

M. ANGEL IN FRONT

Closing Exercises Marked by Interesting Addresses and Entertaining Music—The Year's Work Closed—President's Good Results.

(Special Dispatch to The Journal.)
Mt. Angel College, June 27.—The closing exercises at this college on June 27 last were held in the little theatre that is found on the fourth floor of the big college building on the hill. A very plain and sensible salutatory was spoken by Frank Sander of Tillamook. The next number was a clarinet duet by John Melchior and Sander, both of Tillamook, with accompaniment by Ambrose Walsh of Salem. "Killed at the Ford," by N. Van Ness of Corvallis, was very well recited. A march by six small boys on the violin led by Rev. Joseph Schneider, instructor in the violin department, the little fellows won a deserved recall.

The address of the day was by James Honorary Murphy of Portland. He was introduced with some fitting remarks by the president of the college, Rev. Frowin Epper, in fitting words. His address was eloquent in delivery, eloquent in diction, rich in reminiscence and broad and philosophical in its treatment of the problems of Christian education.

Mr. Murphy's Tribute.
He showed that the labors that had first subdued and evangelized, Christianized and civilized countries, like England and Germany were carried on by the same order of Benedictines that had planted the schools of Mount Angel. He showed that half the labor and wealth expended on camps and courts, arsenals and forts, on support of armies and navies, were spent on education of the human mind out of its errors the salvation of society were secured.

He paid a high tribute to Mount Angel college and men who had gone forth from its walls, and closed with some beautiful words of comfort to the students about to depart from the circle of its beneficent influences.

An eloquent valedictory was pronounced by Ernest C. Martin, in closing the literary program, which was all of a very high order. The college band played a farewell salute, the guests were served with refreshments at the rooms of President Frowin, and after fond farewells and college yells the year's work was called over.

A Musical Genius.
Mount Angel is fortunate in having a musical genius in the person of Father Dominic, who is both a great pianist and composer. His interpretations of Liszt have never been equaled in the opinion of high critics.

His compositions have been introduced publicly at San Francisco by Professor Mansfield, who stands par excellence at the head of the musical profession in the bay city.

The musical critic of the San Francisco Examiner gave two extended notices of the wonderful work done by the Benedictine father, who is the soul of modesty and will not let his work be known much.

Degrees Announced.
The degrees and diplomas were now announced by the president and awarded by the Rev. Abbott as follows:
Masters of Accounts, John Maier, of St. Joseph, Mo.; Bernard Burns and Herbert Pohndorf, of Butte, Mont.

Gold medals—Umbert de Martini, of Portland, for general excellence, proficiency in Latin and Greek, presented by the archbishop; Herbert Michaelbrook, of McMinnville, presented by Rev. John Waters of Astoria, an alumnus of Mount Angel.

For proficiency in commercial course—John Maier, of St. Joseph, Mo.; gold medal presented by Rev. Buchholzer of Hillsboro.

For general excellence in junior department—Gold medal to Andrew Weber, presented by G. Heitkemper company, Portland.

The Academy Graduation.
The Mount Angel academy, conducted for girls by the Sisters of the Holy Name, held its closing exercises on Monday. A class of 24 was graduated and the exercises took place at 3 o'clock. The program was of high character.

Among Salem ladies present were Mrs. C. W. Davis and Miss Stella and Helen Savage, and Miss Marie Martin of Salem are students of the academy. There were two graduates in music, Miss Helena De Vaney of Roseburg, and Miss Sattie Sullivan of Oregon City.

Following is the graduating program: Piano quintet, seniors; selection, vocal club; recitation, Lena Root; piano solo, Helena DeVaney; recitation, Mary Linn Rees; vocal solo, Audrey Davis; physical culture, exercises; piano solo, Sattie Sullivan; recitation, M. Douglas; song, "Till We Meet Again"; piano, sextet, juniors; farewell song, the seniors.

There were graduating exercises in the commercial course and diplomas presented in the ninth grade.

MISS MAISIE O'DONNELL AND F. CALDWELL WED
(Special Dispatch to The Journal.)
Forest Grove, Ore., June 27.—Buxton last Wednesday morning at 8:30 o'clock, Miss Maisie O'Donnell and Fred H. Caldwell were married in the Catholic church. The ceremony was performed by Rev. Father Kettchenborn.

