HANDS OFF PLATFORM

This Declared to Be Bryan's Policy, Despite All Tales of Cold Storage Resolutions—Oregon at the Convention.

By John E. Lathrop.
Denver, Col., July 7.—All sorts of stories have been circulated of alleged official drafts of a platform brought from Lincoln. These, it can be asserted authoritatively, are without foundation in fact. Bryan's position has been all along that he has no right to do more than determine whether he would or would not accept the nomination on certain declarations in platforms or with certain declarations omitted.

A HARD CASE

Imagine a man so low with kidney disease that he had to sleep upright and being unable to lay in his bed or stand on his feet. Yet such was the final condition of W. R. Marquis, the well known business man of Hartsville, Fla. He went to a sanitarium in Memphis, where he was attended by three physicians. They gave up the case and advised that he go home. On his return he heard of and sent for the new eminent treatment. The fourth week the heart and drooping began to mend, and the fourth month he was walking all over the town without crutches, and he permits this reference. No matter what kidney disease is called—whether kidney trouble, Nephritis or Bright's Disease—it is inflammation of the kidneys, and as the old-time futile kidney medicines are kidney excisants, you can see why they failed in his case as they have in yours. Fulton's Remedial Compound is the first successful Remedial Compound thus reducing renal inflammation, and kidney disease is now curable for the first time. Even serious suppurative incurable forms bleed as above. Literature mailed free. John J. Fulton Co., Oakland, Cal. Wholesale Drug Co., 151 Third Street.

sentiment of the party is, and the candidate could then say whether or not he would accept the nomination thereon.

But the prediction seems warranted that every essential principle which has been advocated by Bryan as an impending issue will be incorporated in the platform for the simple reason that Bryan personally has upheld the organization from the disorganization of 1904, and naturally his ideas have largely been accepted by his followers, who at the convention will heartily carry them out.

Beyond a reasonable doubt there will be a plank favoring the guarantee of bank deposits and a rational pronouncement on the anti-injunction measure satisfactory to labor leaders yet not calculated to estrange the average capitalist, while the principles on which Bryan, LaFollette and Roosevelt have been virtually unanimous and which were omitted from the Chicago platform will be adopted.

It is apparent the Oregon delegates are inclined toward Gray for vice-president, if he could be induced to accept, though they have not settled on any one on account of the uncertainty surrounding the matter.

John M. Gearin, former United States senator from Oregon, was received enthusiastically by the Denver Knights of Columbus last night, when he gave the lecture for the fourth degree before a large class of candidates. The knights had made elaborate preparations for the affair, which was attended by many prominent members of the order from various states.

The Oregon delegation is endeavoring to arrange to have California or some state which is named early in the roll call yield to Oregon and that Gearin may second the nomination of Bryan without waiting for the calling of the state's name in its alphabetical order.

The Auditorium, when thrown open for use, was found nearly two hours short of its expected seating capacity. This has resulted in cutting down the assignment of tickets to every delegate. No other members engaged in the discussion here are embarrassed in caring for those who had been promised tickets.

The Oregon delegation has experienced no difficulty on account of the episode of Chairman C. K. Harty attacking Senator Mitchell. Senator Mitchell, Lincoln county in connection with the latter's candidacy for national committee, stating that everyone admitted he had pledges, freely given by delegates under no duress, which gave him the position.

"Keep the platform short," which was the universal demand from all quarters, is the reason why former United States Senator Dubois of Idaho will not get into the resolution his anti-injunction plank, if he fails, as seems unlikely. Dubois won easily his contest over the Nugent delegates. The subcommittee, consisting of national committee men Johnson of North Dakota, Ryan of Wisconsin and Williams of Oklahoma, voting two to one in favor of Dubois. Sentiment developed yesterday apparently strongly in support of Dubois' declaration that the platform contain a declaration against polygamy, but so many proposals have been made for a pro-tem party at this and that subject that the likelihood that the resolutions committee would add the one the Idaho plank was lessened.

Partisans of both sides claimed in talking with other delegations that they would insure the carrying of Idaho, Oregon and Wyoming if their wishes were followed in the matter of resolutions. The bitter fight waged during the past 48 hours, brought into play the powerful forces of the Mormon church as well as every available ounce of dynamic power of those who have been opposing that organization in recent years. Duboisists, however, entertained the hope that they would get an anti-polygamy plank into the platform, although that no delegation had refused to concede their claims. Idaho has supplied absolutely the only

thing affecting the Pacific northwest which has departed from the ordinary routine of preparation for the convention.

None of the delegations have agreed on any vice-presidential candidate. None seemed ready to declare its position on the plank in controversy, excepting the issue as raised by Dubois.

