
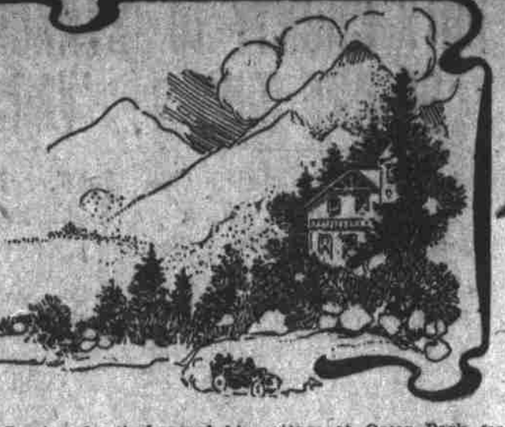
Summer Resorts and THEIR VISITORS.



SEASIDE, Or., June 27.—The week past has been a busy time at Seaside. The advance guard of the summer's crowd have arrived and begun to open cottages, cut grass and fix fences. The sound of the hammer and the squeak of rusty hinges are in the air from morning till night. There are many cottages open and some of the early arrivals are all settled for the summer.

The season opens with a number of material improvements along the beach. The Boardwalk has been extended up the ocean front to the Necanicum bridge, a number of new cottages have been built and most of the summer hotels have put in improvements.

Along the Shell road things have begun to take on a familiar appearance. Small crowds congregate around the bowling alley, go to the train and wait for the distribution of mail at the post-office. The shooting gallery man is on hand and the moving picture theatre has started up. The Shell road photographer has opened his booth and the candy stores have been popular for a week. On the bridge, the Necanicum and the beach former season's visitors are greeting each other and when the sun came out bright and clear on Tuesday all Seaside rejoiced.

Visitors Catch Fish.

Guests at Sargent's Seaside house were afforded considerable entertainment in the early part of the week at the expense of a school of Columbia river smelt which were driven on shore and easily dipped up from the shallow water with nets and buckets. In the course of the afternoon quite a number of fish were taken from the water. Sea lions are supposed to be the cause of the fish being driven ashore. There are any number of these monsters to be seen now. Some come quite near to Pacific pier.

Professor Kitterman has opened his dancing pavilion at Seaside.

Razor clams are in abundance.

Baseball at Seaside.

Baseball promises to be a popular amusement at Seaside this summer. G. L. Detweiler, the Seaside manager, has a schedule of games which extends almost through the whole summer. The games will be played at the Seaside ball park and the list includes the Strollers and Holladay Maroons of Portland and a number of other good games

New Managers.

There have been some changes in the management of the summer hotels. Nicholas F. Sargent of Portland has the old Seaside House for the season. Mr. Sargent has completely renovated the historic old hostelry and it promises to be an extremely popular resort.

D. J. Quimby and son of Portland have leased Locksley hall and are putting forth every effort to make it a first class hotel in every detail. Mrs. L. A. Carlisle has retired from the active management of the hall and will occupy one of the cottages with her son, Dr. Carlisle, who has been abroad for a number of years.

L. P. Harreschou has put improvements in the Pacific View hotel and will manage it for the season.

The Commercial hotel is under a new manager, E. E. Woodworth. The place promises to be popular on account of its location near the depot.

G. L. Detweiler, a capable young manager, will run the McGuire hotel for the summer.

LONG BEACH AND VICINITY

Long Beach., Wash., June 27.—Quite a number of Portland families are in their cottages at Long Beach, and since the beginning of the Potter's summer schedule there has been a daily increase. There was some rainfall during the week, but not enough to frustrate the enthusiasm of the early arrivals and what appears to be the start of a fine beach season is at hand.

A hundred young men from the colleges of the northwest have been in attendance at the Y. M. C. A. conference at the Hotel Breakers. The afternoons have been given over to sport, and several baseball games have been played. In the series of games played the colleges of the Willamette valley won over those from the inland empire and the north.

New Railroad.

Megler, the new O. R. & N. station, is almost directly across from Astoria, and is reached from the latter place by boat in the period of half an hour. The company has a commodious wharf, with the proper facilities for taking care of large crowds of summer visitors. The O. R. & N. trains meet the boats at Megler and take passengers down the Washington side of the bay to Ilwaco, and North Beach points. The Potter train covers the distance between Megler and Nahcotta in one hour and fifty minutes. The new road bed is 15 miles in length, and runs along the picturesque north bank of Baker's bay. There is a 952 foot tunnel under Fort Columbia, and considerable of the land along the approach to Ilwaco has been diked. Over 1,000 men have been at work on the road. New equipment has been put in and a number of new station houses built. Trains have been running since the first of the month, but the new schedule which went into effect Wednesday cut one half an hour off of the former time between Megler and Nahcotta.

Superintendent E. R. Budd had a smile of satisfaction on his face as he stood on the back platform of the first train of the summer schedule.