A large number of friends were present. Miss Evelyn Doohr of Hillsboro, was maid of honor, and Mr. Harry Gleason of Portland, was the officiating minister. After a trip to The Dalles Mr. and Mrs. Caldwell will reside in Buxton, where the groom is engaged in the lumber business.

Advertising Class.
A. S. Monroe, president of the Monroe Advertising company, for many years connected with the largest advertising school in the world, will take a few students in advertising for the summer months. Call or address at once suite 43 Hamilton bldg., Portland.

Will Take Place of Defunct Bank.
(Special Dispatch to The Journal.)
Boise, Idaho, June 27.—Monday morning the Bank of Idaho organized to take the place of the defunct Capital State bank, will open its doors for business. R. F. Buller of Halley is president, and F. M. Parsons cashier of the new institution. Judge Wood has appointed M. P. Meholin as receiver of the defunct bank to take the place of Receiver Bruce. The new institution starts out with a capital stock of \$100,000, fully paid up.

Summer Special.
You can now get full privileges in Y. M. C. A., good until October 1, for \$5. This includes \$5,000 tile swimming pool, superior tub and shower baths, gymnasium, handball courts, running track, reading rooms, social gatherings and many other features. See catalogue. Just the thing for clerks, business and professional men.

Klamath Falls Lineman Killed.
(Special Dispatch to The Journal.)
Klamath Falls, Ore., June 27.—Edward Harris, a lineman, was killed by falling to the ground while stringing wires near this city. He sustained a fractured skull. He leaves no known relatives except a brother whose whereabouts are unknown.

If You Find That We Have Misrepresented, or in Anywise Deluded You, Come and Get Your Money Back

Our Shares Are 10 Cents Each, Cash, Par Value \$1.00, and They Are Liens on the Profits of the Poticie Gold Mine, Near Murray, Idaho, Bound Soon to Burst Forth Into One of the Greatest Mining Propositions in the Great Rocky Mountain Region

We own 11 full gold and galena mineral claims, now ready for patent, in the wonderful Shoshone mining district, Shoshone county, Idaho, and we have spent two years' time and \$50,000 in procuring the ground and developing it. And now we have demonstrated that we have a mine and a good one, and have placed 80,000 of its shares upon the market at 10 cents each, and

Every Dollar Derived from the Sale of These Shares Will Be Used to Help Pay the Cost of Installing a Cyanide Plant and Further Crosscutting and Drifting on Already Discovered and Known Rich Veins of Ore.

Ours, it must be remembered, is a tunnel mine. We have no shafts to sink nor expensive hoists to buy and operate. Miners will know in a minute the important meaning there is to this. It contemplates less than half the cost of producing gold and galena, and, as if to round out its splendor,

Ours Is Free Milling Ore, Effecting Another Saving of \$8 to \$12 Per Ton, as Compared to Smelting.

Then, again, our miners accept more than half their pay in stock, showing their confidence in the property, and even Henry M. Lancaster, of Wallace, the government surveyor, whom anyone may refer to, who surveyed and platted the claims, when the work was completed, asked that they be paid in stock. And if we had half as much money at hand as we have already expended on these properties, not a share would be offered to the public, but we have not scrimped in expenditures, and while we have not been wasteful, we have kept up steam, desiring to reap a harvest in this short life of ours.

We and Our Stockholders Want This Gold While We Live.

No one ever says, "Wait a while; pay me the gold some other time." WE ALL WANT IT NOW, and that is why we are selling shares. We could go along two or three more years, putting the profits of our business in the mine, and have it all to ourselves, but what's the use? We own all that mountain and there is gold enough in it to make us rich a dozen times, and our stockholders, too. What is the use of selfishness—of being a human swine? If the men of the world had bigger hearts the people of the world would be a thousand times happier. We are of the temperament that is satisfied with enough, and this mine is going to put us in that position, and if it does our stockholders must travel along with us and profit as much as we do. This is nothing more nor less than a square deal, and

The Poticie Company Will Be Run on a Square Deal Platform, or Not at All.

This Is Not a Milk-and-Water Proposition. It Is Pure Cream.

