

REVEALING TO GROWING

All Communication Between Las Vegas and Del Rio Cut Off—Border People Sympathize With Rebels—Guard for Border.

(Herald News by Longest Leased Wire.)
Del Rio, Tex., June 27.—Mexican troops are taking few prisoners in their attacks upon revolutionists, and are shooting all up on sight, according to reports received here.
Sheriff Robinson of Del Rio estimates that the casualties so far number between 40 and 50. In one place the bodies of 30 rebels were found after the battle of Las Vegas. It is not known how many others were killed, as no one is allowed to cross the river. The commander of the Mexican troops is said to have been seriously wounded. Fighting has continued for several days. Communication is cut off between Texas and Mexico, but Mexican government will permit the crossing of the border to come to this country. Sheriff Robinson reports as follows:
"All communication between Las Vegas and Del Rio is absolutely impossible to tell what is going on there. At the beginning of yesterday's fighting all wires leading out of the town were cut and reports which were sent out were unverified. Only news that could be seen could anything be ascertained. Judging in this manner, it is believed that the rebels here in the fight between the revolutionaries and the troops. There is no doubt that the troops were taken by surprise."
Pico Breaks Out.
"Quiet reigned in Las Vegas during a part of the night, but firing broke out again this morning and shooting has continued at intervals all day, though no open conflict has taken place.
Great excitement reigns across the river. People can be seen rushing to and fro, and several fires have taken place. Naturally the populace here is wild to know what is happening, but that is impossible at present. The troops refuse to let anybody cross the river."
"Collector of Customs Robert Dowe of Eagle Pass and myself went down to the river under a flag of truce, but were refused. The crossing of the river was probably result in their being head upon. Mr. Dowe and myself have been in as close touch with the situation as anybody, and all that we know is what we have seen from across the river. We have been at various places and towns have been attacked down the river. Reinforcements for the troops at Las Vegas are expected tonight. It is stated that 3,000 troops will arrive. Just what will happen then no one knows. It is believed that communication can be reestablished with Las Vegas by 2 p. m. tomorrow, and if that takes place doubtless the first real accurate information can be had. At present everything is shrouded in mystery."
Cross the Border.
Fifty Mexican revolutionists were reported shortly before noon today about five miles north of Las Vegas. The revolutionists were evidently on their way to cross the Rio Grande into Texas when overtaken by Mexican soldiers. The rebels had but little ammunition.
It was feared an attempt would be made by the revolutionists to rescue their companions.
Ten miles out of Del Rio a sheriff's posse discovered a cave in which were nearly 1,000 guns, but were detected by the revolutionists. While the officers were removing the arms they were surprised by a band of Mexicans who had crossed the Rio Grande, and a few hours were exchanged. The Mexicans were too many for the five deputy sheriffs, who were soon overpowered. The revolutionists recaptured the guns and escaped back into Mexico.
The entire border on the Mexican side is in sympathy with the revolutionists. Nearly 200 Mexicans were rounded up last night by the Texas posse but were released this morning upon instructions from Governor Campbell that Texas is without jurisdiction for the present. The federal authorities, however, swore in 600 deputies who are mounted and guarding the border.
Will Attack City.
Later reports say that the town of Jimenez thirty miles above Ciudad Paredon has fallen into the hands of the revolutionists and that the former city will be attacked before morning.
Mexican authorities claim that the fighting so far has been of the gutter order.
One army of insurgents is marching south toward Torreon, evidently to join the raiders, who captured the town of Pecos on Tuesday, and a few others are said to be in the mountains near Saltillo, surrounded by government troops. Reports of attacks on villages along the river north of here are discredited by the United States authorities.

12 NEW LAWS NOW EFFECTIVE

Governor's Signature Fixed to Measures Passed Upon by the People.

