British Steamer Aeon Here to Load Lumber for New Zealand.

GERMAN BARK BRINGS CEMENT

Albert Rickmers Has Rough Time Doubling Cape Horn on Way to Columbia River—Steam Schooner Johan Poulsen Brings Redwood.

The British steamer Aeon of the Australian Mail line, arrived here last night and went to the mills of the North Pacific Lumber company to load 1,000,000 feet of lumber.

From here the Aeon goes to San Francisco to pick up general freight and the mail. She came here from Eureka, California, where she took on about 1,000,000 feet of redwood lumber, also consigned to Australian ports.

The Aeon is the first large steamer owned in Australia to arrive here and she is as fine a craft as is often seen of her class. Although in the Australian Mail line under charter to Frank Waterhouse & Co., she belongs to Howard, Smith & Co. of Sydney and Melbourne, who operate a large number of steamers in the Australian coastwise trade.

The steamer Breakwater, which arrived at Baneland's wharf yesterday afternoon from Coos bay, had a pleasant run up the coast. She brought a full list of passengers but a light freight.

ADDED TO MYSTERIES.

All Hope of Overdue Ships Arriving Practically Abandoned.

All hope of the British ship Falkland Bank ever reaching port has now been practically abandoned. She was to come here this summer for wheat but she has failed to show up at the South American port for which she was enroute when engaged to come here and it is believed that she foundered in a storm or was rammed and sank in a collision, of which the details are yet to be known.

SCHOONER OLSON HERE.

Second Craft of Her Class to Load Wheat This Summer.

The sailing schooner Oliver J. Olson arrived up at Montgomery dock No. 2 yesterday to load wheat for San Francisco. She is the second vessel of her kind to engage in that class of trade this summer, the big four-masted schooner Miforo having taken cargo to the Bay City a few weeks ago.

The Olson is well known here, having formerly been engaged in carrying lumber from local mills to San Francisco and southern California ports. She belongs to Olson & Mahoney of San Francisco and is named for one of the senior member's relatives. She will carry away approximately 1,500 tons of wheat.

But for heavy wheat shipments for the several weeks past, the coming vessels would have had little business, lumber traffic being dull for the present.

Remember the Name P. & G. Naphtha Soap. It is white and is enclosed in a blue and white wrapper.

Read and follow the directions on the inside of the wrapper and satisfy yourself beyond question or doubt that "P. & G." is the best naphtha soap; the best laundry soap; a time saver, a labor saver, a money saver.

When you have done this, you will—in justice to yourself—insist that, hereafter, your grocer give you P. & G. Naphtha Soap, and none other.

Remember the name—Procter & Gamble's Naphtha Soap.

But if you cannot remember the name, remember this description: The white naphtha soap in the blue and white wrapper.

P. & G. Naphtha Soap—at all grocers.

ent. Most of the steam schooners have wheat in the hold and lumber for deckload.

LEAVES TOMORROW.

Transport Sherman Will Not Remain Here Very Long.

The government transport Sherman will leave Greenich wharf at 2 o'clock tomorrow morning for San Francisco, carrying most of the casualties who came here on her from the orient. She is being relieved today of baggage belonging to members of the First infantry who are being conveyed to Vancouver barracks on a steamer.

The Sherman arrived up yesterday afternoon and attracted considerable attention. She is a neat and clean craft, despite the fact that she brought some 1,200 passengers from the islands and was 46 days on the way, including all the stops made.

ALONG THE WATERFRONT.

The gasoline sloop Condor leaves Greenich wharf at 10 o'clock for Waldport and Newport.

The steamer Mascot brought a load of cattle this morning from the lower river for the stockyards in North Portland.

The remains of W. D. Whitlam, Harold Ferguson and Earl Lee Tatum are being brought to San Francisco on the transport Sherman from Manila.

The oil carrier Atlas was at the tanks near St. Johns yesterday and discharged a cargo of oil.

BOY ESCAPES DEATH ALMOST BY MIRACLE

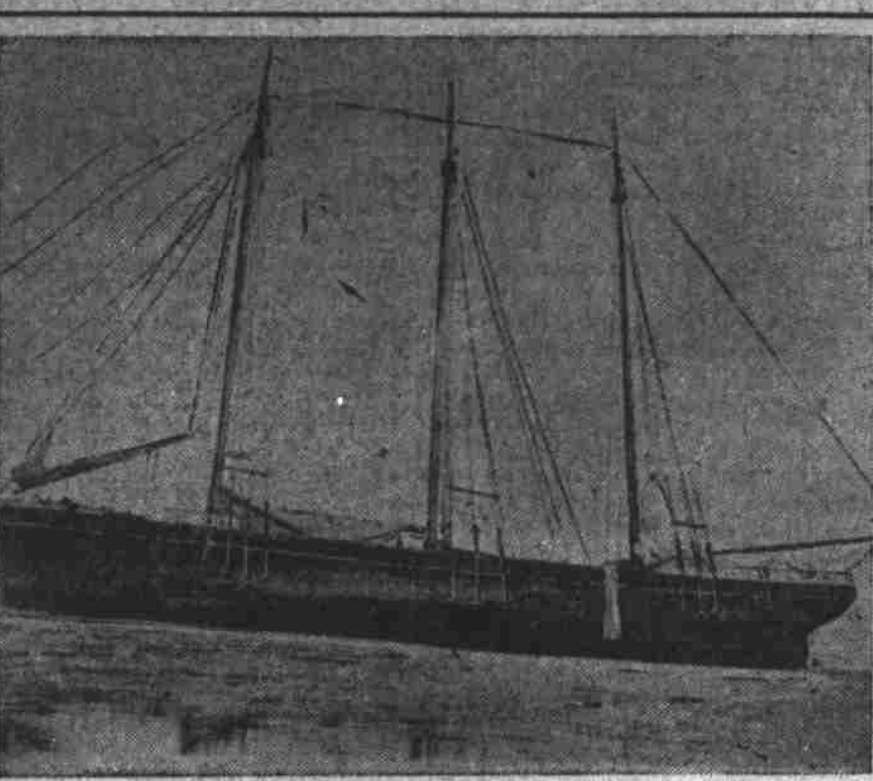

Moses Shulman, aged 7 years, was struck by Fulton car 194 Sunday morning at 3:35 o'clock at the corner of First and Mill streets and escaped death by a miracle. He was playing in the street and did not see the approaching car. He started to run across the tracks when the car was within 100 feet of him.

The motorman clanged the gong but the little fellow appeared not to hear it, instantly the air was thrown on and the power reversed. The boy had just cleared the tracks when the corner of the car struck him in the back. He was thrown several feet, his clothing being almost torn off. Outside of a bruised head he suffered no serious injury. He was removed to his home in an ambulance. He was reported considerably improved this morning.

MARRIAGE PROPOSAL PRECIPITATES FIGHT

Because William Fanning took exception to a remark that he should enter conjugal bonds he swore to a complaint this morning charging John Doe with assaulting his person. Fanning is about 50 years old. Saturday night, he says, he was drinking in Blazer's saloon, 308 North Thirteenth street, when one of his drinking companions told him he was old enough to get married. He offered to secure Fanning a wife. Fanning took exception to the man's badinage and a fight followed in which he claims to have been beaten with a billiard cue and a beer bottle.