It is a small quartz mine that does not mill at least 50 tons of ore per day. Most of them—if they make much pretension of mining—treat 100 tons, but suppose we mine and mill only 50 tons per day of our poorest ore—that \$23.62 rock. In 313 days we have \$369,653 in gold, or \$69,653 more than enough to pay annual dividends of 200 per cent on an investment of \$150,000. We have \$50,000 in the mine now—that is, it has cost us that much—and we have no apprehension that it will cost another \$100,000, or even another \$25,000, to get us into the boom of dividends, so that those persons who can take the time to sit down and figure a little can quickly comprehend the foolishness of working all their lives just to make a "comfortable living."

No One Ever gets Out of the Rut of Scrimp and save by Their Daily Toil.

These Are Sworn Statements.

Idaho law requires mineowners to make an annual statement of their profits and the mine production. These were made, and the result published in the daily newspapers of May 5, 1908. From the list we call the following, because we are in the cluster, all being in Shoshone county, we believe, the same in which we are located. The report shows the profits of this small bunch of mines to be FIVE MILLION ONE HUNDRED AND NINETEEN THOUSAND EIGHT HUNDRED AND THIRTY DOLLARS. Think of it—almost SIXTY HUNDRED THOUSAND DOLLARS from one county alone of that wonderful metallic state. It dazes a person to contemplate it. A good and frugal farmer may lay by \$5,000 per year, and

In 200 Years He Would Have \$1,000,000.

The Bunker Hill & Sullivan was the largest producer in Shoshone county last year, clearing \$2,264,213. The Federal Mining & Smelter Company, operating the Last Chance mine at Wardner, the Morning mine at Mullan, the Tiger-Poorman at Burke, and the Standard Mammoth at Mace, showed a gain of \$1,596,707 in spite of the fact that the last three mines were closed the latter part of the year and the others ran with reduced forces. The only mine not a silver-lead producer, the Snowstorm, netted \$454,238, and copper during the year was lower than usual. The Hercules mine at Burke cleared \$765,160, and the Hecla mine \$437,188. The total production of the mines was \$14,622,313, and the total expenditures for labor, transportation, installation and maintenance of machinery was \$9,502,484.

The figures are taken from those of the assessor of Shoshone county and show an increase over last year.

The Snowstorm increased \$300,000 over 1906. The tonnage extracted during 1907 was 95,435, of a gross value of \$1,396,257.82. The cost of extraction was \$216,393.03; cost of transportation \$501,112.20; cost of reduction and sale, \$68,572.03; value of improvements at mine, \$155,892.40; total working expenses, \$941,969.66. This gives a net profit for the year of \$454,238.16.

\$ 2.50 cash and	\$ 2.50 a month buys	250 shares.
\$ 5.00 cash and	\$ 5.00 a month buys	500 shares.
\$ 6.00 cash and	\$ 6.00 a month buys	600 shares.
\$ 7.00 cash and	\$ 7.00 a month buys	700 shares.
\$ 8.00 cash and	\$ 8.00 a month buys	800 shares.
\$ 9.00 cash and	\$ 9.00 a month buys	900 shares.
\$10.00 cash and	\$10.00 a month buys	1,000 shares.

The same proportion of payments will prevail on larger amounts of stock purchase. 5 per cent discount where purchases are made on the all cash basis. These prices are subject to increase without notice any time after two weeks from date.

If you will call at our office and get acquainted with us you will soon understand that we mean exactly what we say, too. We are not given to boasting, but when we make this declaration, WE MEAN PRECISELY WHAT WE SAY.

The Mountain State of Idaho Is One of the Great Quartz and Placer Gold Producing Regions of the World, and Its Riches in Silver and Lead Are Almost Uncountable.

It is a most wonderfully rich mineral district, and it fortunately happens that the Poticie mines are right in the heart of the great mineral zone. When first discovered experts conceded that ours would develop into a monster property, and offers to buy have come from all quarters. Only this last Monday, June 22, a gentleman called at this office and

Offered to Put Up a Bond That He Would, if Authorized, Sell the Poticie Claims, Within 90 Days, for \$150,000.00.

