HYDE-SCHNEIDER GUILTY--BENSON-DIMOND FREE

JURY ORDERED TO REACH AGREEMENT

Justice Stafford Declares Case Must Not Go to Trial Again—Reports of Vote Vary From 11 to 1 For Guilty to 8 to 4 For Acquittal.

(United Press Leased Wire.) Washington, June 22.—Hyde and Schneider found guilty on all counts. Benson and Dimond not guilty.

Washington, June 22.—Responding to a summons from the court, the jury in the Hyde-Benson land-fraud cases today filed into court and reported their inability to agree on a verdict. The jury had been out since Friday afternoon.

Justice Stafford refused to accept this as final and again requested the jurors to lay aside all prejudice and opinions formed since they were locked up, and go over the evidence in the case as though no discussion had been held. He asked them to discuss the case dispassionately and try to arrive at a verdict. The jury was again locked up.

Several reports as to how the jury stood were circulated, ranging from 11 to 1 for guilty to 8 to 4 for acquittal, but it is impossible to learn how the jury stands.

Henry McGinn, attorney for J. H. Raley and 11 other defendants indicted in connection with the Umatilla land fraud cases, appeared before Judge Wolverton in the United States district court this morning and asked that the date of the arraignment be postponed until August 1. The request was granted.

Mr. McGinn said that as yet his clients had not had time to go over the indictments and on this account he desires that the final plea of the men be continued until a later date. James E. Hamilton, also, appeared with McGinn for Raley and the others. Those who have been indicted on the charge of conspiracy to defraud the government out of lands in Umatilla county and who appeared in court this morning are: J. H. Raley, John Crow, William Sinsch, John Vart, Charles W. Mathews, G. W. Adams, William Rab, J. H. Parkes, Bailey Ross, Samuel H. Olmstead and C. E. Bowman, Robert E. Porter, of Benton county,

indicted on the same charge, has also had his time of arraignment postponed. William Caldwell and George H. McDonald, both of Umatilla county, have not as yet been served with notice of the grand jury indictment. These three men will probably enter their final pleas along with Raley, Crow and the others August 1. The specific charge against the defendants is that they solicited and persuaded persons to make false and fraudulent applications and affidavits for the purchase of the lands and for a consideration induced the applicants at the time they applied for the land, or prior thereto, to make contracts whereby it was agreed that the lands so purchased should inure to the benefits of the defendants named in the grand jury indictment. It is claimed by the government that the defendants secured the services of laundry girls, laborers, stable men, persons employed in hotels and restaurants, and others in carrying out the conspiracy, these people being paid all their expenses and receiving for their trouble in filing on the land.

WOMEN EXPELLED FROM UNIVERSITY

Czar Issues Sweeping Order Which Creates Widespread Indignation in Russia.

(United Press Leased Wire.)

St. Petersburg, June 22.—Czar Nicholas today promulgated one of the most sweeping measures ever issued in Russia, by which all women students are ordered expelled from Russian universities. The order affects 2,220 women, many of whom are nearing graduation, and the bitterness is widespread.

The czar issued the instructions to Minister Von Kauffmann, chief of the bureau of public instruction. The edict also sets forth that hereafter no women shall be admitted to any of the universities.

It is announced that the action is the result of activity on the part of the women students in revolutionary movements. The women have been open in their encouragement of their students in their attack upon the government.

URGES YOKOHAMA BECOME FREE PORT

(United Press Leased Wire.) Yokohama, Japan, June 22.—Dr. Tajiri, formerly the vice-minister of finance of Japan, in a public speech today urged that Yokohama must become a free port like Hamburg, so that Japan will receive the benefit of increased commerce by way of the Panama canal. The suggestion met with much favor and probably will be adopted, if complications standing in the way can be overcome. Dr. Tajiri said that Japan should be ready to meet the increase in commerce which will follow the opening of the canal and should let no barrier stand in the way of the development of maritime trade.

