RECORD BREAKING CROWD ATTENDS CHAUTAUQUA

Patriotic Day, Twelfth Day, Saturday, July 18.

MORNING.

8-11—Summer school.

11:00—Chautauqua forum. Special program.

AFTERNOON.

1:15—Concert by Chemawa Indian school band.

2:00—Reading by Prof. W. Eugene Knox. Solo. Patriotic address, "The Evolution of Abraham Lincoln," by Dr. Robert McIntyre.

3:30—Reunions at various headquarters.

3:30—Baseball.

7:15—Concert, by Chemawa Indian school band.

8:00—Athletic entertainment under the direction of Prof. A. M. Grilley, physical director of the Y. M. C. A., of Portland.

9:30 — Fireworks — Fifteen set pieces, prepared by Professor William Kelling, recently from Germany.

Two thousand tickets sold at the gate, before 4 p. m. yesterday, was the record-breaking attendance at the Chautauqua. This means about 5,000 people on the grounds yesterday—and netting approximately to the association $500 over all expenses for the day.

Up to last night there were 164 tents more on the ground than last year. Restaurant, booths and provision stands were taxed to their utmost supplying provisions for the crowd, which was somewhat unexpected. One stand alone sold 300 loaves of bread, and when night came every available bed, cot and couch on the ground was occupied, some even taking blankets and sleeping on the floors in some of the tents.

Professor Knox the Attraction.

The delightful weather, no doubt, had something to do with bringing out the large crowd yesterday, but the principal cause was the afternoon program, which, with the exception of several musical numbers, was given entirely by Professor W. Eugene Knox of the Puget Sound university, Tacoma.

This is the second or third time Professor Knox has been engaged as teacher of elocution and platform reader for the Willamette Valley Chautauqua association, and on every public appearance he has been received with great favor, and he is exceedingly popular with his pupils. As an impersonator Mr. Knox stands high, particularly in dialect work.

The round table hour, immediately following the afternoon program, was in charge of the W. C. T. U., and they considered themselves fortunate in having with them a national lecturer, Mrs. Mary Sibbitts of Kansas. Her subject was "Old Glory." Mrs. Sibbitts is a fluent speaker, and for nearly an hour held her audience by her flow of words and logical patriotism. The moral that Mrs. Sibbitts drew was, of course, the blot on old glory from the whiskey traffic.

It was congress of mothers' day at the kindergarten tent yesterday, when several women prominent in teachers' and mothers' clubs, discussed the problems of child-rearing, after Miss Clark had given a very fine talk to those present. Today the usual kindergarten work proceeded.

The Y. M. C. A. headquarters would not begin to hold the many who went this morning to Mrs. Miller's class of domestic science. Yesterday she instructed in salad making and today her subject is dsserts.

An Uncle Remus memorial will be held Saturday morning by Dr. B. J. Hoadley's class in American literature from 8 to 9 o'clock, closing the series of lectures at 10 a. m. Mrs. Brown will read selections from Uncle Remus.

Another college rally filled the hour of the Forum this morning when the State Agricultural college had its inning with President W. J. Kerr in charge.

Tomorrow will close all the classes, some even concluding today. Much satisfaction is expressed over the scholarly manner in which the instructions in all departments have been handled and much praise is being bestowed upon Secretary Cross, who has been untiring in his efforts to satisfy and please every one.

Crowds Expected Tonight.

Every appearance this morning indicates that today will outdistance even yesterday in number of attendance, and great crowds are expected to hear Dr. Robert McIntyre in the evening. Extra cars have been arranged for and everything is being done to prevent overcrowding of the cars returning to the city after the lecture. The Chautauqua management assures the public that there will be ample cars to carry every one comfortably.

The best for the last, both for grown people and children, is the Chautauqua arrangement. The entire day tomorrow will be full of good things, reaching its climax for the older people in Dr. McIntyre's address on Abraham Lincoln in the afternoon, for the young people in the athletic entertainment by Professor Grilley's class in the early evening and for the children in the fireworks at the close of the evening program.

Elaborate preparations have been made for this last feature, 15 set pieces by Professor William Kelling being a part of the display.

