

ADLER GOOD BOY IN FATHERLAND

Alleged Anarchist Receives Official Assurances From Austrian Government.

Adolph Adler, the supposed anarchist, who is in jail on a charge of attempting to extort \$400 from Sig Sichel, caused a lot of trouble in the county jail this morning. Since it became known that Adler was supposed to be affiliated with the anarchists he has been the object of much careful inspection. Therefore when a letter bearing a foreign postmark came to the jail addressed to him today it was opened with some trepidation. But if the foreign envelope looked had to the jailers its contents were worse. There were two typewritten pages, but written in German. Nobody around the jail has much use for German and nobody can read it, so the letter was held up. Finally a clerk was found in the tax department who was born in the fatherland. The communication was given him to read and translate. The translation was a disappointment, however. It merely stated that the president of the council in the little town near Vienna, where Adler came from, would send an official statement to Adler assuring him that he had never been suspected of anarchistic sympathies up to the time he left Austria. Adler has contended all the time that he wasn't an anarchist. When asked for an explanation of the threatening letters he wrote to Sichel and others he merely states that others forced him to write them, but will go no farther in throwing light on his act.

BOISE CASE

(Continued from Page One.)

general examination into the accounts of the estate place the shortage of Mr. Boise at approximately \$100,000," said Mr. Collins. "Giving him the benefit of the doubt however," continued Mr. Collins, "and putting aside all those sums which Mr. Boise says he made use of for the good of the estate, there is still a shortage of approximately \$140,000 in his accounts. The sums named in the five com-

plaints already filed were simply those which we had at hand and do not represent all that the estate holds against Mr. Boise. It is very probable that additional complaints will be filed to cover the other shortages discovered as the case develops until the entire \$140,000 is covered. That, however, is for the future developments of the case to determine. Although no indication has been given of the future proceedings of the case, it is believed that the court proceedings will be long drawn out and bitterly contested. Judge Pipes, the attorney for the defendant, is noted as being one of

the most strategic and hard fighting lawyers before the Oregon bar, and it is certain that he will exhaust every move known to him in fighting the battle for his client. It is believed, therefore, that the case will be full of technicalities and that every moment of the trial will be hard fought. It is anticipated that Judge Pipes will interpose a demurrer to the complaint, attacking the charges made against his client. It is also probable that the preliminary hearing may be waived and the case taken directly to the next grand jury, as is provided by the law passed by the people at the last elec-

tion. In that event there will be no public trial until after the case is sent to the circuit court by indictment, providing that a true bill is found by the grand jury on one or more of the complaints now filed against Mr. Boise. **Father of Skyscrapers.** (Special Dispatch to The Journal.) New York, July 20.—Randolph Guggenheimer, the eminent lawyer and financier and the promoter of many great industrial syndicates, received a flood of congratulations today on the occasion of his sixtieth birthday. Mr.

Guggenheimer was the pioneer in the erection of large office buildings on Broadway, having erected the New York commercial buildings on the site of the old New York hotel in the '60s. He is a native of Virginia, but has been a resident of New York since the close of the war.

The acting pallbearers were J. C. Moreland, Colonel S. R. Harrington, A. Thurlow, J. Curran, Judge C. L. Poor at the home of the deceased. The church service was largely attended by friends who gathered to pay their last respects to the able jurist and eminent citizen whose long residence in this city and whose high moral standard and warm heart had won him many life long friends.

PORTLAND GIRL IS CRUSHED TO DEATH

While Playing on the Beach Miss Maud Mallot Meets Death by Log.

(Special Dispatch to The Journal.) Hwaso, Wash., July 20.—Fifteen-year-old Maud Mallot, daughter of C. T. Mallot, 361 Williams avenue, Portland, was crushed to death by a log yesterday afternoon while playing on the sands at Long Beach. Miss Mallot and some other girl friends had dressed to go bathing in the surf, and were playing in the sand dunes near the water shortly after 3 o'clock. Several of the children were collected about a large log, which during some storm the tide had thrown up high on the beach. In some manner the log was dislodged from its bed in the loose sand and Miss Mallot was caught beneath it. It is believed she was stunned and fatally crushed the moment the log struck her, as there was no evidence of a struggle. Drink a glass of water every morning before breakfast. It's healthy.
