

SAEGERBUNDERS SING AGAIN

Fifty Thousand Voices to Aid in Rendering Choruses—More Than Hundred Singing Societies Represented at Gathering of the Musicians.

By Frederic J. Haskin.
(Copyright, 1906, by W. H. Hearst.)
Washington, D. C., June 17.—Today all roads of the musical world lead to Indianapolis. That place will be the center of the musical map for several days. Out of the east and the west, the north and south, have come saengerbunders, 50,000 strong, to take part in the Saengerbund, a fest of the North American Saengerbund, to join their voices in singing the old songs that have inspired their millions in American and in the fatherland. More than 120 singing societies, hailing from some 30 cities, will be present to compete for the prizes and to take part in the good cheer of the occasion. The New York Symphony orchestra, with its 100 highly trained male voices, is the nucleus around which the vast volume of harmony made by thousands of voices will gather. In addition there will be singers of international reputation, such as Schumann-Heink, to take part in the exercises, which will last for several days.

Some 5,000 singers are expected to constitute the saengerbund, and there will also be a chorus of some 5,000 school children from the public schools of Indianapolis, who were divided into 15 sections and specially trained for the work by competent instructors. The main exercises will be held in the big coliseum, which has a seating capacity of about 7,000, over and above the singers themselves. Walter Damrosch will be the conductor of the Indianapolis fest. It was his father, Dr. Heinrich Damrosch, who organized the New York Symphony club and made it one of the most famous musical organizations in the country. His son, Walter, conductor of orchestral music will also be on hand to assist him in leading the great multitude of voices.

A million dollars for three days of music might be the title of this story, for that is what it will cost it—not more. Estimating that each of the 50,000 singers will cost \$20—and this is an underestimate—it means that it will cost them \$1,000,000 to be there. The saengerbund is a German festival. It is held in Germany and in the United States. It is the most important of the German festivals, yet tracing a common heritage back to the fatherland, it is held in Germany and in the United States. It is the most important of the German festivals, yet tracing a common heritage back to the fatherland, it is held in Germany and in the United States.

Y. M. C. A. WORK WILL HOUSE WANTS BE HELD TO STUDENTS MARTIAL TIE CUT

Educational Department Arranges Lectures and Debates. Accuses Wife of Calling Him 'Bad Names, and Claiming Too Much.'

Students of economics and sociology of the city are now being furnished with an excellent opportunity to pursue their studies by the educational department of the Y. M. C. A. Lectures and debates on studies of social conditions from a Bible standpoint are under way and will be continued for two months under the direction of J. C. Clark, professor Howard, a well-known scholar and student of economic and sociological questions. The direction of the course of the investigations.

The class is open to all young men of the city and to members of the Y. M. C. A. who may desire to attend. It is planned to hold the meetings in the open air in the park whenever the weather is warm enough, the desire being not to go indoors unless compelled to do so by the weather. The studies embrace discussions of the labor unions, child labor, employment liability and similar questions. Advocates of labor unions, socialists and other clubs will be invited to present their ideas on labor unions, socialism, child labor, and other questions. The members of the class being given an opportunity to join the discussion.

Among the questions which will be discussed are the following: "Should saloons be compensated when closed by law?" "Is the strike a Christian means of obtaining redress for labor difficulties?" "Did Jesus sanction or encourage violence in the correction of social wrongs?"

SOCIALISTS ELECTED TO PRUSSIAN DIET

(United Press Leased Wire.)
Berlin, June 17.—The Socialists here are jubilant over the election of six, and possibly seven, members of the Prussian diet to the Prussian diet.

On the whole, the sentiment here today is one of satisfaction. Despite the election of the Socialists to the Prussian diet, it is believed that the seating of the Socialists will tend to calm the agitation for suffrage on the part of the radical element.

The election of the Socialists is accepted as proof that all classes can participate in legislation, even under the antiquated system in use.

Do You Do Your Own Work?

Yes? Then You Should Use P. & G. Naphtha Soap.

It is just what you need.

It is a time-saver, a money-saver and a labor-saver.

It does better work, with cold or lukewarm water, than ordinary laundry soap and hot water.

Buy a cake. Try it.

You will find that it will make the clothes cleaner, sweeter, brighter, whiter than they ever were before—in half the time and with half the effort it now takes.

Use it in the kitchen—for the dishes, for the floors, for painted walls, for pots and pans. It is just as valuable for such purposes as for washing clothes.

It is a hard soap and a cake of it will do a remarkable amount of work. It is a white soap and can be used for any number of purposes for which yellow soaps are unsafe and unsatisfactory.

THE WAY IT IS DONE

Each and every subscriber to any issue of The Journal will be entitled to vote for a contestant according to the length of time they pay in advance for their subscription. A schedule of votes allowed on every issue, for different periods, is published today.

Every contestant should commence at once to hustle for subscribers to The Journal, bearing in mind that new subscribers count many more votes than old subscribers, for it is only through an increase in circulation that The Journal will receive returns for such a large outlay of cash and scholarships.

The public will be kept advised by publication from time to time as to the standing of the different contestants and the votes to their credit.

Instruction in canvassing or conducting your campaign for subscribers and votes will be given to any contestant who applies to the contest manager.

EQUAL CHANCE FOR ALL

For the purpose of awarding the scholarships and cash prizes, the field of The Journal has been divided into four districts, as follows:

- Multnomah county, Oregon.
- Willamette Valley (as far south as Eugene).
- Southern Oregon (all south of Eugene).
- Eastern Oregon.