TWO KILLED IN GRAND PRIX RACE

Cissac's French Car Grinds Him and His Machine—English Driver Hurt.

(United Press Special Wire.)
Dieppe, France, July 7.—Cissac, driver of one of the French cars, and his mechanic were killed and one man was seriously injured in the grand prix automobile race today, in which German carried off the first three places. Lautenschlager, in a Mercedes, won first place, making the run in six hours, 56 minutes and 33 seconds.

Hemery in a Benz car was second. Hanriot, driving a Benz, finished third. Strong, who drove the American entry, a Thomas, was never a serious competitor for a place. Cissac was driving a French Panhard at 120 kilometers an hour when the accident took place. The car rounded a bad curve at terrific speed and overturned. Both men were crushed to a pulp.

Spectators rushed to the scene and carried away the mutilated bodies of the racers and hastily removed the broken machine. William McMurray, a doctor, was removed to the hospital. Harrison, driver of the Weigel car, the English entry, was probably fatally injured when his car overturned, throwing him violently to the ground. The doctors pronounce his condition critical.

REAR ADMIRAL'S BODY TAKEN TO NEWPORT

(Harvest News by Longest Leased Wire.)
San Francisco, July 7.—The body of Rear-Admiral Thomas, who died Saturday at Del Monte, was brought to this city yesterday afternoon and placed on the overland train en route to the admiral's old home at Newport, R. I. Accompanying the remains were Mrs. and Miss Thomas, the admiral's widow and daughter, and Lieutenant Thomas of the Kearsarge, who has obtained permission to accompany his father's corpse to its final place. Admiral Sperry and Admiral Henry, with their flag secretaries and lieutenants and accompanied by many officers of the fleet, met the funeral party at the Third and Townsend streets depot when the train arrived and crossed the city with the party.

Come From Germany.
More than 55 per cent of stove, heaters and lamps made for the use of denatured alcohol are imported to this country from Germany, but American inventors and manufacturers are fast cutting down this percentage.

Weight of Steel Rails.
Steel rails, weighing 45 pounds to the yard, were first used in this country in 1852. Prior to that time iron was used. On some of the great trunk lines rails are now used that weigh 125 pounds to the yard.

LEWISTON CLOSE TO PORTLAND

First Train Over New O. W. & I. Road Enters Idaho Town Today.

Lewiston people at 9 o'clock this morning rejoiced to see the first regular train over the new Oregon, Washington & Idaho railway steam into that city. The delay in supplying train service to the recently completed road has been due to controversies over use of Lewiston terminals jointly by the Hill and Harriman roads, but settlement in part has been reached and the road will be regularly operated from this date by the Harriman company.

The Northern Pacific, which controls a half interest in the line, is supposed to operate its trains also over this road as soon as the Northern Pacific completes its extension now under way to Grangeville, Idaho.

The O. W. & I. train leaving Portland last evening pulled sleeping cars that were transferred at Lewiston junction to the O. W. & I. train No. 4, arriving at Lewiston at 9 o'clock this morning. A daily service each way between Portland and Lewiston will be given after the north bank road in operation between Portland and Pasco the Northern Pacific will inaugurate a train service between this city and Lewiston in competition with the O. R. & N. lines.

General Manager J. P. O'Brien and other officials of the O. R. & N. company affiliate in like capacities for the Oregon, Washington & Idaho. George W. Harshko, who built the new road, will continue as its chief engineer. M. J. Buckley will be general superintendent, William McMurray will act as general passenger agent, R. B. Miller as general freight agent, and W. W. Cotton as general attorney.

The interstate commerce commission for permission to put in through rates from Portland to Lewiston, and freight service is expected to begin about July 12.

Eventually Portland will have faster and better train service in connection with the Snake river region, as the Hill and Harriman lines in competition for the business will be forced to furnish up-to-date trains and the fastest possible time schedules. The Riparian-Lewiston road is said to be one of the best pieces of railroad construction in the Pacific northwest, and here are found some of the best built railroads in the world. In building the line Chief Engineer Boeckhe spared no effort or expense. The road is built on a permanent track. It is said that sooner or later this will be a through line via the Snake river to Lewiston, and permanent track, supplementing the present mountainous route through eastern Oregon.

Tobacco in Canada.
A French expert who has been experimenting for the Canadian government for the past two years has announced that a fine grade of tobacco can be grown profitably in Quebec, Ontario and British Columbia.

Saves the Pistol.
Whenever a gun or revolver is laid away it should be liberally coated with some heavy oil, known to be free from moisture. Light oils, too frequently used for this purpose, soon evaporate and corrosion ensues.