"Burn wood, Mr. Budd?" he was asked.

"No, sir," came the reply; "oil; our engines all oil burners." Then some one absorbed in the scenery remarked that the road should put on an observation car over the new run, and the jovial superintendent smiled all the rest of the way to Ilwaco.

The Fourth at Long Beach.

OCEAN PARK

When the first Potter special of the season pulled into Ocean Park Wednesday it found the season practically opened and quite a number of families already comfortably settled in their cottages for the season. A number of new cottages have been built during the spring and improvements put in some of the old ones.

E. J. Sprague, the father of Ocean Park, was on the platform when the train pulled in to welcome the arrivals with his congenial smile and hearty handshake. Mr. Sprague has done a great deal to build up Ocean Park and is enthusiastic over the future of the resort. Former residents recognized the familiar form of Charles H. Hill who is the pioneer storekeeper of the park. Mr. Hill predicts the coming season to be one of the best in the history of the park and estimates that the summer's crowd will number from 1,500 to 2,000 persons.

Residents of Ocean Park say that there is an abundance of clams on the beach.

TRAINING SCHOOL GREAT SUCCESS

Y. M. C. A. Doing Excellent Work for Young Persons at the Breakers.

(Special Dispatch to The Journal.)

Hotel Breakers, Wash., June 27.—The leaders of the Young Men's Christian Association of the northwest are conducting a training school here this week. Men who are going into the work of the city associations are being put through a special course to fit them for the employ of the various departments of Y. M. C. A. work. Each morning the candidates for the position of physical directors are put through a course of exercises and drills on the association's apparatus which has been shipped here from Portland. The directors from the Y. M. C. A.'s gymnasiums at Portland and Seattle are directing the physical training, and Dr. Harry Start of Portland is giving a course of lectures on "First Aid to the Injured." In addition to this the men are being instructed in Bible study and other branches of the association work. Those who compose the faculty are: A. M. Grilley, Portland; A. G. Douthett, Seattle; I. B. BAKER CITY TO HAVE BABY SHOW

(Special Dispatch to The Journal.)

Baker City, Or., June 27.—Baker City is to have a baby show. It will be held on Friday afternoon, July 3. Seven prizes will be given for the baby parade.

Three judges will make awards to the following: To the prettiest baby boy, prettiest baby girl, fattest boy, fattest girl, best looking twins, best decorated carriage and gocart and to the handsomest attendant.

The babies will be arranged in single file at Fountain square and then the procession will proceed to the trail, wheeled in carriages or gocarts by mothers or attendants.

The Dallas Itemizer says that a green house and a concrete factory would do well in that town.

Y.W.C.A. MEMBERS DO GOOD STUNTS

Vary Monotony of Convention With College Pranks on the Sward.

(Special Dispatch to The Journal.)

Seaside, Or., June 27.—A wholesome Christian spirit has enveloped the industrious workers at the Young Woman's Christian associations now assembled at Sargent's Seaside house, and as the end is in sight the interest in the meetings and classes grows rather than slackens. The most delightful weather of the last few days has made no appreciable difference in the attendance, which goes to show that the delegates have come to receive as much as possible from the conference, and not for pleasure. All the meetings yesterday were unusually strong.

Rev. H. F. Laflame of New York City, who is leading a mission study class on Japan, has come to the most interesting part of the course, and those who are expecting to go into the foreign field listen with close attention to the advice and instruction of one who has himself been an active missionary in that country. The class on "City Association Work" is considering the results of the various plans tried by the different associations in their several branches of work, thus getting at the most practical and economical way for all.

Yesterday as "association day" was the most successful of any since the beginning of the northwest conferences four years ago at Gearhart Park. Immediately after luncheon the 175 delegates formed in a line and marched to the large tent on the golf links, where each delegation performed some original stunt. Several of the college representatives gave their school songs and yells. The Whitman college delegation recited the historical founding of their school by the veteran missionary, Marcus Whitman, and concluded with their college song; they had general supervision of the program and decorating. The delegates from the sound associations arranged a fleet of four war vessels and marched across the stage tooting horns. The representatives from Pacific university gave a very clever presentation of Balboa discovering the Pacific, other college pennants representing the ocean.

The Portland aggregation did a very clever stunt. They came in carrying bags on which was written "Seattle." At a given signal they blew up the paper bags and popped them. Another member of that association came in wheeling a baby in a carriage marked "Baby Bellingham." The stunt of the Portland association made a big hit.

The platform address last evening was given by Rev. J. Van Horn, pastor of the Plymouth Congregational church of Seattle on the subject, "Sweet and Normal Religious Life." He said that many Christians have a mistaken conception of the relation of the religious life to the natural and social life. Our minds should be kept ready to accept all truths.

