

MARKS ON KERCHEFS ARE CLUES

Chicago Police at Loss to Explain Murder of Mrs. E. Thompson—Think May Not Have Been Killed by J. H. Raymond.

Victim Gagged and Bound, Showing Crime Was Work of Person Guilty of Extreme Cruelty—Four Hundred Bruises on Body.

(United Press Leased Wire.) Chicago, July 2.—An initial and a laundry mark on two handkerchiefs stuffed in the mouth of Mrs. E. Thompson, whose body was found in a room of a local lodging house yesterday, may lead to the arrest of the man who brutally tortured his victim before taking her life.

An initial letter "B" worked on the corner of one of the handkerchiefs and the laundry mark "P143" stamped on one of the others are the clues which are being followed today by the detectives who are trying to solve the mystery.

Coroner's Report. The coroner's physician, who examined the dead woman's body today declared he had never before seen the work of such a fiend as the man who killed Mrs. Thompson.

It is his belief that the woman was assaulted by the mysterious "J. H. Raymond," who, rented the room for her, and that she resisted his attack. The man, according to his theory, then gagged and bound his victim, stripped the clothes from her body and viciously tortured her, pounding her body with his fists, kicking her face, and clawing at her throat with his finger nails.

Fifteen deep finger marks were found on Mrs. Thompson's throat, 400 distinct bruises were counted on her body and the imprint of a boot heel was found on her face.

The autopsy showed that the fiend who choked Mrs. Thompson was possessed of such great strength that he broke every bone in her neck.

The coroner is so astounded at the revolting revelations resulting from the investigation that he now says he does not believe the crime could have been committed by Raymond, who, according to accounts, was a person of normal appearance.

The detectives hint that they may soon be able to develop new secret clues they say they have found.

HEAT KILLS 7 IN NEW YORK

Hottest Wave of Summer Sweeps City—Scores of Prostrations.

(United Press Leased Wire.) New York, July 2.—This is the worst day of the terrific heat wave which has held this city in its grip. Seven deaths were reported before noon. The blistering rays of the sun seem to be concentrated on Manhattan island, and the streets are so hot it is almost impossible to carry on business.

The prostrations are almost beyond number. So common are they that few of them are reported. Persons who are perfectly well find it difficult to go about the least exerting duties. The hospitals report that they have not been able to give proper care to all the applicants for attention.

On the east side, in the tenement district, the suffering exceeds any past records. The atmosphere is oppressive and is heavy with humidity.

PHYSICIAN FINDS HARDWARE STORE IN MAN'S STOMACH

Dr. Ira H. Bartie of North Bend was to have opened the scientific program of the Oregon State Medical Association yesterday by reading a paper on "Surgical Interference in Some Obstructive Stomach Trouble." Dr. Bartie wired that he couldn't come and sent a telegram saying why. Everybody supposed it was a joke. But it was the truth. Here is the telegram: "Operated on glass ester this morning. Removed from stomach 3 knives, 3 loaded rifle cartridges, 4 door keys, 12 horse shoe nails, 4 six-penny nails, 5 dimes, 3 nickels, 1 fish hook, 5 ounces of glass. Obstructive stomach trouble."

Dr. J. C. O'Day, who arrived from Coos Bay this morning to attend the convention, said that the telegram was not an exaggeration, that the man operated upon had been a circus performer 17 years, had swallowed things in a sidewalk and had come over from Hawaii on the same steamer with him, having been taken ill just before Coos Bay was reached. The operation was performed in the North Bend hospital and 118 pieces of hard foreign articles were removed from the glass ester's stomach.

LIST READY IMPOSED ON WEDNESDAY BY "DOCTORS"

Mayor and Councilman Baker Call Upon Civic Bodies to Furnish Names From Which to Choose Charter Revisionists.

Mayor Lane and Councilman Baker held a meeting this morning to elect the members of the committee to revise the city charter and decided to ask the various push clubs, the realty board, the labor unions and all civic improvement organizations to submit lists of names of men they desire upon the committee in order to select a representative committee. Both the mayor and Councilman Baker are desirous of having the lists before the end of the week in order to submit the names of the committeemen to the council next Wednesday.

Councilman Cellars, who was named to act with Mayor Lane and Councilman Baker in the work of selecting a committee out of the city and was not present this morning. This morning's action was deemed advisable because of the desire of the city officials to secure representative men upon the revision committee. While the lists to be submitted by the various organizations are for the purpose of guiding the committee in their choice they will not all be appointed because of the fact that the charter committee will consist of only 15 taxpayers. Of this number it is certain that Deputy City Auditor E. G. Criss and City Attorney John P. Kavanaugh will be named, leaving 13 men to be appointed. Mayor Lane stated after the meeting that he submitted the lists which will submit lists of names must remember that only taxpayers can be appointed so that they will not include others in their lists. Inasmuch as the amendments to the charter are to be submitted to the people at the November election the necessity of having the committee approved by the council at next Wednesday's meeting is apparent because of the short time elapsing between now and the time of the election.