TWO DEATHS, DOZEN PROSTRATIONS, RESULT FROM CHICAGO HEAT

(United Press Leased Wire.)

Chicago, June 22.—This city today is again in the grip of a terrific heat wave and before noon two deaths and a dozen prostrations were reported.

William Hobson, 55 years old, a waiter, dropped dead in a downtown alley.

Frank Pass, 35, was overcome by the heat and died in a swoon at La Grange, a suburb.

The weather bureau promises no relief until tonight.

In the business section the pavements and stone walls are throwing off heat waves and it is so oppressive

NEWSPAPER MAN NAMED FOR OFFICE

John Callan O'Laughlin Appointed Secretary to American Branch Exposition.

(United Press Leased Wire.)

Oyster Bay, L. I., June 22.—President Roosevelt today announced the appointment of John Callan O'Laughlin, a prominent Washington correspondent, as secretary of the American branch of the Japanese exposition.

John Callan O'Laughlin occupied the unique position in Washington of correspondent of the Mainichi Shimbun of Osaka, Japan, one of the greatest newspapers of the empire. O'Laughlin was also a special writer for magazines. He is a newspaper man of exceptional ability and much respected by the large corps of Washington correspondents.

SHEEPSHEAD BAY CASE POSTPONED

(United Press Leased Wire.)

New York, June 22.—Justice Blanchard in the supreme court today postponed until Wednesday the hearing of the temporary injunction restraining Police Commissioner Bingham from interfering with the "orderly collection of crowds" at Sheepshead bay race course. The postponement was taken to give the state more time for preparation for the hearing. This leaves the temporary order in force pending the hearing.

Killed by Fire Damp.

Paris, June 22.—Twelve miners were killed by a fire damp explosion at St. Etienne today and many others were injured. Details of the catastrophe are lacking so far and it is feared that the death list will be increased. Attention is being given to doctors and hospital supplies have been rushed to the scene.

POODLES IN FAVOR, NOT POOR MAN TO HIMSELF

Dogs' Nails Manicured and Butterflies at \$100,000 a Shower, While Four-a-Weekers Slave in Sight of the Ball Room.

Boston Divine in U. of O. Baccalaureate Sermon Excoriates the Idle Rich—Woful Increase of the Submerged Tenth.

(Special Dispatch to The Journal.)

University of Oregon, Eugene, June 22.—There are women in Boston who send poodles to hear Caruso. They get their dogs' nails manicured. Indeed, I have seen dogs taken to ride in coaches for their health, and a maid would go along to hold a parasol over each one.

With this arraignment of Boston's smug and easy-going bourgeoisie to the graduating class of the University of Oregon, Rev. Herbert S. Johnson, pastor of the Warren Street Baptist church of Boston, has created a stir in local society circles, and those who heard the sermon are today discussing with much interest the marked differences between social conditions in the Hub city and those under which they live.

The speaker also recalled the arrangements made for a recent eastern ball, where \$100,000 worth of imported butterflies were turned loose to delight the guests. He was dealing with the social problem of poodle dogs and aristocracy in contrast with the working people of the country.

The Herding of Humanity. "I am not a pessimist, nor a communist," he said; "neither am I an anarchist nor have I the faintest idea of socialism. I have voted the ticket of one of the two great parties all my life."

"Yet there are many evils. Of these I will refer to only one that marks this age—that is the growth of inequality between classes. The property which is which is rapidly becoming more than a tenth of a century ago some authorities said all the property of the United States was in the hands of 250,000 persons, and at the same rate of concentration in 10 more years the same property would be in the hands of 50,000. Another man says that our country is now controlled by just 1 per cent of the entire population."

Kicked on Real Estate. "There was a time when every man owned his farm, but now because of inventions our population herds together in unthinking masses in the cities. If the whole world were herded like one flock, New York is the fattest part of the earth would be living in a land no bigger than New Jersey."

