# KRIBS WILL BE NEXT GOVERNMENT WITNESS

### Promise Given Defendant's Attorneys Will Discomfort Timberman.

The James Henry Booth bribery trial in the United States court was adjourned yesterday at noon until tomorrow morning at 11 o'clock with J. T. Bridges, the first and only witness to date, still on the stand. It is not expected that the defense will finish with Bridges on cross examination much before noon. The principal witness for the government is to be Frederick Kriba, who is said to have given Booth, the defendant, \$500 for advance information regarding the inside workings of the land office at Roseburg. Kriba will be placed on the stand soon after the government has finished with Bridges.

It is expected that the attorneys for the defense will cause Mr. Kriba to spend some unprofitable moments during his time of testimony, since he was scored unmercifully in the opening statement of Dan J. Malarky, who referred to him as a wholesale criminal and a man of many crimes, equally guilty with the defendant in the event that the story of the prosecution were proved.

Judging from the progress that has been made during the past week in the trial, it is believed that the defense towards the last of the week before the evidence is all in. It would not be surprising if the case did not go to the jury until the first of the coming week.

# BRYAN HAS HIS FINGER ON BUTTON

(Continued from Page One.)  
Missouri; Archibald McNeil of Bridgeport, Conn., coal dealer; John W. Kern of Indiana; Benjamin F. Shively of Indiana; David R. Francis of Missouri, cabinet minister under President Cleveland, and Senator Charles Culberson of Texas, all have their friends and boosters, but—and there is a real "but" here—after everything is considered the candidate will probably be picked not here in Denver by the convention, but in Lincoln, Neb.

No matter what happens, the platform will be a strong one and will advocate the Bryan policy. It does not require two thirds vote to adopt the resolutions, simply a majority, and the Bryan men will control the camp. The conservative wing of the Bryan movement, led by former Judge Alton B. Parker, New York's member of the committee on resolutions, and the Bryan followers will be directed by "Jim" Dahlgren, cowboy mayor of Omaha, national committee man from Nebraska and Bryan's personal representative. Dahlgren got in today with a copy of the Nebraska fall form in his pocket. This was drafted by Bryan and he is understood to favor framing the national declaration along its lines.

# PHILIPPINES CANT CAST THEIR VOTES AT DENVER CONVENTION

Denver, Colo., June 27.—Reports that there would be trouble in the committee were absolutely without foundation. Mayor James H. Dahlgren of Omaha stated that former Congressman Bell was the choice of Mr. Bryan for temporary chairman, and on motion of Col. Johnston, committeeman from Texas, he was invited to accept the position. Before the committee adjourned an answer was received from Bell announcing his acceptance.

**Committee Selects Officers.**  
Ursula Woodruff was selected as temporary secretary of the convention and Edwin Sexton of Washington, D. C., secretary. Col. John I. Martin of Missouri, James H. Dahlgren of Omaha and J. C. Fenn of Indiana as chief assistants. N. P. Crutcher of Kentucky was the selection for permanent secretary and Roger C. Sullivan of Chicago chief doorkeeper. The number of reading clerks and assistants was limited to 15 to be named by the chairman and secretary of the national committee, who will also name tally clerks and messengers.

On motion of Roger Sullivan of Illinois the Right Reverend James J. Kline, Roman Catholic archbishop of St. Louis, was named as the chaplain for the opening day. The selection of clergymen to serve on the following days was left to Chairman Barrett.

**Philippine Delegates Can't Vote.**  
Upholding the precedent established at the national convention of 1904, when it was decided that the Philippine islands could never be recognized as an integral part of the United States, the committee decided the delegates sent from the islands shall have no voice in the deliberations.

They will, however, be given an opportunity to view the proceedings. The committee decided to seat them among the alternates, but without voice or vote in the proceedings.

Members of the committee stated after the meeting adjourned that it was not authorized to pass upon the question of permanent duty devolving on permanent organization when selected. However, it was learned that the committee was unanimous in believing that Congressman Henry D. Clayton of Alabama is best qualified and his selection will probably be recommended.

# DELIRIOUS PATIENT LEAPS TO DEATH

(Special News by Longest Leased Wire.) Chicago, June 27.—While his nurse was out of the ward to get a glass of water, Norval Malley, a patient at the Baptist hospital, left his bed and sprang head foremost to the top of an adjoining building 30 feet high. The fall killed him. Malley was delirious when he made the leap.