SWEEPING RULES FOR BUBBLE DRIVERS

Automobile Board Revokes Two Licenses—Drinking Falls Under Ban.

At yesterday's meeting of the automobile board of registry formal action was taken in revoking the licenses of Walter Dahlem and H. E. Cook. The members also made a ruling to the effect that any chauffeur who is found driving a machine while intoxicated will have his license revoked without the formality of a trial.

This sweeping action was taken by the board because of the desire of the members to eliminate all possible chance of accident in Portland. Dahlem's license and badge were ordered revoked because of alleged intoxication, and the members yesterday recommended to Mayor Lane that the findings of the board be approved. Cook loses his right to drive a machine in Portland because he lent his badge to another man. Chairman R. D. Luman and Dr. C. B. Brown were the only members present yesterday, and took the oath of office before proceeding with their work. The meeting yesterday was the first one held since the reorganization was made several weeks ago. R. G. McPherson, the remaining member of the board, was not present yesterday. Chairman Luman will leave Portland this week, to be gone nearly three months, during which time the work will be carried on by Dr. Brown and Mr. McPherson.

TAKE PRISONER SOUTH

Finding the man he wanted for a daring burglary in San Francisco in the Tacoma jail charged with disorderly conduct, Detective Sergeant Ryan of the Bay City police department, bailed out Edward A. Clark last evening and hurried him on a train for Portland where he is now under lock and key. This evening Ryan and his prisoner leave for San Francisco. By the plan Ryan prevented Clark from having habeas corpus proceedings brought to delay the case. Clark is charged with stealing a sealskin coat worth \$450 and jewelry worth \$600 from a San Francisco residence. The train was traced to Tacoma, where it was found in a pawnshop.

Dr. Suttner of Walla Walla, Wash., invited the convention to attend the annual meeting of the Washington association which is to be held in Walla Walla September 2, 3 and 4. The president of the association, Dr. F. T. Taylor of Portland spoke on the "Physiology of the Pelvic Floor"; H. Willard Howard of Prosser, Wash., on "Ectocystosis"; discussion led by J. M. Short, Gresham, Or.; Dr. C. N. Suttner read a paper on "Further Study of the Broad Ligament Plication for Uterine Relaxation." The president's address will be delivered this afternoon, and the banquet to out-of-town doctors will be given in the Commercial club tonight.

FAVORABLE TO CHURCH UNION

Fifty-Fifth Conference United Brethren Church Will Sanction Move.

A. C. Pantton, M. D., of the state board of medical examiners, who has been threatening for some time to say something about the Oregon candidates for licenses and the schools they graduate from, sprang it at this morning's meeting of the State Medical Association.

He declared that most of the small medical colleges are entirely inadequate to turn out competent graduates, many of them are merely diploma mills and that the public at the present time is being shamefully imposed upon by ignorant professional graduates. He said that the physicians must blame themselves for flooding the state with low grade medical graduates and practitioners.

Threatened to Expose. Dr. Pantton said that so much pressure has been brought to bear upon him as a member of the board to induce him to pass incompetent candidates that he has threatened to resign if it were kept up and publish a statement of the entire matter in the newspapers. Since the board had no favored comparative power, although still made the object of many attacks because of the stand taken by him.

Pantton's paper followed by Dr. Allan Welch Smith in which he attacked the quacks and said the newspapers were responsible for them. Dr. Pantton declared that many of the regular practitioners were as bad as the quacks and said the doctors themselves were to blame for the entire matter. He was followed by Dr. C. W. Sharples, secretary of the Washington board of medical examiners who agreed with Dr. Pantton that the doctors themselves were responsible for the quacks.

George Y. Yamaya, the Japanese dentist who sought an order of mandamus in the circuit court to compel the state board of dental examiners to issue him a license, has made a new start in that direction. His former effort was defeated because the service of the papers was defective. A stipulation was entered today under which his attorney consented that the writ issued shall be quashed and amended so that the matter may be brought to a hearing on July 7. Yamaya alleges that his application was refused without good reason, and that he was asked humiliating questions by the examiners.

Larson Case Continued. R. G. Martin, attorney for James Austin Larson, requested Municipal Judge Cameron to proceed with the charge of practicing osteopathy without a license today, but the judge, knowing the time required for the former case, continued the Larson case until Monday. Martin declared it would be a great accommodation to his client, Larson, "the man of telecon," to have the case settled at once as Larson expects to bid Portland farewell in a day or two.

DETERMINED TO HAVE RIGHT TO PULL TEETH

George Y. Yamaya, the Japanese dentist who sought an order of mandamus in the circuit court to compel the state board of dental examiners to issue him a license, has made a new start in that direction. His former effort was defeated because the service of the papers was defective. A stipulation was entered today under which his attorney consented that the writ issued shall be quashed and amended so that the matter may be brought to a hearing on July 7. Yamaya alleges that his application was refused without good reason, and that he was asked humiliating questions by the examiners.