Dr. McIntyre will preach the Sunday sermon at 2 p. m.

SENSATIONAL EVIDENCE FILED AGAINST MURPHY

Testimony of the most sensational nature was introduced last night at the hearing of Patrolman Mat Murphy before the police committee of the city executive board, which in effect was that Murphy had unwarrantedly insulted the 16-year-old daughter of Mr. and Mrs. F. A. Willard, intruded upon the privacy of Miss Winifred Newth and Miss Carrie De Lano, milliners, who live in the rear of their store on the Base Line road in Montavilla, and had arrested four members of the St. David's Episcopal church choir without cause while he was in a drunken condition.

Murphy denied the charges when he took the stand in his own behalf, and in regard to the charge of arresting the choir members, had Patrolman Sloane, James E. Redman, Joseph Holder and D. L. Vandervoort as witnesses to testify that he was sober on the night in question.

Half Full.

Despite Murphy and his friends, Captain Slover testified that in his opinion Murphy was "half full" when he brought the choir singers to the police station. Furthermore, Slover testified that Murphy had been drinking for three months and that he had spoken to Chief Gritzmacher about the matter several times.

After the evidence had been taken against Murphy in the specific charges which had been brought against him, Chairman Greene stated that it was a general complaint of the citizens of Portland against Murphy and that if anybody was present who knew of additional charges against the man he would allow them to testify.

Immediately a flood of witnesses appeared who testified that they had seen Murphy drunk on various occasions. One of these was that Murphy was found drunk in a swing in a small park at the end of the car line. The testimony was that the boys and young men of the neighborhood had sport with Murphy in trying to arouse him from his drunken slumbers, even going to the extent of placing bundles of lighted firecrackers beneath the officer's resting place, while one youth testified that he had fired a Roman candle directly at the officer. Murphy said that he had been sick upon this occasion.

Used Insulting Language.

When the testimony turned to the case of Murphy's conduct in connection with the young Willard girl, Mrs. Willard was called to the stand and testified that Murphy came to the house with Miss Willard and acted in the most insulting manner. Mrs. Willard testified that Murphy repeatedly called her daughter a liar and acted in such a manner that she invited the officer in to learn his reasons for bringing her daughter home. Mrs. Willard said that as soon as Murphy entered the door she could smell whiskey on him and that he was very drunk.

Looking directly at Murphy and scanning his features Mrs. Willard said: "Why, he doesn't look like the same man. When he came home with Myrtle his eyes were bulging and his face was swollen and he looked like a beast. He was very drunk at that time and he is an entirely different looking man tonight."

Murphy sat behind his counsel and continually wiped his face and forehead with his handkerchief. He was very nervous and appeared distressed at the flood of accusations against him.

Miss Newth then testified as to Murphy's actions around her store. She said that she entered one day to find Murphy standing at the door of their private apartments gazing at her young sister, who was scantily attired after her bath. She said that her sister is deaf and speaks but a few words and was sitting on the edge of the bed with the bedclothing drawn around her.

She said that Murphy was addressing flippant remarks to her sister and that when she went to the door of the bedroom and discovered her sister's plight she asked Murphy to withdraw. She said that when she went up to her sister she found her badly frightened and trembling.

Even after this Murphy entered the private apartments of the young women, according to Miss Newth. On the occasion referred to Murphy entered just as Miss Newth was arising and came and sat beside her on the bed. She said that when she attempted to arise he seized her and pulled her down upon his knee and kissed her.

Evidence Is Strong.

Again Murphy entered the rooms of the young women and asked to wash his hands, according to Miss Newth, and he was granted permission to do so. Miss Newth testified that on this occasion Murphy offered to buy ice cream for the young women, which offer was refused.

Miss Newth's testimony was substantiated by Miss De Lano in respect to the parts in which both young women were present. Murphy told a story in regard to his presence in the store, but was unable to substantiate it in any particular.

Mrs. Mary E. Lang testified that the Willard girl could not have been in the millinery store more than three minutes. Murphy said that she had been in there 45 minutes. Mrs. Lang also testified as to the good character of Miss Newth and Miss De Lano.