People of the state may not realize it, but they have 12 new laws to obey since June 25, when the governor's proclamation put into force the constitutional amendments and initiative and referendum laws considered favorably by the people at the recent election of June 1.
Taking them in the order that they were promulgated by the secretary of state, it will be seen that the time for holding the general elections will now be the first Tuesday after the first Monday in November, instead of the first Monday in June. Consequently the next general election will be held in November of 1910.
Under the provisions of the prisoners' feeding bill drafted and enacted by the legislature primarily for the benefit of Sheriff Stevens of Multnomah county, all sheriffs in Oregon are now the custodians and guardians of the prisoners in their jails. In Multnomah county also the sheriff is allowed 1 1/2 cents per day for the food furnished to the prisoners.
By virtue of the same vote of the people the University of Oregon is safe for the appropriation of \$1,000,000 in 1907 and of the same amount for each year thereafter.
Fish Bills Stickier.
The most peculiar situation in the history of the state, by the passage of the two fish bills, one drafted by the lower river interests of the Columbia with the intention of putting the sole and silver fisherman out of business as nearly as possible, and the other drafted by the upper river men with the same intent towards the lower river men.
For the past 30 years the warring salmon interests of the Columbia river have been trying to get successive legislatures to regulate the salmon fishing of the river, each section striving to put the other out of business. The legislatures have been held in check on such legislation, and for the most part have taken no action. This year, however, the two initiative laws have been passed by the people, thus effectually regulating the salmon fishing on the Columbia river. If the laws are enforced, the salmon will have ample time in which to take a new lease on life.
A big fight is promised as a result of the passage of the two bills. It is expected that the upper river fishers will keep their eyes on the legislature, and if they see any legislation which they believe will regulate the fishing on the lower river, the lower river men will return the compliment by keeping close tabs on the upper river men and will prosecute all violations of their law framed to regulate the upper river fishers. Between the two it is expected that violations of the salmon fishing law will take prominent places on the agendas of the courts along the Columbia river.

MRS. CLEVELAND WILL NOT SUFFER

Pension of \$5,000 a Year Will Be Passed by Congress.

(Herald News by Longest Leased Wire.)
Washington, June 27.—A resolution granting Mrs. Grover Cleveland an annual \$5,000 pension will be passed by congress at its next session. It was reported today. Mrs. Cleveland will be one of two president's widows enjoying the special bounty of the American people. Mrs. Garfield has received a pension of \$5,000 each year since 1882. Mrs. Harrison, the only other president's widow now living, has never been pensioned. Mrs. Harrison is not in need. She was married to him a number of years after he left the White House.
"So far as can be ascertained all president's widows who have been pensioned heretofore have been the widows of men who have been military service and whose widows were entitled to a pension under the general law."
Mr. Cleveland is one of the few presidents who was never a soldier. The rate of pension which congress has habitually granted to president's widows is \$5,000. It was in 1883 that the precedent of granting this sum was established.
It is curious fact that March 3, 1882, an act was approved which at the same time granted a pension of \$5,000 a year each to Mrs. White House and Mrs. Garfield and in February of the same year the pension of Mrs. Lincoln was increased from \$3,000 to \$5,000 a year.
Mrs. Lincoln was dropped from the rolls June 4 of the same year on account of death. She had been receiving a pension of \$5,000 since July 14, 1870. Many persons do not know that President Lincoln saw active military service.

STUDENT LOST IN MOUNTAINS

Search Party Consisting of Indians and Soldiers Hunt J. D. Archibald.

(Herald News by Longest Leased Wire.)
Fresno, Cal., June 27.—With the entire garrison of the Sequoia national reservation adding their efforts to the 15 Indian trappers, and the 20 or 40 mountaineers, the friends of J. D. Archibald, the Cornell student who is lost in the high Sierras, are still in hope of finding the young man alive. This despite the fact that he has been lost for eight days without food or means of securing it in the wildest country in the state of California.
B. D. Pike, a student of the University of California, who is thoroughly acquainted with the mountain life in that section, arrived in Fresno this morning and at once started for Millwood, some 40 miles from the camp the young man left last Sunday. Pike was accompanied by one of the deputies of the sheriff, who is doing all that he can to aid the search. For the young man and a bloodhound belonging to J. P. Gregory, another of the sheriff's deputies.
At Millwood the men picked up an old mountaineer, Frank Lewis, owner of thousands of sheep and a man who knows the locality in which Archibald is lost like the back of his hand. In addition to these reinforcements to the

CITY'S DEAF CHILDREN TO HAVE SPECIAL TEACHER IN SCHOOLS

In response to the request of parents of deaf children, students of the public schools, the school board has decided to establish special classes for these pupils at the beginning of next term.

