## CITY BOND ISSUE IS VALID

### Judge Cleland Reversed in Suit to Test Validity of the Paper Instituted by Francis I. McKenna—Five Million Dollars Are Involved.

(United Press Leased Wire.)  
Salem, Or., July 14.—In an opinion rendered today by Chief Justice Bean, the decision of Judge Cleland in the test case of Francis I. McKenna vs. the city of Portland, was reversed. The opinion means that the large bond issue involving \$5,000,000 for the construction of an additional conduit to the Bull Run river for an increased water supply, for a new bridge to replace the Madison street structure, and for an extensive parking and boulevard system for the city of Portland, voted by the people of Portland a year ago, is declared valid.  
The case was argued in the supreme court last Wednesday and the chief justice handed down his decision today in less than a week. The point of law involved was whether a city council is empowered to initiate bills under the initiative and referendum law, to be submitted to the people. The chief justice decided that the council has that power. It was on this same point that Judge Cleland decided that the council did not have the right to initiate laws for the people.  
Justice Bean holds that the right of the city council to initiate laws exists by authority of an amendment passed in 1906 and another in 1907 that together make more definite general laws passed by the people conferring the same rights of initiative and referendum to cities as was formerly enjoyed by counties.

## MAY ABOLISH COUNTY LEASING OF CONVICTS

Jackson, Miss., July 14.—There was a good attendance today at the opening of the third annual meeting of the County Supervisors' Association of Mississippi. The session will continue two days. The abolition of the county convict leasing system and the establishment of county departments of agriculture are the two principal subjects slated for consideration.

## KILLED BY BUMP IN DRUNKEN QUARREL

(United Press Leased Wire.)  
Vancouver, B. C., July 14.—In a drunken quarrel at the Palace hotel formerly of Seattle, was killed by his companion, Charles Manning, a transfer driver, and in falling his head struck the tiled floor so heavily that his skull was crushed and he died yesterday. Manning was arrested.

## COAL BIN EMPTY; COAL CAR BUSY

### And the Wail of the Freezing Will Betimes Be Heard in Land.

(United Press Leased Wire.)  
Vancouver, B. C., July 14.—According to a dispatch received here today reports gathered from various parts of the prairie west outline a rather serious prospect in regard to the fuel supply for next winter. Following a serious shortage in the winter of 1907-8 coal dealers and the consuming public stocked up largely last summer, but the winter turned out so unusually mild that the need for these precautions was not apparent.  
Railways last winter had abundant rolling stock owing to the light crop, and there was never anything approaching a famine in any district. This summer, however, the financial conditions forbid the dealers to carry large stocks and prevent consumers from laying in even an average supply ahead. At the same time it is a ready clear the railways will likely be blocked in an effort to handle the immense crop, and in a month of two a large coal movement will be physically impossible. If, therefore, a severe winter follows, the situation may become serious.  
**BRYAN AND SULZER**  
(Continued from Page One.)  
cause I think we have a good fighting chance to carry that state also." As to the issue of the campaign.

## REVOLT SPREADS TO MACEDONIA

### Turkish Troops Not Paid, Mutiny Results—Death of Mutineers Ordered.

(United Press Leased Wire.)  
Constantinople, July 14.—Troops were dispatched to Monastir today to put down a mutiny among the sultan's Macedonian garrisons. The mutiny is the result of failure of the Turkish government to pay the soldiers promptly, and is spreading to all the garrisons at Monastir. The sultan is alarmed and has given orders that all mutineers are to be put to death at once.  
**HALLSTONES KILL HOGS AND CATTLE**  
(Special Dispatch to The Journal.)  
Grants Pass, Or., July 14.—The worst and most destructive hail storm that has ever visited Josephine county occurred at Hugo late Sunday afternoon. The storm arose suddenly and at the close of an unusually hot day. Large hailstones dropped from the thunder cloud, stripping the trees of leaves, smashing shingle roofs, injuring cattle and killing pigs, sheep and young goats. The main damage was done to the cherry crop. The largest cherry orchards of the county are in Hugo valley, and the trees were completely stripped of the fruit, which was just ready for picking. The big Triplett orchard, which car-

## MOUNT SCOTT DEMANDS BETTER WATER SERVICE

### To formulate and decide upon plans whereby the Woodmere Water company may be sued to compel it to furnish them with an adequate supply of water, the citizens of Mount Scott, which includes the Arleta and Kern Park districts, will hold a mass meeting this evening in Kern Park.

The residents of this district claim that during the summer months it is practically out of the question for them to get water certain hours during the day, and that many of them are forced to undergo considerable inconveniences owing to the lack of water which they are compelled to pay for at the same rates as charged during the winter. The citizens assert that their demands for better service when made to officials of the Woodmere company are ignored and that the meeting tonight is for the purpose of thoroughly discussing the water problem with which they have been confronted for some time.  
The fact that there is no fire protection in the district and aroused by the Arleta fire of early Monday morning, which burned fiercely without means meeting which is scheduled to be held at 8 o'clock. The citizens did all in their power yesterday when three buildings were destroyed but were practically helpless owing to the fact that there was no apparatus at hand and no water connection even if they had had the machinery.  
An early return of prosperous conditions in all lines of business.  
**SMALL CLOUDBURST AT TRAILFORK**  
(Special Dispatch to The Journal.)  
Condon, Or., July 14.—Heavy showers fell in this section yesterday afternoon. Farmers are jubilant. At Trailfork a small cloudburst did some damage to gardens. Thirty-mile creek had 18 feet of water. Gardens and hay stacks were watered.  
See for week's \$1.50 value when leather shoes, all sizes. The for women's \$1.50 canvas Oxford, all sizes. Women's Show Shoes company, corner First and Madison. Also an Morrison between Front and First.
