

FIRST OF CAMPAIGN DONATIONS

Bryan Gives Initial List of Those Who Have Given Money to Help the Cause of Democracy in Coming Contest.

Iowa Farmer Sends in \$100 Which Constitutes What Will Be Known as "Farmers' Fund"—No Corporation Money Wanted.

(United Press Leased Wire.)
Lincoln, Neb., July 17.—William J. Bryan and John W. Kern, Democratic candidates for president and vice-president, today made public an appeal for campaign contributions, which in part follows:

"The first contribution to the Democratic campaign fund this year was made by an Iowa farmer. Just before the convention this man, who prefers that his name should not be mentioned, journeyed to Lincoln with a contribution of \$100 which he gave to Mr. Bryan.

"This was an appropriate first contribution, coming from that great body of the population known as agriculturists for the farmer has nothing to gain by privilege or favoritism, his hopes being in the anticipation of equal rights to all and special privileges to none.

"Now that the party has announced its intention not to accept contributions from corporations, not to accept excessive individual contributions and to publish all contributions above a reasonable minimum, it ought to be able to secure sufficient funds from those patriotic citizens who ask from the government nothing but protection.

"As the national committee has not yet been organized, we will ask subscriptions to this farmer's fund.

"Those giving names to be mentioned, if the sum is not over \$100 their wishes in this respect will be complied with.

"Our fight is for the whole people."
(Signed) William J. Bryan,
John W. Kern.

ALL RULES OF CONTEST VIOLATED

(Continued from Page One.)
second floors and six on the third. These plans, which it developed were submitted by Whitehouse & Honeyman, were the ones ultimately selected by the board.

Alleged Advance Information.
It is claimed by the contesting architects that the successful firm must have known that their plans would receive favorable consideration at the hands of the board or they never would have violated the board's instructions as to the arrangement and number of the rooms.

"One of the architects, speaking for the others, said:

"The decision of the board of education is not received with much satisfaction by the participating architects. The report is current that the board, in place of awarding the prizes according to merit, as they had promised and were obligated to do according to the terms of the competition, merely doled out the rewards to their favorites, and it is even asserted that after a long wrangle, ballots were taken and the result was a compromise between the factions, and that the report of the Seattle architect was to be given."

Suppress Jury Report.
"Color is given to this by the unusual silence maintained by the board concerning the award and the unusual proceeding of suppressing the report of the jury, it being customary in such cases to publish the full text of the report.

"This is especially proper as Mr. Somerville, a prominent Seattle architect acting as a jury, had to select the winners by number and does not know whether the persons selected by the board represent the designs which he chose. Many leading architects withdrew from the competition before the award was made, one of the participating architects in the end of 23 entries.

"The commission payable to the architect in charge will amount to over \$12,000, so that the winner, whether by merit or pull, captured the biggest prize of the year.

"In the interest of the public service which should be above the suspicion of favoritism in any matter, the report of the board ought to be published, and had not heretofore recognized any competition for an award of school architectural work."

IN MEMORY OF LOST EXPLORER
(Special Dispatch to The Journal.)
Stockholm, July 17.—The handsome memorial erected here to commemorate the ill-fated Andre expedition in quest of the North Pole was decorated with wreaths today on the occasion of the 11th anniversary of the ascent of the balloon which carried Andre and his companions to destruction. Appropriate exercises under the auspices of the Stockholm Geographical society also were held to mark the anniversary.

FIREBUGS BUSY AT ST. JOHNS

Two Buildings Fired; Are Destroyed; Loss \$1,500—Incendiary Seen.

Firebugs operated in St. Johns last night and early this morning and as a result two buildings were burned, one of them completely. The loss on the two structures, both of which were frame, will amount to about \$1,500.

Fire was discovered in the rear of a frame building near the corner of Jersey and Tacoma streets, early this morning. As Night Watchman Dunbar hurried to the scene he saw a man running away. The officer followed and chased the man several blocks, but he was unable to apprehend him.

When he returned to the burning building and made an investigation it was found that several pieces of kindling wood, rags and paper, all saturated with kerosene, had been carefully placed against the back of the two-story frame building.

The fire extended to the roof, but was extinguished before it reached the front part of the building. The loss is about \$600. The building is owned by J. W. Lundy, president of the St. Johns Title, Abstract & Trust company.

Officers of this company had been opened in the building only yesterday, having been moved from another location. In connection with their abstract business the St. Johns company also conducted a novelty and bookstore, the goods of which were damaged to some extent.

There is no insurance on the Lundy building. The other fire was discovered early in the evening in the southern part of the city. It was a story and a half frame building and was totally destroyed.

The authorities have no clue to the incendiary and are at a loss to understand his motives.

It is said that the use of an oil or gas engine on the farm results in a saving of from 25 to 50 per cent as compared with horses.

"PROHI" TEAM SELECTED

Chafin and Watkins Will Carry Party Standard in Coming Campaign.

(Special Dispatch to The Journal.)
Columbus, O., July 17.—After three ballots had been taken yesterday, Eugene W. Chafin of Chicago was unanimously chosen as standard-bearer of the Prohibition party. Turpe was very little opposition, his strongest competitor being Rev. William B. Palmore of St. Louis, who received 274 votes on the first ballot and 418 on the second ballot. It was apparent to everyone, however, before the voting began that Chafin was the choice of the convention.