The teacher has not yet been named, but a specialist in the labial system of teaching the deaf will be employed. This system has been found to be much more effective than the old sign language. Studying under the new method the child learns to understand the words by watching the lips of the speaker.
The flesh had been cooked until little remained but a parchment-like skin.
Labor troubles have been frequent in the neighborhood and any of the numerous furnaces and dry kilns near by would have enabled the murderers to partly cremate the victim.
The body was reduced almost to a skeleton. The flesh had been cooked until little remained but a parchment-like skin.
Labor troubles have been frequent in the neighborhood and any of the numerous furnaces and dry kilns near by would have enabled the murderers to partly cremate the victim.

MYSTERY OF BODY IN KILN UNSOLVED

Chicago, June 27.—The police are no nearer a solution of the mystery surrounding the finding of the body of a young workman who was evidently baked alive or murdered and then

Recall in Force

It is now possible for all public officials who are not doing their duty under the law and custom to be recalled by the voters who are disgruntled over their failure to fulfill the oaths taken. Public interest on this subject is now at its height, and the recall will strike first.
The statute instructing the members of the legislature to vote for that United States senatorial candidate who receives the highest number of votes at the general election is also a law. It is now in force, and the members of the legislature elected in June last, though it is perhaps a fact that the United States senators are now in effect doubly bound.
Early in the last campaign practically all the Clatsop county candidates for the legislature pledged themselves to abide by the provisions of the law should it be passed. Later they changed their pledges to a straight subscription to Statement No. 1. With the passage of the law, however, it would appear that the Clatsop county men are under a double pledge.
The proportional representation amendment is now in effect, and yet is not effective. The amendment provides for proportional representation, but leaves the legislature to wrestle with the manner of securing such representation.
It is contemplated by the amendment that the legislature by statute should provide a way of securing such representation. It will be up to the next legislature therefore to enact a law putting into effect the constitutional amendment.
The corrupt practice act is now a law and from this time on it is illegal to offer money to prospective voters and political supporters. In fact, under the act it is illegal to do anything except silently cast a ballot in the box, or at least nearly as close drawn a condition as that.
Grand juries have come back to the people the law state and the district attorney of any district is not empowered to sit as a grand jury from this time on. All indictments are now to be returned by juries and the filing of informations on the complaint of the district attorney is a thing of the past.
Hood River county is now in good working order and is running under the administration of a set of officials appointed by the governor not long ago. Altogether the people of the state have quite a batch of new laws to observe.

IS HEN WILD ANIMAL WHEN OFF RESERVE?

Boy Who Stole Chicken Thinks It Is, but Magistrate Is of Other Belief.

New York, June 27.—Patrick Duff, the very reddest-haired youth ever seen in the Children's court, was charged yesterday with larceny.
"Why did you steal this chicken?" Magistrate Zoller asked.
"I needed de money, and I was going to give it to dis lady if she kicked de youth said, pointing to the complainant.
"The chicken or de money," the judge asked.
"Oh, de money—she didn't need de chicken. She's got a lot. Beside a animal ain't outside de boundary in public property, and I needed de money to buy traps at Creedmoor and say wild animals is yours off de reservation."
"Is a hen a wild animal?" asked the judge.
"Dis wuz," answered Patrick.
"Well," concluded the magistrate, "I guess you were, and you were off your reservation." Fine \$2.
BERRY HITS HIM; WIFE SEES STAIN; FAINTS
Toms River, N. J., June 27.—For bombarding motorists with overripe strawberries, Arnold Bugbee and Kurt Clemens, boys, were scolded by Justice J. Howell Cummings, president of the Stevens Hat company, of Philadelphia, and his family were coming down the Lakewood pike when they met the boys. Mrs. Cummings saw a missile strike her husband's cheek, leaving a big red stain, she fainted.
Cummings knew he wasn't hurt, but he thought his wife must have been hit with something harder than the berry that struck him, so he stopped the machine and got help.
When truth was known, the boy arrested. Cummings had the boys arrested.

GOOD FARM BUYS IN WASHINGTON

100 ACRES, all fine level rich land, 70 acres under fine state of cultivation, more easily cleared; place fenced and cross-fenced, good water, 2 sets of buildings, one set new, large house and barn, good orchard; one of the best dairy ranches in the country.