Mr. Johnson asked, "that I have a friend back east who takes city children for fresh air, and these come in and are struck because the milk was yellow and rich, and not blue and thin, like the kind the rich children had at home? There are children 5 years of age in Boston who have never seen a blade of grass. Such as these are mere cogs and pulleys in the world."

The Butterfly Ball. The preacher then referred to Boston society leaders and their poodles. "At a ball in the home of a New Jersey belle, after wine of the costliest kind had been served," he continued, "and after the hall had been decorated with American Beauty roses bought for \$12 per dozen, the fatter company took thousands of yellow, gaudy colored butterflies to flutter about until they fell from exhaustion under the feet of the dancers. And these butterflies, imported from South Africa and the South Sea Islands, cost not less than \$100,000, while four blocks from that ballroom there were women earning through the whole week only \$4."

Dr. Johnson graduated from the University of Oregon in 1889. His father was its first president.

RECORD WEEK FOR NEVADA GOLD OUTPUT

(United Press Leased Wire.) Reno, Nev., June 22.—According to a smelter report just made public the Rogers mining syndicate has just completed the record week in gold production, having taken out \$744 an hour from the mine from June 3 to June 10. The work in the smelter company gave the state more time for preparation for the hearing. This leaves the temporary order in force pending the hearing.

Paris, June 22.—Twelve miners were killed by a fire damp explosion at St. Etienne today and many others were injured. Details of the catastrophe are lacking so far and it is feared that the death list will be increased. Attention is being given to doctors and hospital supplies have been rushed to the scene.

FORGETS HIS NAME; WRITES TO HIMSELF

Newspaperman's Memory Is Destroyed by Blow on Head—Sends Letter to His Home, Wife Recognizes Writing—Identifies Him.

After Encounter With Thug Victim Assumes New Name and Secures Employment on California Ranch.

(United Press Leased Wire.)

Los Angeles, June 22.—George Blair Harrison, formerly a Kansas newspaper man, whose remarkable lapse of memory and dual personality form one of the queerest mental distortions on record, left on the Santa Fe overland train for Topeka, where his wife and children eagerly await his coming. Harrison spent yesterday and half last night in conference with his sister-in-law, Mrs. W. B. Swan, who is visiting relatives here, learning of his forgotten life history and this morning he declared that he was convinced that he is another individuality and not "George Blair Harrison" as he addressed his own following the loss of his memory of the past.

Harrison, up to a few days ago, had been working on a chicken ranch near San Diego. His whereabouts was made known through the remarkable fact of his having written a letter to himself, which he sent to his former home.

He had disappeared from Kansas City on January 4 of this year. The letter in which he addressed his own name was opened by his wife who recognized the handwriting as her husband's. She wrote to him asking for a photograph and a description of marks by which he might be identified. In return for this letter he received the following telegram:

"You are my husband without a doubt. Every identification complete. Am bringing you money for journey to Topeka."

A hit on the head by thugs is supposed to be responsible for Harrison's subsequent assumption of another personality.

FORGED CHECKS, FIANCEE SENDS BACK PRESENTS

Edgar Storey, arrested Thursday for passing fictitious checks, this morning received by messenger several presents which he had sent his fiancee, the young woman to whom he was to have been married the day following his arrest. In the packet were a locket and chain and several expensive pieces of jewelry.

Captain Baty took charge of the trinkets. He also transmitted a message from the messenger to the effect that should Storey ever impose his presence at the home of his late fiancee he would be given a rapid-transit ticket to one of Portland's hospitals. Storey pleaded guilty to one charge in Judge Cameron's court this morning. Further charges will be filed against him tomorrow morning.

Robbed Women in Church.

(United Press Leased Wire.) San Francisco, June 22.—The police are today looking for a woman whom they describe as a "big" and "fat" practice of robbing wealthy women while at prayer in St. Mary's cathedral here, the largest Catholic church in the west.

