Caracas, June 80.JThe cow tree of Venezuela yields a milk of good quality. coasts of that country. Its milk, which is obtained by making incisions in the trunk, so closely resembles that from the cow, both in appearance and quality, that it is commonly used by the natives as an article of food. Unlike many other vegetable milks, it is perfectly wholesome and very nourishing, possessing an agreeable taste like that of sweet cream and a pleasant balsamic boor. Its only unpleasant property is a slight stickiness. The chemical analysis of this milk has shown it to possess a composition closely resembling some animal substances and, like animal milk, it quickly forms a yellow, cheesy scum upon its surface, and after a few days' exposure to the atmosphere turns sour. Ceylon also possesses a cow tree, the milk sap of which, according to Burmann's "Narratives," is used by the Cingalese exactly in the same way that we use milk. Who has not seen our indigenous wolf's milk or spurge, the white, milky juice of which popular superstition recommends as an application to destroy warts? The spurge genus, which gives its name to the order Euphorbiceae, comprises a large number of species distributed throughout the whole world. All possess to a greater or lesser extent a milky juice containing active medicinal qualities.

Milk in Lettuce.

The garden lettuce contains, like other members of the family, a quantity of milk juice with narcotic properties. This is more fully developed when the plant is permitted to throw up a flower stalk.

The true lactucarlum is obtained by wounding the plants in the flowering season, when their vessels are filled to repletion, and so irritable that they often burst or are ruptured by very slight injuries. The dandelion, one of our common weeds, is largely permeated with a milky juice, likewise the milk thistle; and among common flowers may be named the perlwinkle.

The advance in those of our industries that depend upon vegetable products has not been the result of introduction of new materials alone. By My Unparalled Success for My Fee Is the Past 25 Years

The proof of a physician's ability is to be found in the results he obtains, and although I am not at liberty to supply individual names of patients as references, the marks of supe-rior skill and services are so prominent and conspicuous as to render my doing so unneces-sary. Twenty-five years of success and con- In any uncomplicated stant growth of practice are certainly a practical demonstration that argues the merit of my work. This is PROOF that no man can gainsay. This remarkable success has built up my practice year by year, month by month, day by day, until it is today the largest by far in the western part of America. Estimate for yourself my volume of practice as compared with the practice of other western specialists. Is there the slightest probability that, if unable to back up all my claims, I would have won and retained the foremost place among physicians treating men? Could I fail to cure and yet succeed as I have? Have you ever heard of promise of mine remaining unfulfilled, or of one of my patients being dissatisfied with the treatment received? Consider these things and then come and talk with me in regard to your case. I am always willing to wait for my fee

## My Special Treatment

The methods I devised over twenty-five years ago for treating men's diseases proved a radical step in medical science. Those methods have enabled me to cure diseases that were formerly regarded as incurable. In working out my methods I held the theory that "Weakness," for instance, was not a constitutional or functional ailment, but a prostatic affection, and therefore, merely local. I reasoned that its constitutional effects were simply the results of a tremendous waste of energy due to inflammation of the prostatic gland; that this being true, a local treatment alone could effect a cure. Thereupon I devised the treatment I employ today with such marked success. Indeed, I have never known this treatment to fail to effect a complete and permanent cure in a comparatively short time.

My treatment for other diseases peculiar to men are also along original lines and are equally successful. Hence I reiterate that no man need be WEAK or AILING. My Special Treatment is an open door to vigor and all the pleasures that belong to perfect health. Arry man may avail himself of my services. It has been and is my life's work to aid afflicted men, alleviate their sufferings and restore them to health and vigor. I have therefore placed the charge for my services within the easy reach of any man, no matter what his circumstances. To PROVE my confidence in the results of my treatment, and as an act of good faith,

I WILL WAIT FOR MY FEE UNTIL YOU ARE CURED.

No man can be fairer than that. I take all the risk. You take none whatever. You have everything to gain and absolutely nothing to lose.

SEEK EXPERT MEDICAL AID NOW

Men whose vitality is exhausted, those who have some private disease or weakness lurking in their system, and who are prematurely old, while still young in years—broken down wrecks of what they ought to be, and who want to be strong, and to feel as vigorous as they did before they wasted their strength, to enjoy life again, to win back the vim, vigor and vitality lost, should consult with me before it is too late.

MY DIRECT-METHOD TREATMENT OFFERS A POSITIVE CURE FOR EVERY AILING MAN

## I CURE "WEAKNESS"

"Weakness" is not a nervous disorder, demanding a tonic system of treatment, but is merely a symptom of chronic inflammation or congestion in the prostate gland. This condition exists as a result of early dissipation or some improperly treated contracted disorder and requires carefully directed local measures only. By my own original methods the prostate gland is quickly restored to its normal state, which results in full and complete return of strength, for the functional disorder is entirely removed, and I am convinced that by no treatment other than my own carefully directed local measures is a radical cure of this ailment possible.

## Don't Pay Doctors To Keep You Sick

Over in China people pay their doctors to keep them healthy; when a man gets sick the doctor's pay

In America you pay your physi-cian to keep you sick. The longer you are sick the better for the doc-tor. That's the old drug system.

When I take your case my aim is to cure. You pay one price for my treatment and that is all you pay. If I know that I can't cure you, I'll tell you so in the beginning. I don't want money that I don't earn. want money that I don't earn.

Drugs don't restore health, because they contain nothing that builds health. Nature wants nourishment, not poison. My way of curing is to help Nature cure. I do this by giving her the power to combat disease and drive it out of your system. This power'is electricity. It gives strength to every vital organ. It vitalizes the blood and increases the circulation. It is food to weak nerves.