How to Protect Machinery.
Steam machinery, when shut down, should be given a light coating of graphite, mixed with a heavy grease. This is easily removable and not only will it prevent corrosion, but will be found positively beneficial.

\$23,000 LOSS DUE TO INJURY

Gold Medal Mill Burns as Result of Sawyer Breaking His Arm.

A broken arm yesterday cost the Gold Medal Shingle company \$23,000. The mill is fed by three sawyers, and when any one of these has to stop work for any reason the mill must shut down. A new sawyer named Cutts came over from Seattle to go to work yesterday, and the mill had barely started when he caught his arm in the machinery and had it badly crushed.

Because of this, Manager J. E. Nelson closed down and then left town. He figured that if the mill had been running some one would have seen the fire which consumed it in time to save

the plant. The mill, which was situated on the Macadam road in South Portland burned to the ground yesterday afternoon, causing a loss to the owners, T. W. Norbury and M. Olsen of \$23,000. Half of this is covered by insurance. The fire started in the engine-room, George Postner, who turned in the first alarm at 2:15.

Fanned by Wind.
A stiff breeze from the north fanned the flames into a blazing inferno within a few minutes, the entire building being wrapped in fire before the first engine arrived. The chief loss is that of the mill and 2,000,000 shingles stored in the warehouse. The boilers and engines were left undamaged, the fire merely consuming the framework around them and destroying the smoke-stack.

Three fire engines, Nos. 4, 5 and 10 and four hose trucks answered the alarms, and the fireboat, George H. Williams, also responded. Even with four streams of water turned on little could be done but prevent the spread of the fire to the Pacific Ashbestos company's plant west of the Gold Medal mill.

Worried.
"Why," asked the good man's wife, "are you so thoughtful? You look as if something disagreeable had happened."

"Perhaps," he replied, "I am foolish to feel as I do about it. My congregation has raised a purse for the purpose of sending me to Europe."

"And are you sorry it isn't larger enough to enable you to take me with you? Don't let that cause you to feel depressed. It will be very lonely here without you, but I know you need the rest, and I shall be very sensible. I can spend the summer at some quiet, inexpensive place, cheered by the thought that you will return refreshed in mind and body."

"It is very good of you to look at it in that way, my dear. I appreciate your feeling. But the gentleman who made the presentation speech said he was sorry the amount that had been raised was not larger so that he might be able to remain away longer, and somehow it seemed to me that the applause was more hearty at that point than anywhere else in the course of his remarks."

tion has raised a purse for the purpose of sending me to Europe."

But the gentleman who made the presentation speech said he was sorry the amount that had been raised was not larger so that he might be able to remain away longer, and somehow it seemed to me that the applause was more hearty at that point than anywhere else in the course of his remarks."

Combination Chair and Desk.
An Alabama inventor has devised a combined chair, desk and book rack for school children, adjustable for different sized children and so arranged that the occupant is assured the most healthful position while studying.

The national architectural exhibition to be held at New York in September will include all departments of that art, including engineering, painting, sculpture and craftsmanship.

Money-Making Ways of Using Want Ads

To Get an Agent or a Position As Agent

If you are a concern depending upon the sales of your Agents to make your business successful, you realize that it means money for you to get the best Agents possible. And you, Mr. Agent, must discover the very best article to sell if you want to make the most money for yourself. Our "Agents" column on the Classified page of this paper will bring results to both Manufacturer and Agent. There is money in selling a good novelty. By reading our "Agents Wanted" ads for a few days you will probably find just the thing that appeals to you. If you don't, insert a little ad under the "Agents" column asking for what you want. It will pay any Manufacturer to run a continuous "Agents Wanted" ad in this paper if he wants to select a high grade force of Agents.

EXAMPLES

AGENTS WANTED—WE WANT Reliable men everywhere to sell our wonderful "Kitchen Time-saver." Good money made every day. Address for full particulars, The Home Supply Co., Blainville, Ill.

SITUATION WANTED—AS AGENT for manufacturer who has good, useful novelty. Will give all time. Experienced. Address G H-62, Journal.

JOURNAL CLASSIFIED RATES One cent a word an insertion. Seven consecutive insertions for the price of six.

One Line 1 month, \$0.15; 3 months, \$0.45; 6 months, \$1.15 per line per month; 12 months, \$1.75 per line per month.

There is no kind of advertising so easy to use as Classified, which is suggested in THIS paper by our Classified Page. You merely write out what you WANT in a simple, direct way in a few words, insert under the proper heading, and in a day or two you have RESULTS. Turn to our Classified Page NOW.