He took up the many things that have stood in the way of the acceptance of Christianity. He said that for a time geology conflicted with the statements of the Bible concerning the creation of the earth in regard to the "day" as used in Genesis, but that later study has shown us that "day" in Hebrew does not necessarily mean 24 hours, but a period of time. In spite of the persecution and suffering of the followers of the church during the ages, the organization has continued to grow larger and stronger. Notwithstanding the sharp criticism which has been used against the Bible, more of them are being studied, printed and bought than ever before. This is the strongest argument that can be used in favor of the truth of the Bible.

At one time the theory of evolution, he continued, scared the world. There were those who said that if we accepted it we would have to throw over the Bible, but it has only served to stronger prove the authenticity of the history of the Old Testament.

"I am convinced," he said, "that we are presently to have that which the world demands—a reason for things, for it goes against the grain to accept a faith without a clear demonstration. I believe we shall soon have a scientific basis for faith. Have we not a scientific basis to put under the whole matter of prayer? If I am a personality and God is a personality, and if I am in tune with him can not he hear and answer prayer?"

He then stated that prayer is the attitude of the soul toward the infinite God and the answer of prayer is the control of a strong mind over that of a weaker, similar to hypnotism. "The prayer that is God's will first and our will second because we have yielded our will to that of God, will surely be answered."

Before the meeting the banner for the association which has shown the most growth during the past year was given to the Bellingham State Normal school. Miss Walker of the Seattle Young Woman's Christian association played a violin solo, and Mrs. Fletcher Lynn of Portland, rendered a beautiful song.

The late arrivals are Miss Mary Asborn Hillis, Seattle; Dr. Henry K. Booth, Berkeley, Cal.; Miss J. Edwards, Portland; Rev. H. F. Laflame, New York City; Miss Georgia Ewing, Oswego, Or.; Miss Constance McCorkle, Portland; Mrs. Beherald, Portland; Miss Stott, Portland; Rev. F. J. Van Horn, Seattle; Mrs. Campbell, Miss Swigert, Miss Shelly, Miss Briggs, Portland.

S. P. C. A. WON'T STAND FOR TORTURING RATS

(United Press Leased Wire.)

San Francisco, June 27.—The common rat, for whose extermination San Francisco has paid Dr. Rupert Blue and his corps of health officials $15,000 a month for nearly a year, has at last found someone to espouse his cause in the S. P. C. A. and the local police department.

Policeman W. G. Logan today arrested Ah Jim, a Chinese fisherman, for torturing a rat. Am Jim and a number of fellow fishermen had caught a rat on Fisherman's wharf, and preliminary to presenting its skin to Dr. Blue to receive a bounty of 15 cents, they crucified the rodent on a board.

Logan wandered in about this time and placed Ah Jim under arrest.

It is understood that the district attorney's office, which is at outs with Dr. Blue, will prosecute the case and interesting developments may be looked for.

160-ACRE PARK FOR M'MINNVILLE

(Special Dispatch to The Journal.)

Astoria, Or., June 27.—Marshall J. Kinney, formerly of this city but now a resident of Portland, is undertaking a philanthropic work that will perpetuate specimens of all the native Oregon trees. A number of years ago Mr. Kinney's father, the late Robert C. Kinney, and his oldest brother, A. W. Kinney who died about 20 years ago, enabled the establishment of the McMinnville college by endowing the institution with a large sum of money. Marshall J. Kinney as well as his brothers was educated at that institution and in order to assist the college founded by his father and brother, Mr. Kinney has recently purchased 160 acres of land lying adjacent to the college grounds, which will be transformed into a magnificent park and presented to the institution. Mr. Kinney is now arranging to have the park planted with specimens of every variety of trees which are native to Oregon.

EMPLOYMENT AGENTS FLEE DUPES' WRATH

(United Press Leased Wire.)

San Francisco, June 27.—Scores of men seeking employment, most of whom are Italians, have been victimized by employment agencies in this city, which have collected various sums of money on the pretext of securing them positions at points along the coast. When a number of these men called at one of the agencies to demand their money back the people in charge professed not to know them and had them ejected by a policeman on the beat. After a warrant had been sworn out for the arrest of the employment people it was discovered that they had fled.

VALUABLE CAMPHOR QUALITIES IN HEMLOCKS

(Special Dispatch to The Journal.)

Astoria, Or., June 27.—Dr. Hawley, the forestry expert who is makink an examination of the logged off lands in this vicinity, has made a discovery that may result in greater benefit than expected. In rendering the roots of hemlock trees he produced quite a quantity of camphor with his primitive test furnace. He is confident that he can procure enough camphor from the roots and stumps to allow of a comfortable surplus over the cost of clearing the land on which the stumps are situated.

The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading teachers and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a *free* copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

The Big Head

is of two kinds—conceit and the big head that comes from a sick headache. Does your head ever feel like a gourd and your brain feel loose and sore? You can cure it in no time by acting on your liver with Ballard's Herbine. Isn't it worth trying for the absolute and certain relief you'll get? Sold by Skidmore Drug Co.
