IRRIGATED LANDS.

THE AREA OF IRRIGABLE LAND in the Washtucna valley is limited. This is one reason why a big future value is assured—the demand will exceed the supply.

We have abundance of water and it is now running on the land.

Our system is a gravity system, and we have one railroad running within half a mile of every tract now, and two more going in.

We are making exceptional inducements to actual settlers on our land.