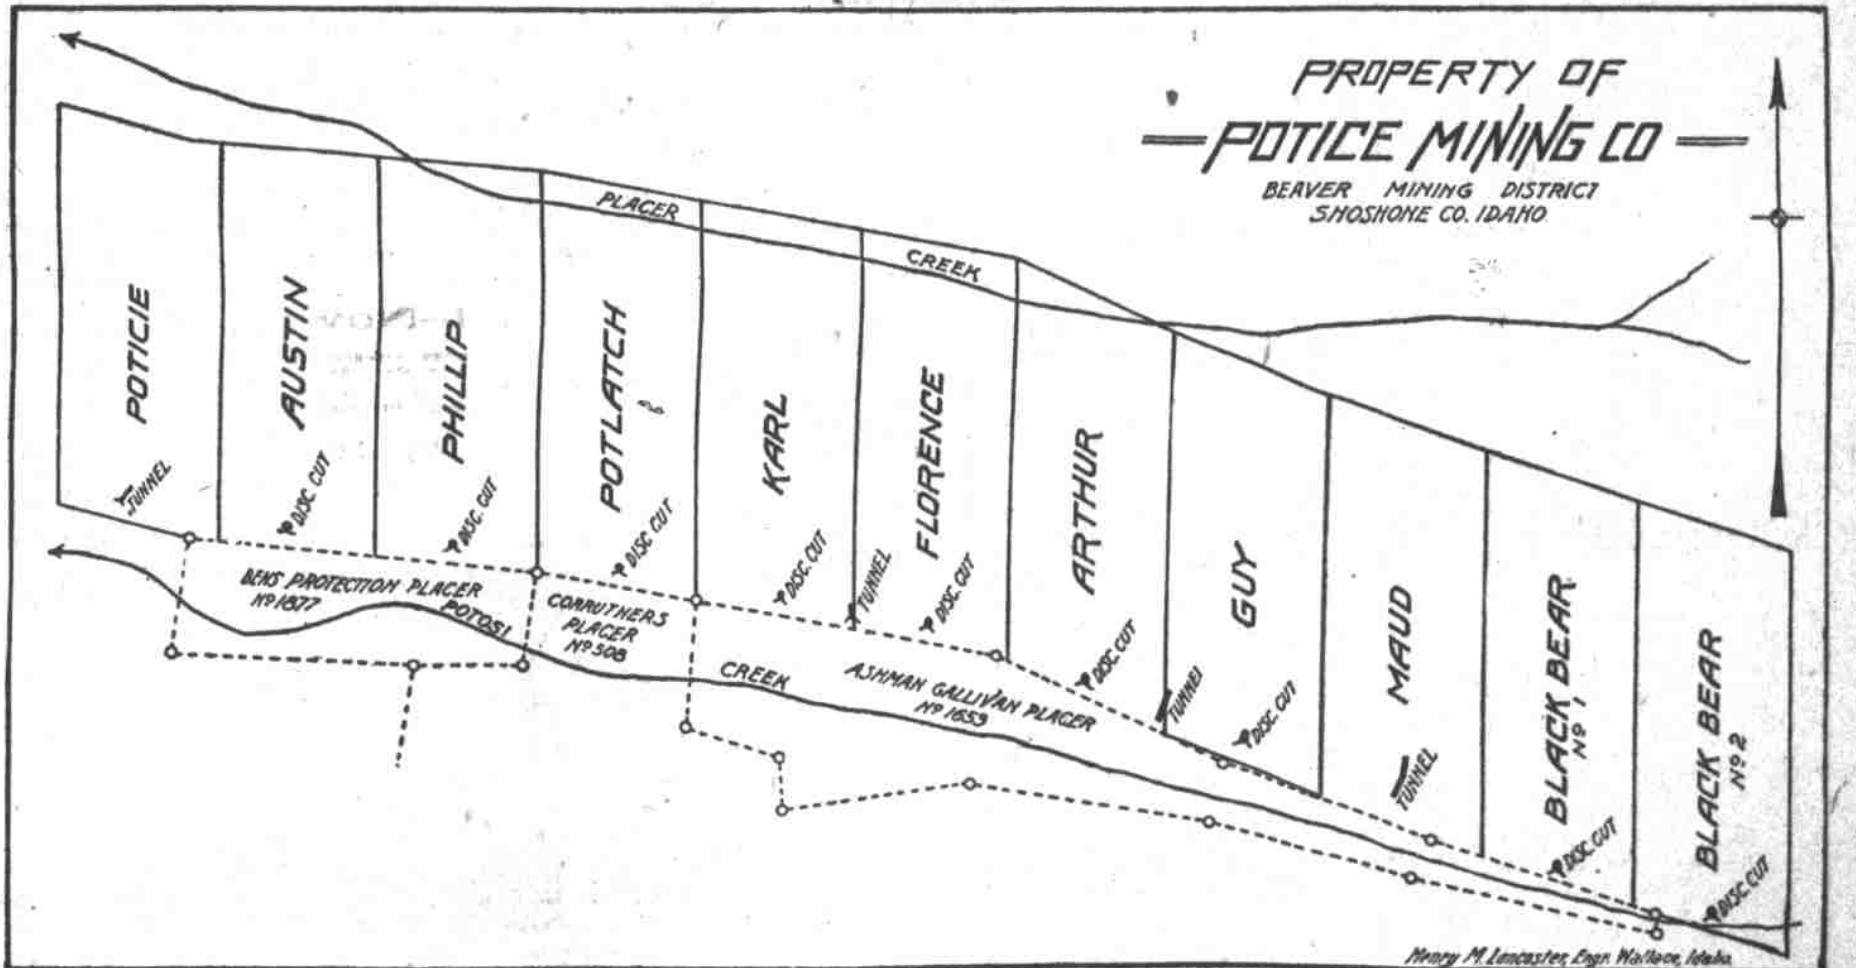

And his commission would come from the purchasers. If he had named \$500,000 the offer would have been just as promptly declined. If he had said \$1,000,000 we should have asked for time to consider, because we believe that our claims are NOW worth that much, and we further know that there are no better prospects on this earth for a great and profitable mine.

Our Shares Ought to Sell for 50 Cents Each Now.

They would be held at that price if a mining promoter had them. But we are not one of these. We are simply plain miners—owning our own properties—owning nobody a cent—paying as we go—having no false claims to make—content with the wealth that Nature has provided for us in the Idaho gold mining region and glad we will have the privilege of making others as well as ourselves happy.

We Have a Lot of Healthy Assays.

We have recently had made a few assays that show the wealth of our proposition. The first went \$59.47 to the ton; the next \$62.93; then \$240.71, \$23.62, \$46.56, \$108.56, etc. Now we want readers of this advertisement to know that these assays are not picked ones and are genuine, and if there be even one person, or if there be any other number, doubtful of their accuracy, and they will call at this office and see them for themselves, and then be not satisfied with their genuineness, and we cannot prove to them that they POSITIVELY ARE GENUINE, by reference to the assays themselves, we will present to each and every one of such persons 1,000 shares of Poticie mining shares absolutely free of charge.

Friends, Do not Be Content to Curl Up and Sleep, Every Moment You Are Not Hard at Work. Buy Some Mining Stock—in a Good, Legitimate Enterprise, and Let it Earn Your Living.