The latest victim of the mysterious woman burglar is Miss S. Contesse Seawall, of Norfolk, Va., who lost a handbag containing \$105 in gold and some valuable stones. She rose from her prayer to find that another bag had been substituted for her own. She suspects a woman who was praying next to her.

Crawford Renominated.

(United Press Leased Wire.) Asheville, N. C., June 22.—The Democratic congressional convention of the North Carolina district was held here today and resulted in the renomination of Congressman William T. Crawford without opposition.

GOMPERS PAUSES WHILE PHOTOGRAPHED FOR JOURNAL

Samuel Gompers Paced for The Journal Staff Photographer at Chicago. Mr. Gompers Was in Chicago Looking After Labor's Interest During the Convention.

TAFT ARRIVES AT NEW YORK

Presidential Nominee Given Ovation by People of Metropolis.

(United Press Leased Wire.)

New York, June 22.—William H. Taft was greeted with loud cheers when he arrived at the Pennsylvania station in Jersey City today and was given another ovation when he landed at the Twenty-third street ferry station. It was New York's first glimpse of Taft as the candidate and the reception was up to the expectations of the party leaders.

With Taft was Frank B. Kellogg, special counsel for the government in the suits against the Standard Oil company. They went directly to the Hotel Manhattan where they held a conference on trust matters.

Mrs. Taft and his daughter were at the Manhattan vice-presidential candidate, and greeted his interviewers with vigorous handshakes and broad smiles. He said that he expects to spend September and October at his home in Cincinnati.

CRACKSMEN LOOT TWO LOS ANGELES SAFES

(United Press Leased Wire.)

Los Angeles, June 22.—The police and detective forces today are endeavoring to secure some trace of the cracksmen who during the night rifled two safes in the heart of the city and stole money and jewelry to the value of \$2,000. Both safes were opened by purchasing the combination locks. The officers are endeavoring to trace the heavy chests, which were found lying on the floor.

UNITED STATES AND MEXICO FEAR YAQUIS ARE PLANNING MURDER

(United Press Leased Wire.)

City of Mexico, June 22.—Fearing a massacre of Americans by Yaqui Indians in the northern state of Mexico, United States and Mexican troops today are waging vigorous warfare to crush forever the murderous tribes. In a battle at Boca Vista, in the state of Chihuahua, the Indians resisted so desperately that 20 were killed and many wounded before they were put to flight. The townspeople of Boca Vista, even the women taking a hand in the fray.

DEVIL FASTERS STARVE WOMAN

Police Investigating Death of Wife of Leader of New Cult at Zion City.

(United Press Leased Wire.)

Chicago, June 22.—Following the allegation that she was starved to death by the "devil fasters" the police today are making an investigation of the circumstances surrounding the demise of Mrs. Louisa Thompson, wife of the Rev. Adam Thompson, of the new cult at Zion City.

Sensational exposures are promised, but so far no arrests have been made. The woman was buried last Friday, but since then the police have received information that led to vigorous action.

It is alleged that the cult decided Mrs. Thompson was possessed of the devil and she was subjected to the fasting treatment by which they hold it is possible to "expel devils."

The police have been informed that the woman went 41 days without food of any kind or a drop of water. According to the story, when she begged for a morsel of food or a drop of water, crying out that she was being gnawed to death by the pangs of hunger and burning up with thirst, the watchers refused saying:

"Hold out a little longer, dear sister, and the one will be defeated in the heart of the city and stolen money and jewelry to the value of \$2,000. Both safes were opened by purchasing the combination locks. The officers are endeavoring to trace the heavy chests, which were found lying on the floor."

HAMBURG WORKMEN ARE CAUSED OF PLACING BOMB IN HOLD OF LINER ARCADIA

(United Press Leased Wire.)