# COURT'S RULINGS WALTON'S APPEAL

### Attorneys for Convicted Man Base Hope on Judge's Decisions.

Numerous errors alleged to have been committed by Circuit Judge Cleland in making rulings adverse to their client are cited in a motion for a new trial for Charles W. Walton, filed in the circuit court yesterday afternoon. On this showing it is proposed to carry the case before the supreme court. Walton having been convicted of shooting Patrolman Olaus Nelson after a hard fight on his fourth trial.

A motion is also made at the same time to be submitted at the same time as the motion for new trial. Various points advanced indicate that the defense is loaded with technical points to combat the case in the higher court.

Objection is made to the reception of the evidence of Emanuel Johnson, conductor on the streetcar that Walton is alleged to have held up Johnson in the east, and his testimony in the first trial was read to the jury from stenographer's notes, over the objection of the defense. Similar objection is made to the reading of evidence given in the first trial by Police Sergeant Fireboom, who has since died.

The defense alleges that Judge Cleland erred in refusing to allow Mrs. W. Smith to contradict the testimony of Police Captain Slover in regard to a conversation that Slover is said to have had with Nelson in the hospital when Nelson was thought to be mortally wounded, in which the patrolman is alleged to have said that he did not know who shot him. Error is likewise claimed in the admission of the testimony of Miss Emma Butler, juvenile court officer, who read from the register of the Couch school to show that Walton's age is two years more than he now declares it to be.

It appears that Judge Cleland also failed to give 14 instructions to the jury asked for by the defense. Error in that regard is claimed. There are still other grounds of a technical sort by means of which Walton's attorneys hope to save him from the penalty of the law.

The time for passing sentence has not yet been fixed. How long Walton will remain in the county jail is an open question, and the light to remain here pending the appeal.

# FATHER BEATEN IN BED, LITTLE GIRLS SWEAR TO WARRANT

Two little girls, one with a blackened eye, got up their courage yesterday afternoon, came to the municipal court and swore out a warrant for the arrest of the man, who they said, had beaten their bedfast father the night before.

Ruth Potter, 18 years old, was the complainant, but her 11-year-old sister did as much talking as she. Union Barrett, they told Clerk Hennessy, had brought their father, who is stricken with rheumatism, a bottle of whiskey and an argument arose over the payment of it. Barrett, they said, struck their father, and when Ruth rushed into the girls' room and attempted to protect her helpless father, Barrett turned upon her. She exhibited a bruised eye and ear as evidence. The children declared that once before Barrett had tried to rob the house, taking advantage of the fact that Potter was tied to his chair.

Clerk Hennessy questioned them closely as to their knowledge of the meaning of an oath, but both adhered to their original story and declared they would tell the same tale on the witness-stand in the municipal court. The Potters live at 1115 East Twenty-seventh street north.

# FATHER SCORED FOR NEGLECT

### Judge Administers Scathing Rebuke to Parent Who Cast Off Daughter.

Because he has failed to pay \$160 that he was ordered to pay in monthly installments of \$10, for the support of his little girl, beginning last March, Denton Coffey was compelled to undergo a scathing examination in Judge Gantenbein's department of the circuit court yesterday afternoon. He had been cited to show cause why he should not be punished for contempt of court, and remarks made from the bench at the close of the hearing plainly indicated that the court believed he has failed to offer any good excuse.

After declaring that on the facts presented he was convinced that Coffey should be punished for contempt unless the money is speedily forthcoming, Judge Gantenbein continued the matter until next Wednesday afternoon.

Examination of Coffey showed that about three weeks after he was divorced from Carrie W. Coffey he married Maggie South at Everett, Wash. The marriage took place in March, 1907, and the present wife is Coffey's fourth. He has had about \$5 when he left for his wedding trip. His new wife had about \$1,000, he said. Since then he has been buying lots and building houses, all with his wife's money, he says. She now has four lots and as many houses. Coffey estimated the total value of the places at \$10,000, plastered with \$5,200 in mortgages.