The vice-presidential nomination threatened to go begging. Two candidates were named for the position, but the first refused and the second was opposed by several of the delegates. After an extended debate Professor Aaron S. Watkins of Ada, Ohio, was chosen. Both nominees are candidates for gubernatorial honors in their respective states.

The forenoon session of the convention was devoted to the discussion and adoption of a brief platform, which is possibly the shortest ever recorded, containing not more than 350 words.

Platform of 14 Planks.
The report of the committee on resolutions was presented by the chairman, Professor Samuel Dickson of Albion college, Albion, Mich. The report follows:

"The Prohibition party of the United States, expressing gratitude to Almighty God for the victories of our principles in the past, for encouragement and triumphant success in the future, makes the following declaration of principles and pledges their unflinching support to the laws enacted in their behalf:

"1. The submission by congress to the several states of an amendment to the federal constitution prohibiting the manufacture, sale, importation, exportation or transportation of alcoholic liquors for beverage purposes.

"2. The immediate prohibition of the liquor traffic for beverage purposes in the District of Columbia, in the territories and all places over which the national government has jurisdiction; the repeal of the internal revenue tax on alcoholic liquors and the prohibition of interstate traffic therein.

"3. The election of United States senators by direct vote of the people.

"4. Equitable graduated income and inheritance taxes.

"5. The establishment of postal savings banks and the guarantee of deposits in banks.

"6. The regulation of all corporations doing an interstate commerce business.

"7. The creation of a permanent tariff commission.

"8. The strict enforcement of the law instead of the official tolerance and practical license of the social evil, which prevails in many of our cities, with its unspeakable traffic in vice.

"9. Uniform marriage and divorce laws.

"10. An equitable and constitutional employers' liability act.

"11. Court review of postoffice department decisions.

"12. The prohibition of child labor in mines, workshops and factories.

"13. Legislation basing suffrage only upon intelligence, to be read and write the English language.

"14. The preservation of the mineral and forest resources of the country and the improvement of the highways and waterways.

"Believing in the righteousness of our cause and in the final triumph of our principles and convinced of the unwillingness of the Republican and Democratic parties to deal with these issues, we invite to full party fellowship all citizens who are with us agreed."

VANCOUVER TROOPS AT AMERICAN LAKE

Second Battalion Completes 100-Mile Hike—Third Is En Route.

(United Press Leased Wire.)
Tacoma, July 17.—Companies G, H and F of the Third Infantry left Camp Stanley yesterday on their long hike to Mount Rainier and return. The second battalion, consisting of Companies E, G, F and H of the First Infantry, stationed at Vancouver, arrived at American lake yesterday afternoon and will do police duty at the encampment grounds until the beginning of the encampment.

The Third battalion, consisting of Companies M, I, L and K and Companies A and B of the First battalion of the First regiment, started yesterday morning from Vancouver to march to American lake. They will take their time, arriving July 23, the date Companies G, H, and F of the Third brigade back. Companies C and D of the First regiment will remain at Vancouver on post duty until the encampment breaks up when C will go to Monterey, Cal.

BILLION DOLLAR CONGRESS REPORTS

(United Press Leased Wire.)
Washington, July 17.—The last session of congress made necessary total appropriations amounting to \$1,008,897,548.66, according to the announcement made today under the law which requires the publication of the total volume of appropriations after each session.

In addition to the appropriations already made the congress authorized by the session require the future appropriation of funds for public works aggregating \$49,443,750.00. This makes the total expense of the session \$1,057,841,298.66.

HEAVY DEMAND FOR LINN COUNTY FARMS

(Special Dispatch to The Journal.)
Albany, Or., July 17.—Farms in Linn county are being eagerly sought and values have increased wonderfully within the last few years. W. M. Lloyd of Tangent recently sold his farm consisting of 343 acres of pasture land for \$11,000. About five years ago this same farm changed hands and brought \$6,000. Two years ago W. M. Lloyd paid \$8,000 for it. A half dozen of the finest farms in Linn county have changed hands within the past week. There seems to be a steadily increasing demand for this class of realty. Every day more and more homeseekers are seen touring the country with the view of purchasing and establishing a home.

Japan's Exhibition.

Japan's grand exhibition, or world's fair, will occupy 250 acres, and ex-hibitors who have not their exhibits on hand when it opens, April 1, 1912, will be barred out.

Summer Needs

AT KADDERLY'S

ENORMOUS STORM DAMAGE IN IDAHO

(Special Dispatch to The Journal.)
Spokane, July 17.—Damage by recent hail storms on Camas and Nez Perce prairies, in the vicinity of Grangeville and around Stites, Idaho, will aggregate more than \$100,000. According to reports from a half dozen sections near Grangeville, probably 400,000 bushels of wheat was leveled. Chickens, ducks, geese and even hogs were killed by hail stones.

A storm that swept across the prairie country here killed grain and beat fruit from the trees. The force of the storm—three miles in width and 100 miles long—comprised the richest section of the country.