Philadelphia, June 22.—The coroner's officers are today investigating further the hold of the wrecked Hamburg-American liner Arcadia, in which an explosion occurred killing three persons Saturday, and it is admitted today that indications point to the theory that a bomb had been placed in the cargo of the vessel.

UNITED STATES AND MEXICO FEAR YAQUIS ARE PLANNING MURDER

(United Press Leased Wire.)

City of Mexico, June 22.—Fearing a massacre of Americans by Yaqui Indians in the northern state of Mexico, United States and Mexican troops today are waging vigorous warfare to crush forever the murderous tribes. In a battle at Boca Vista, in the state of Chihuahua, the Indians resisted so desperately that 20 were killed and many wounded before they were put to flight. The townspeople of Boca Vista, even the women taking a hand in the fray.

The war department has prepared a campaign of extermination, believing this to be the only effective means of putting an end to the depredations of the unruly Indians. The Yaquis, by some mysterious means, have spread among the tribes the news of the government's intention and are beginning to gather for one last desperate stand.

OAKS FLIER STRUCK BY DRAWBRIDGE

Lives of Fifty Passengers on Catamaran Imperiled by Attempt of Captain Larson to Operate Craft Without Assistance.

Persons Aboard Boat Alleged Skipper Tried to Run Engine, Handle the Steering Wheel and Collect Fares at Same Time.

(The lives of 50 passengers on the Oaks Flier were imperiled yesterday afternoon when the boat, in attempting to make a landing at the Morrison street dock just above Morrison bridge, was struck by the opening draw and a portion of the canopy roof torn off. It is alleged by the passengers that there was but one man to operate the boat—to steer, run the engine and collect fares. They say it was a matter of luck that a much more serious accident was averted and that the collision was caused by the inability of Captain John Larson to both steer and operate the engine.

It was just 5:45 o'clock when the accident occurred. The Flier was loaded with a crowd of Sunday excursionists returning to the city from the Oaks. At the boat, which is a catamaran, propelled by a gasoline engine and with seats running along the rail around the entire craft, drew near its landing at Morrison street, the steamer Pomona, bound down stream, whistled for the bridge and made for the east side of the draw. Captain Larson tried to get down ahead of the Pomona, swing towards the west bank in an arc just above the Morrison bridge and make his landing with the bow facing upstream. He swung around in front of the Pomona all right but got too near the bridge so that when the draw opened it struck the port side of the canopy over the bow of the boat, tearing away a wooden frame and the canopy for about six feet square and careening the boat until the passengers, fearing that it would be overturned, prepared to jump overboard.

Owing to the old law that a body cannot be two places at the same time Captain Larson was unable to stick to his wheel and also run back and reverse his engine in time to avert the collision. He backed out, however, before any more damage was done to his boat, and made a safe landing.

Their but became considerable criticism of the Flier along the waterfront because of the fact that one man operates it. It's a boat 10 feet long and 10 feet wide, with 60 to 70 passengers. The steering wheel is in the bow and the engine is at least 10 feet back from the wheel so that it is necessary for the operator to run from one place to the other constantly. At times there is a flicker, but the steering wheel is alleged, Larson steered, ran the engine and collected the tickets.

BLAME STRIKERS FOR EXPLOSION

Hamburg Workmen Are Accused of Placing Bomb in Hold of Liner Arcadia.

(United Press Leased Wire.) Philadelphia, June 22.—The coroner's officers are today investigating further the hold of the wrecked Hamburg-American liner Arcadia, in which an explosion occurred killing three persons Saturday, and it is admitted today that indications point to the theory that a bomb had been placed in the cargo of the vessel.

The explosion occurred in a compartment of the ship in which no explosives had been stored. The sides of the compartment were filled with small holes as though they had been hit by a bunch of bullets or a lot of scrap iron. The officers here believe that strikers in Hamburg placed the bomb in the ship thinking to destroy her at sea.

UNITED STATES AND MEXICO FEAR YAQUIS ARE PLANNING MURDER