Judge Gantenbein rejected the theory that \$5,000 worth of incumbered property has been accumulated in little more than a year from the \$1,000 of the fourth Mrs. Coffey. He said he thought Coffey should have been able to pay \$10 per month for the support of his little girl who remains in the custody of his former wife, Carrie W. Coffey.

No order was entered, but the court made it plain that unless some new reasons of unexpected weight are produced Coffey will be required to donate \$10 of his surplus to make up for past failures, and also admonished him to put \$10 in circulation each month for the benefit of his child.

# FATHER SCORED WHITE SLAVE PENS RAIDED

### Federal Attorney at Chicago Beginning to Disclose Atrocious Things.

(Special News by Longest Leased Wire.) Chicago, June 27.—United States Attorney Sims tonight personally directed

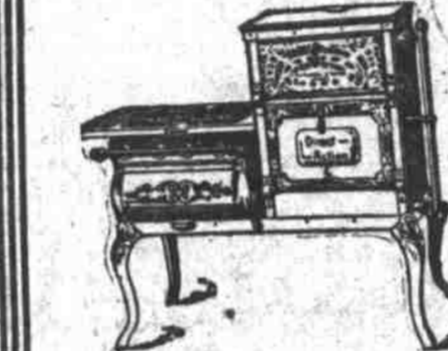

raids on "white slave" resorts in the tenderloin of Chicago and South Chicago, and aided by a posse of secret service men and deputy marshals raided a number of houses and arrested several girls. Assistant United States Attorneys Parlin, Shlirer and Karpas, with another posse, visited resorts in Grand Crossing and other industrial suburbs and took under their protection 37 young girls of foreign birth. The victims all declared they were duped into leaving their homes in Europe and Canada to come to America under the pretense that they were to procure honorable employment. Sims declares a regular international exchange of young women has been conducted for years. Each year several thousand French women are brought to this country. Recently girls from Austria, Germany, Russia and Hungary have been among the "slaves."

# PIANO FREE FOR A YEAR

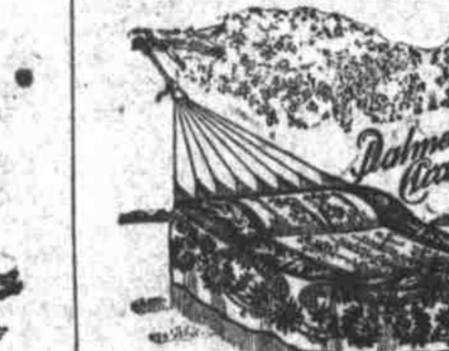

### Is One of the Features of the Piano Exchange and Bargain Room this Week.

Possibly you are waiting until you can buy a Weber or a Kimball, H. M. Cable of a Piano Piano or the Ellers, on the principle that the best only is good enough for you, meanwhile depriving yourself and family of a piano and the influence of music in the home? If so, here is an offer for you. Buy any used instrument in our Piano Exchange and Bargain Room—and there are nearly forty to select from—good makes in perfect order—play on it a year and at the end of that time we will take it back in exchange for a new piano allowing you the full amount paid. Then you will have a piano a year free. Before you buy anywhere—no matter what you are offered—come and see what we have. No doubt you will find the same piano here, used a little, it is true, but in good condition and waiting for you to come and get it, at about half you'd pay elsewhere. There's a reason for this. For instance, last week the owner of a nearly-new Steinway Piano decided after careful investigation that the Weber Piano Piano was the only instrument that he could enjoy, as he could not play his piano, so we gave him a reasonable allowance for his Steinway and now it is in the Bargain Room. Speaking of the Weber and other Piano Pianos handled exclusively by us, they are largely responsible for the creation of the Piano Exchange and Bargain Room—so many really good—nearly new and high priced pianos and other Player Pianos come to us in exchange. If any one would like a bargain in an "85" note Player Piano—a "Chas. Artistano"—and other makes—the Bargain Room is the place to visit—save couple hundred dollars or more—worth coming in for. Here will be found Monday about every known make, and remember, they are largely responsible for the place. As prices begin at \$75 and up to \$95 and \$120 for very good pianos, and \$150 to \$180 for some of the best. No matter what you have in mind, we will interest you here, and it's best to come down early—at any rate, come as early as you can. Remember the place—the Piano Exchange and Bargain Room (Basement), 383 Washington, corner Park (Eight).
