—It is feared here today that a tong war will break out as the result of the developments in the Hip Lung murder trial. Through Chank Key, the interpreter, it was learned that the On Leung tong was planning to wipe out the entire clan to which Hip Lung and his associates belonged, unless these men were punished for the murder of Chin Wai.

The Chinese colony is worked up to a high state of excitement over the affair and one of the secretaries of Minister Wu is in Chicago to look into the troubles between the rival tongs.

GOLDFIELD BANKER DIES AT PASADENA

(United Press Leased Wire.)

Los Aneles, June 15.—Herbert T. Cooke, a wealthy banker of Goldfield, where he also had large mining interests, is dead at Pasadena. His widow will take the body to Columbus, Ohio, where Cooke formerly resided.

Convicts Make State Brick.

(Special Dispatch to The Journal.)

Olympia, Wash., June 15.—Thirty-five convicts will begin making brick at Monroe today preparatory to the construction of the new state reformatory. The present available appropriation of $30,000 will be entirely expended in providing site and material for the permanent buildings and actual construction will be delayed until next year, when it is expected another appropriation will be available. Western Washington persons committed to the penitentiary, who are not hardened criminals, are now taken direct to Monroe and put to work in the brickyard. Before the summer is over 100 convicts will be at work there.

No Rosin in It

Nothing but high grade soap and naphtha in P. & G. Naphtha Soap.

The first thing you notice, when you unwrap a cake of P. & G. Naphtha Soap is the color of it—white.

That shows there is no rosin in it.

Most naphtha soaps are yellow—they contain rosin.

There is a saying among soap manufacturers to the effect that 5 per cent. rosin in soap is all right; more than 5 per cent. is all wrong.

Some naphtha soaps contain as much as 25% rosin. Do you know why? Rosin is cheap. That is why.

And so we offer this advice: Never buy any other than a white naphtha soap.

P. & G. Naphtha Soap is white—there is no rosin in it.

IF YOU WANT TO KNOW WHAT SMARTLY DRESSED MEN WILL WEAR THIS SEASON ASK BEN SELLING

The Only Difference

between our clothing and the high-class merchant tailor's is the price; ours are made SPECIALLY for us by New York's BEST WHOLESALE TAILORS whose designers are the best in the world. Every garment has back of it MY GUARANTEE, which means absolute satisfaction or your money back.

Suits $15 to $40

Our BOYS' CLOTHING is made with the same care and attention to detail as the men's.
