GIRL TOSSERS ELOPE WITH SCORE BOARD

Maybe it was gallantry but the score has gone around that it was superior playing that gave the Chicago Ladies baseball team an 8 to 4 victory over the Washabers at St. Johns yesterday.

The ladies played a clever game. Miss Oriel covered acres of ground around second. She is there with the wall, as a hit to the fence for two bags.

LOOKS EASY FOR KELLY-KETCHEL

As soon as the articles are signed, Kelly will take up his training. Kelly will have all the comforts of home and will be paraded in his native city.

GREEN DRIVERS IN THE GLIDDEN TOUR

(Hearst News by Longest Leased Wire.) Boston, Mass., July 18.—The Glidden tour is now more than half over, and out of the ten teams of three cars each which started for the Glidden trophy only four remain with clean scores.

The accident was entirely due to fast driving and in no way reflect any discredit on the car itself. The drivers, many of them fresh from the factory, with little experience in contests of this kind, seem to regard the tour as a sort of road race of the Vanderbilt cup order.

Sooner or later they meet a team or man crossing their path suddenly, and car skids and they smash a wheel or steering knuckle, and away go their chances of a clean score.

One of the surprises of the tour has been the wonderful showing of the Studebaker cars. This company has been before been represented in a contest that they have the lowest number cars in the contest they have ever had.

An article in a scientific magazine concerning the experiments of a French inventor gave him the idea. He started to construct two footboats, which would allow him to glide over the surface of the Williamson. That was the end of the matter.

DEATH DUE TO COLD WATER MARS A SWIMMING RACE

(United Press Leased Wire.) Chicago, July 18.—Death entered the first annual Chicago river Marathon race this afternoon and A. G. Frazier, 56 years of age, one of the 70 contestants, was drowned in the presence of thousands of people.

Adren others were so exhausted by their efforts in the cold water that serious effects on their health are feared. More than a score fainted after they reached the finish line, and were revived with difficulty.

The river from the mouth to the Van Buren street bridge was lined by thousands of people during the race. A thermometer dropped into the water immediately after the start registered a temperature of 43 degrees and the ice-cold water brought cramps to many of the swimmers and forced them to withdraw.

Frazier, who is a veteran swimmer, was suddenly seized with cramps and was not noticed by passing rowboats until he was sinking a third time.

Hayden had a narrow escape from drowning. When seized with cramps he had a long lead over the field, a rowboat noticed his distress and pulled him out of the water as he was sinking the second time.

Officials of the Illinois Athletic club hope to make the Marathon a big fall event. The race was established in an effort to remove the popular idea that the Chicago river is too dirty and grossy to swim in.

HART WANTS BACK INTO FIGHT GAME

Ambition Is to Show Tommy Burns Up for a Fake, He Says.

(Hearst News by Longest Leased Wire.) Louisville, Ky., July 18.—Marvin Hart came in this week from his farm at Hutchins and spent a few hours shaking hands with friends. Marvin is leading the rustic life these days and looks as well as he ever did in his life.

Hart's hands are in good shape, too, and he believes they are strong enough to permit any punch without damage. There is a ridge where the bone was fractured, but Hart thinks it will serve only to hurt the fellow it lands on.

Hart is keeping in shape and working steadily with one object in view—to climb through the ropes with Tommy Burns and take away from Foxy Tommy the title of which Hart says he was defrauded at San Francisco.

"I will fight Burns, winner take all," said Hart. "What is more, I will let him take all the money if I fall to stop him in 20 rounds, and I will fight on my own terms. I don't want any more foot races with Burns, but if he will climb into a ring and fight I will show the country just what a fake he is."

THIS IS O'CONNELL

Jack O'Connell is one of the best-known umpires on the Pacific slope and wherever he has officiated he has been well liked by the fans.

O'Connell was born in San Francisco in 1874 and as soon as he donned knickerbockers persuaded his father to buy him a baseball. O'Connell's father consented and Jack started at the game.

There is a likelihood that he will not remain in the north after today's game, but he will be in the Los Angeles crowd. Empire Perrine will come north if Jack is ordered south for the next two weeks.

SOUTHERN DRIVERS TO HAVE LONG TOUR

Four Days' Running for Automobiles Will Start August 7.

(Hearst News by Longest Leased Wire.) Los Angeles, Cal., July 18.—Arrangements for the big run of the tourist automobiles were completed today at a conference with Pilot C. H. Smith, who has returned from San Francisco on a trip of inspection of road conditions.

The start will be made August 12. The route of travel will be to San Francisco via the Valley line, and back along the coast. The average running time of the trip, according to careful calculations by Pilot Smith, should be 15 miles per hour, in order to complete the tour in four days.

The only requirement for entering the run free of charge is that the car driven must be a Tourist.

Cars will be started on a five-minute headway and distances between the machines will be maintained under penalty, thus assuring each car of a clear road. C. W. Sahland and C. H. Smith, who have repeatedly inspected and gone over every inch of the road, will pilot the tour and in addition to marking the route clearly with confetti and flags, the footpads will have a complete map of distances and a blue card. By this each driver will be enabled to judge at any time the location of the machine preceding him.