At the conclusion of the testimony Counsel Swett asked that the hearing be put over until Murphy could bring witnesses to testify in his behalf. This was granted. Murphy attempted to show that he was justified in his action in the store, but inasmuch as his testimony on this line was unsubstantiated the board very properly ruled it out.

Never before in the history of police examinations has there appeared such a host of witnesses who bore all the marks of respectability to testify against the conduct of an officer. That they were not there for the fun of the thing was shown by their earnest manner.

The hearing was not concluded until 12:15 and all the witnesses remained until the last in order that they could testify in rebuttal if need be. No time was set for the continuance and the next installment of the hearing will be at the pleasure of Lawyer Swett.

Great Alteration Sale.

All goods reduced below wholesale price—50 barrels of old California port, 85 cents a gallon this week. D. Germanus, 228 Morrison.

SURVEY LINE SOUTH FROM ASTORIA

E. Z. Ferguson and others who have undertaken the promotion of an electric road from Astoria and Seaside to Tillamook have placed in the field a party of 15 surveyors, who will run lines to ascertain the easiest grades. They will undertake to finance the road after an estimate of its probable cost has been made. The line can probably be built for $20,000 per mile for the first half of the distance, and the remainder will cost $30,000 to $35,000 per mile. Astoria men have subscribed a fund to pay for surveying the road.

STEEL COMES FOR GRAND STAND

Huge Structure to Be Erected at Once at Country Club.

A solid trainload of structural steel arrived in Portland yesterday to be used in the construction of the cantilever concrete and steel grandstand at the Country club and a dozen teams are at work today unloading the steel from the cars hauling it out and laying it down at the race track. This task will require several days.

Chairman H. C. Campbell of the building committee will have supervision of the building of this spacious grandstand, and expects to get a force of men at work grading for the concrete foundation of the structure. The structure will be 300 feet in length and about 60 deep, and will be located on the northern slope of the gradually-rising hills which surround the Country club's grounds. It is expected that the grandstand can be completed within a period of six weeks, or about September 1. This shipment of steel made what is regarded as a record run from the east, having reached Portland just 16 days after it left Chicago.

Directors of the Country club were notified yesterday afternoon by General Manager J. P. O'Brien of the O. R. & N. that he had instructed General Superintendent M. J. Buckley to proceed at once with plans and surveys for the spur and sidetracks which that road will build from a point near Montavilla station into the club's grounds in order to forward the livestock and racehorse entries through direct to their barns and stables inside the huge enclosure without a change of cars, and also for the handling of the great crowds of people during the races and show.

W. E. Skinner, vice-president of the National Western Livestock association of Denver, and until last year general superintendent of the International Livestock show of Chicago, which organization he founded eight years ago, is in the city for a few days. He is the moving factor in the work of building up a northwestern circuit of livestock shows, covering 10 large cities where shows are held already in a larger or smaller way. The circuit, Mr. Skinner believes, will be in operation so as to include the cities which have already interested themselves in the matter, in time for all 1909 shows. M. D. Wisdom is the father of the idea of such a circuit, so far as Portland is concerned, and Mr. Skinner is going over the ground with him while here. These are the cities to be taken in: St. Paul, Fargo, N. D., Miles City or Billings, Mont., Spokane, North Yakima, Seattle, Portland, Boise, Salt Lake and Denver. Mr. Skinner is greatly impressed with the site which the local association has secured, declaring that it is absolutely ideal. He will remain in Portland over Sunday and from here goes to Seattle, North Yakima, Spokane and Boise before returning home.

His Doctor Bill $1.

When a man or woman uses Sexine Pills for any form of nerve weakness they are getting the best remedy in the world for $1 for each 20 days' treatment. Price Sexine Pills $1 a box, six boxes $5, with full guarantee. Address or call the J. A. Clemenson Drug Co., 2d and Yamhill streets, Portland, Or.

Paving for Albany.

(Special Dispatch to The Journal.)

Albany, Or., July 17.—No objection having been filed with the city council regarding the proposed paving, the notice to property owners of the city's intention to pave certain sections of First street will be made at the next meeting. Bids had been called for.

