Heaviest Fruit Trade in Portland.

During the past few days the fruit trade of the Portland market was the heaviest in the history of the city. All factors agree that the volume of business is fully twice as heavy as a year ago, and for several days it has been shown by the fact that it is working overtime in filling the city and country orders. This is the flush of the fruit season, and the volume of business has been shown by the fact that the volume of trade now being carried on is four times as heavy as it was a year ago today all lines were steady.

Famous Cherries Have Appeared.

You have not seen some of those magnificent cherries being sent to this city from the Webb farm at Troutdale. You have not seen the wonder of the world, for this cherry has that distinction. It is fully as large as a good-sized cherry, and it is of the same variety. The Webb farm contains about 10 acres of Lambert cherries, and its product is known from coast to coast. It is the best cherry in the world, and it is the best that grows. Miss Clara Webb is the manager of the farm.

Canned Milk to Advance.

On and after July 31—From present announcements a substantial increase of Carnation canned milk will be advanced to \$4.06 a case, which is just 40c case above the liberal demand. It is likewise the exact size of the can made by the Carnation people when the Borden company tried to advance the price. It has been no announcement as yet as to the course that Borden will pursue regarding the future price. It is believed, however, that the Carnation people advanced their price for necessity, because cheese-makers and creamery men were starting to pay higher figures, and there has not as a result, been as much canned milk produced as the demand justified.

Lemons Advanced 25 Cents Case.

An advance of 25c a case is noted in the price of lemons both here and in the south. This is because of the very hot weather ruling throughout the country, causing a record-breaking demand for the sour fruit. Fancy lemons are today selling along the street as high as \$5 a case.