A liberal measure of votes is allowed for subscriptions to the semi-weekly edition of The Journal to favor contestants working in districts where the population is scattered. The voting schedule is so keyed and the field is so divided, that a contestant living in the country or on a rural route has an equal advantage with the contestant living in the city of Portland. The young people living in the country have this advantage over their city rivals: they enjoy a larger personal acquaintance.

HOW THEY ARE DISTRIBUTED.

The candidate who at the close of the contest has the largest number of votes, irrespective of locality or district, will have first choice of all scholarships.

The second choice will fall to the contestant of highest vote in the district which does not get the first choice. The third choice will fall to the contestant of highest vote in a district which does not get either the first or second choice. The fourth choice will fall to the contestant of highest vote.

men. In addition to those organizations represented in the North American Saengerbund there are many who give aid to the Saengerbund. One of the organizations is a \$20,000 status of a Saengerbund, presented by the emperor of Germany. The last meeting of the North American Saengerbund held at the Hotel Bellevue, Portland, Oregon, was held on June 15. The German ambassador, went over to Baltimore to greet and to hear the singers. This he believed to have been the only occasion in the history of either organization that the president of the United States attended one of their feasts. A secret of the children were being brought together to be trained for the fest, the managers sent by an address to the managers to say to their parents that they would be admirably cared for and that their singing halls would not be located over any groggeries.

Some Musical History.
The little German town of Bethlehem, Pa., has figured not a little in the musical history of the world. It was the birthplace of the Bach choir of this place, consisting of about 100 singers, that first produced complete in America Bach's stupendous mass in 1892. The choir, under the direction of the new century, and the performance has been repeated since that time. The choir represents the result of a musical activity of more than 100 years. When the town itself was founded by the Moravians, they established a Collegium Musicum and on the foundation they laid one of the finest musical superstructures in the United States has been erected.

No one has ever estimated the force it requires to successfully render a great vocal selection but it must be more than the average mortal could dream of. Such an estimate has been made as to instrumental music, and the result of the calculations are astonishing. A German musician fell to experimenting in this line by placing coins on his piano and the result was that how heavy a weight he would have to make on a key to produce the tone. He found that the minimum pressure was about one quarter of a pound. In Chopin's last study in C minor there is a passage which takes two minutes and five seconds to render.

Force of a Note.
On the basis laid down by this German musician the aggregate pressure which has to be brought to bear on the keys to properly render this passage would amount to about three tons. Sometimes a note has to be struck with a force equivalent to six pounds of pressure. Pianists often develop calluses on their fingers in their hands. It is told of Paderewski that he is able to take a piece of French plate glass and lay it on the keys, and lay his hand on it as he does on the keyboard of his piano, break it in two with a single stroke of his middle finger.

Next to the great American saengerbunds perhaps the greatest body of singers that ever meets in the United States is the annual conference of the German Baptist church, commonly known as the Dunker church. It has a membership of over 3,000, and the attendance upon these meetings is never under 10,000. Immense tabernacles are provided, which will seat from 5,000 to 8,000 people.

Song Services.
During the conferences they frequently have song services, and the good old-fashioned songs of Wesley, and possibly even the hymns are sung with a zeal and an enthusiasm born of consecrated Christianity. These people are as a rule good singers and have excellent voices, so that one who hears one of the song services will have something to remember. Here, through the German Baptist church, the song services of the Saengerbunders, only that they do not believe in the use of musical instruments in their churches.

THREATENED BY CHIEF OF THE TERRIBLE SIX

Dancing Master at Astoria Receives a Dreadful Warning, Which He Does Not Take.

(Special Dispatch to The Journal.)
Astoria, Or., June 17.—J. A. Martins, who conducts a dancing school in this city, has received an anonymous letter signed "The Chief of the Terrible Six," threatening him with violence and death if he is not 100 miles away from Astoria within two weeks. The letter is written in a school boy's hand, and declares that Martins is interfering with their plan. Mr. Martins does not take the threat seriously, but will place the letter in the hands of the postal authorities if the writer may be arrested and punished.

SOUTHERN PACIFIC REBATES ARE PROBED

San Francisco, June 17.—The federal grand jury today continued its probe into the alleged granting of preferential rates by the Southern Pacific to certain wool and lumber shippers.

The case of a shipper and Lux, who it is claimed by Attorney H. B. Duncan of the interstate commerce commission received rebates on their shipments of wool from points on the San Joaquin river to Stockton, was gone into at considerable length, the retail clerk at Stockton being the principal witness, but little progress was made.

Concessions to Miller and Lux were made by the Southern Pacific, the prosecution maintains, to keep the business from going to the river banks. The case of the wool shippers, the Box & Lumber company was granted a reduced rate on shipments of box shooks from Verdi, Nev., will be heard tomorrow. The lumber company and the railroad say that the reduction in this case was due to an error on the part of the freight department of the Southern Pacific.

CRUISER CALIFORNIA PREPARES TO DOCK

(United Press Leased Wire.)
San Francisco, June 17.—The cruiser California is back from Mare Island, having unexpectedly been ordered here to prepare for drydock. The work of overhauling the ships of the Pacific fleet for the voyage to Hawaii, is being rushed as much as possible by the southern Pacific. The ship is expected to remain at Mare Island some time putting supplies on board, but the California will be ready to receive the ship's crew on board were tendered the children.

TO WHILE AWAY TIME ON TRANSPORT

(Special Dispatch to The Journal.)
Astoria, June 17.—The public school children have been collecting books and periodicals and sending them over to the men on the transport Sherman. A wireless message was recorded yesterday from the vessel stating that the reading matter was greatly appreciated and the thanks of all on board were tendered the children.
