STEEL READY FOR BIG GRANDSTAND

Structure at Country Club Will Have Seating Capacity of 3,500.

The structural steel to be used in the erection of the mammoth grandstand at the Country Club and Livestock association track will arrive in this city within the next two weeks, according to the advice just received by the officials of the association from the American Bridge company of New York, which has the contract for supplying the material. Immediately upon the arrival here of the material a large force of structural iron workers will be put to work.

The grandstand will be located at the crest of the plateau overlooking the Country Club oval, and in the northward slope the foundation of the pavilion being from 40 to 50 feet above the level of the racetrack. This will give a full view of every point on the course to the 3,500 people who can be seated in the stand.

The men behind the first annual Pacific National Livestock meet have reached the conclusion that the most feasible plan for the display of the exhibits in the various divisions and classes will be to erect a huge tent for judging and exhibition purposes in the paddock.

This tent plan will be adopted for this year only, the reason for the use of the

canvas at the coming meet being that it would be impossible to erect a building large enough for the purposes of the association and of such character as would serve permanently, in the short time left for the completion of the arrangements for the date announced.

Rather than put up a temporary structure, or one that would, of necessity, be below the standard of the other permanent structures, the officials of the Country Club and Livestock association thought it best to adopt the tent plan for the first meet, the same to be raised and taken away immediately after the meet, and a mammoth exhibition building, which will be sufficient for the accommodation of the increasing demands from year to year, to be erected in its place.

In view of the large number of persons who have made application for novelty and feature concessions for the coming meet, the association will make that matter a special order of business at the regular meeting of the executive committee to be held this afternoon at 4 o'clock. The committee will probably decide this afternoon to limit the scope of such exhibitions and will not include such special features as poultry show, dairy products or agricultural implement exhibits.

WHITE TEMPLE BIDS FAREWELL TO RILEY

Noted Evangelist Accorded Hearty Appreciation by Congregation.

The usual great audience was present at the White Temple last night to hear Dr. Riley's last sermon in the series of evangelistic services which he has been holding for the past three weeks. Owing to the fact, however, that Dr. Riley was suffering from a very severe sore throat, he prevailed upon Dr. Brougher to preach in his place. Before the sermon Dr. Brougher took occasion to say a few words concerning the courtesy of George L. Baker, who gave the Baker theatre for the noonday meetings last week, and a vote of thanks was tendered him by the church. Especially inspiring last night was the singing of the church choir of nearly 100 voices under the direction of J. W. Belcher. The gospel singing of this chorus will be a feature of the services at the White Temple during the month of July. E. Milton Runyan sang "The Holy City" upon unexpectedly. Dr. Brougher preached a very strong sermon on the subject, "Neutrality in Religion impossible," and using the words of Christ to the Pharisees, "He that is not with me is against me" as a text.

The speaker declared that no one was for Christ unless they came out boldly and openly and acknowledged their faith and trust in him. He especially emphasized the fact that people cannot be "on the fence" in religious matters and said that no one could leave the building until they decided whether they were marching under the white banner of the cross upon which was written in letters of blood, "The world for Christ," or whether they were under the black banner of the devil upon which was written "The world for Satan."

At the close of the session 165 people rose, saying that while they were not members of any church they believed in Christ and trusted him as their personal saviour. About 20 others rose, asking for prayers. Before dismissing the congregation, Dr. Brougher expressed his appreciation of the work done by Dr. W. B. Riley and his sister, Malcolm C. Martin. In the past three weeks, among other things he said, "Dr. Riley's fearless, brilliant, scriptural preaching has been a blessing to every one who has heard him. Mr. Martin with his great choir has been an inspiration at every

service. The bright and happy Christianity of these two men has been really contagious. They have helped us all to be better Christians. Many have accepted Christ during the meetings, and will never cease to thank God for their coming. As they go on to other work they carry with them the love, the prayers and the best wishes of the pastors and the members of this church and congregation."

In a few words Dr. Riley expressed his appreciation of the many courtesies and kindnesses shown him while here and said that he would always have pleasant memories of the White Temple and its members.

A Forest of Poles.
Telegraph and telephone companies in this country last year used 2,398,772 poles, railroads 254,268 and street railways, electric light and power companies 224,776.

POISON OAK POISONING.
Ballard's Snow Liniment cures it. Mr. O. H. E. Cornelius, Turner, Ore., writes—My wife has discovered that Snow Liniment cures "Poison Oak Poisoning," a very painful trouble. She not only cured a case of it on herself, but on two of her friends who were poisoned by this same Ivy. Price 25c, 50c and \$1.00. Sold by Skidmore Drug Co.

MR. GROUCH HAS THE TRANSFER HABIT AND IS PROUD OF IT

"I always take a transfer when I pay my little nickel to the streetcar collector whether I intend riding a block or a mile or further," said a man this morning as he came down town feeling sort of grouchy, having eaten too much yesterday and the like of that.

"In the first place the transfer protects one," continued the grouchy, "as it answers as a sort of receipt. I get my transfer every morning, although I do not use it once a year. My car goes direct to the office. But if the conductor ever makes the claim that he has not collected my fare I am waiting for him with my little dinky receipt."

"And, secondly, one can hold the transfer in his fingers and fold it back and forth and wrinkle it up. It gives him something to do. And then he can make sure of the date."

"Many persons make collections of streetcar transfers just like some collect postal cards, but I'm not in that

class. Nevertheless, I never ride without getting a transfer. In other words, I have the transfer habit. Try it. You soon get used to the idea and the first thing you know you are asking for a transfer as regularly as you pay your nickel. And some day, even though it may be a year or two, the transfer habit will save you another fare or a dispute with the conductor or no telling what."

BALLOONIST HURT AT LA GRANDE

(Special Dispatch to The Journal.)
La Grande, Ore., July 6.—Prof. Hicks, balloonist, was seriously hurt yesterday. The balloon, which he was preparing to make an ascension refused to raise. Hicks was thrown against a woodshed. He walked 50 feet, fell and was picked up unconscious.