If afraid to buy in this mine, buy in some other. If you imagine we are not reliable, inquire about us. Come to our office or write us and we will give you references that ought to convince the most obstinate, and will, we are sure, convince you. But if after all is said and done

If You Are Not Satisfied That This is One of the Best Gold Mining Propositions Ever Brought to Your Attention, Buy Some Other Good Stock.

But do not let the opportunity go by to get stock from one or another of the square dealing propositions now on this market, and start out on the road to prosperity. Get away from slavery. Abandon drudgery. What's the use working hard all your life for the mere pleasure—if a pleasure—of existence? Wake up, and when a good thing—a splendid opportunity—is offered you, do not rub your eyes until it has been snapped up by some other person and you compelled to continue your weary journey in sweating the hours away—and toiling from dawn until darkness—in wondering what is to become of you when old age has crept upon you.

Basis of Purchase.

This stock will be sold for a short time only at 10 cents per share on the payment of 10 per cent cash and 10 per cent per month. Those wishing to take advantage of this liberal opportunity had best act promptly.

The Poticie Mining Company

P. L. AUSTIN
President and Treasurer.

LOUIS MEYER,
Vice-Pres. and Secretary.

Room 3, Raleigh Building, Sixth and Washington

Incorporated Under the Laws of Washington for \$1,500,000, \$900,000 in the Treasury. All Shares at Par Value of \$1 Each, Fully Paid and Non-Assessable