Library for Condon.

(Special Dispatch to The Journal.)

Condon, Or., July 17.—The local W. C. T. U. is planning to start a public library and reading-room. Mrs. E. S. Purvine has been chosen to ascertain the terms under which a circulating library can be obtained.

Dine at the Nortonia.

Comfortable, cool and inviting for luncheon and dinner. Roof garden in connection.

TRADE STREET TO NORTH BANK ROAD

Street Railway Desires to Relinquish Fourteenth Street Rights.

That the Portland Railway, Light & Power company will endeavor to make a trade with the north bank road in regard to Fourteenth street was shown yesterday when the officials declared they wished to relinquish their right to the line and double track Sixteenth street. This information was brought out when the members of the council, Mayor Lane and railway officials made a tour of the city in a special car to view the streets for which the company desires a franchise.

The trip was illuminating, and it is doubtful if the company will have as easy a time in securing a franchise as did the United Railways company several months ago.

At the beginning of the afternoon trip the party visited the projected extension of Main, Salmon, Fifteenth and Seventeenth streets. After viewing the property the members of the street committee decided to recommend the extension of Main and Fifteenth streets.

The party then returned downtown to the union depot, and then went over the line out to the Lewis and Clark grounds. Then a return was made over the Burnside bridge, and out East Tenth street and to Waverly Richmond. Several changes desired by the company were noted, and the street committee will hold a special meeting Tuesday afternoon to go over the proposed changes.

The company's desire to get rid of its Fourteenth street line caused several of the councilmen to ask President Josselyn whether the streetcar company was to get anything for relinquishing in favor of the north bank road. President Josselyn said that nothing had been said in this regard, and the matter was dropped but not until after an idea had flashed through the minds of the councilmen that the two transportation companies were fixing up something on which the city would be left out in the cold.

Building Permits.

A. Huston, erect dwelling, Caruthers between East Twenty-eighth and East Thirtieth, $1,500; Max H. Ohm, erect dwelling, Sherman and Morgan, $1,500; G. A. McAllen & McDonnell, Third and Morrison streets.

Dr. Martha Hughes Cannon, formerly a state senator in Utah, has moved to California and the women of that state are counting on her being of great assistance to them in their fight for woman suffrage.

Tell Your Neighbor.

Yard wide sheeting 5c per yard. See Bannon's ad, page 3.

WHILE THERE'S LIFE THERE'S SOAP IN OREGON, BUT LITTLE SALE FOR IT

People are just naturally opposed to buying articles of food, wear or general use made in the locality in which they live. For instance, Detroit, Mich., is known as the pill city of this country. Millions of pills for every human ailment under the sun are manufactured in Detroit every day in the year. Hardly anyone in Detroit takes pills—if they want a tonic or medicine they buy liquids which are manufactured in other cities.

In the towns where the American Cereal company makes its Quaker Oats and various other brands of breakfast foods there is practically no sale for the brands, not even among the employes.

In Denver there are but few persons who have ever been to the summit of Pike's Peak. Thousands and thousands of citizens of Washington, D. C., have never seen congress in session, the supreme court, the inside of the White House, or been to the top of the Washington monument.

Within a few miles of Portland there is a soap factory turning out 30,000 cakes of soap every 24 hours. Not a cake of this product is sold in Portland. The factory is in Rainier, Or., and most of the product is disposed of in the east. Physicians are particularly partial to the Oregon mineral soap, which has a reputation of being one of the best on the market for antiseptic purposes.

"For some reason the Oregon people do not care for this soap which is made, you might say, right under their noses," said L. S. Thomas, one of the head men of the soap factory at the Hotel Portland this morning. Mr. and Mrs. Thomas, who are originally from Minnesota, make their headquarters in Portland.

"There is no demand for our goods here, but we have no trouble in disposing of the plant's output to the larger eastern wholesale houses. In fact it keeps us hustling to keep up with the orders.

"The mineral for this soap is mined near Rainier. We have regular customers among the physicians of New York and other eastern cities who use it themselves regularly. Still the Oregon people will not use this soap because it is mined right here almost in the midst of their homes."

Chasing Bears

through the tall timber gave our forefathers stomachs that could digest anything. The man with his nose on a desk has to "coddle" his stomach. The best "coddler" is

"FORCE"

the food that combines the life of the wheat with the soothing, invigorating tonic of barley-malt. Try it for breakfast. You will like the sweet, crisp, malty flakes.

"FORCE" is made of the best white wheat, steam-cooked, rolled into thin flakes, combined with the purest barley-malt and baked. Always "crisp" it before serving it by pouring into a pan and warming it in oven. Then serve in large dish with cream, piling the flakes in one side of the dish and pouring the cream in the other side, dipping the flakes as eaten.

Your Grocer sells it. *No other Flaked Food is "Just as Good."*

BLOODLESS PEOPLE

HUNDREDS ARE SUFFERING FROM ANAEMIA AND DON'T KNOW IT.

The Disease Approaches Stealthily, the Decline in Health Is Gradual and Unless the Tonic Treatment Is Taken May End Fatally.

Nothing in medical science is more direct and more reasonably certain than the action of Dr. Williams' Pink Pills in cases of anaemia, a disease which is literally a condition approaching bloodlessness and which if neglected, inevitably results in decline and death. Anaemia is stealthy in approaching its victim and often is well advanced before it is detected. On this account it is necessary to begin treatment as soon as the first symptoms are noted.

Mrs. Elizabeth Barnett of 505 Ashland avenue, Buffalo, N. Y., was cured by these pills. She says:

"During the spring of three years ago I began to suffer with anaemia. I was overworked and did not rest nor derive nourishment from my food. Everything I ate felt heavy in my stomach, gas formed on it and I had no appetite. My hands and feet were cold, I was troubled with dizzy spells and my lips and cheeks turned white. I had severe backaches at times and it was hard work for me to bend or stoop over to pick up anything. My sleep was restless, my head ached a great deal and I grew quite weak.

"I was sick about a year before I began to try Dr. Williams' Pink Pills. They soon helped me and I used them until cured. My appetite became hearty. I grew strong and have since been entirely well. We consider the pills the best blood-builder and tonic medicine to be had."

Dr. Williams' Pink Pills are the greatest builder of rich, new blood and they have been curing anaemia and other blood diseases for nearly a generation, during which time they have come to be recognized as an invaluable household remedy.

A valuable booklet, "Diseases of the Blood," containing fuller information about anaemia, rheumatism and other diseases of the blood, will be sent free upon request.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for $2.50, by the Dr. Williams Medicine Company, Schnectady, N. Y.

PORTLANDERS MAKE HEAVY BUY IN LANE

(Special Dispatch to The Journal.)

Junction City, Or., July 17.—Two Portland business men have invested heavily in Lane county farm land. J. R. Smith, wholesale cigar merchant, F. D. Stephensen, wholesale grocery merchant, and P. D. Gilbert, traveling salesman, were here this week and closed a deal whereby Messrs. Smith and Stephensen become owners of what is known as the John Connor farm, located four miles west of this place.

The farm consists of 1,149 acres of fine rolling land. Last year it was sold by the heirs of John Connor to Peter Murray of Elma, Wash., for $18,000. Mr. Murray sold the farm to the Portland merchants for the sum of $36,000. With the land they get 150 head of sheep, 50 head of goats, 40 head of cattle, 6 work horses, 3 wagons and all other farm machinery on the farm. It is considered one of the best farms in the Willamette valley. It is said they intend to plant quite a large acreage of apples and other fruits, also a large acreage of English walnut trees.

ONE HOUR EARLIER

For the Potter's Saturday Trip to North Beach.

The steamer Potter will leave Portland, Ash street dock, at 1 p. m. on Saturday next, July 18, and on succeeding Saturdays throughout the season, instead of 2 p. m., as originally arranged in the published schedules, thus giving passengers the benefit of the entire river trip by daylight, and landing them at the beach one hour earlier. Don't forget that baggage should reach the dock at least a half hour before departure.

A. B. Steinbach & Co.
