

APPLY AX TO VALLEY FARMS

Great Need of Region Is Smaller Areas for Cultivation.

A campaign of education for smaller farms and more farmers in the Willamette valley was started by the Portland realty board at a meeting held yesterday afternoon at the Commercial club. Railroad officials who have been making a study of conditions attended the meeting and joined in the movement. A committee was appointed to formulate a plan of campaign.

The situation in the valley at the present time does not hold out encouragement for increased population and larger production. The farms are still held in large tracts, hundreds of acres being under single ownership and neither cleared nor tilled in reasonable proportions.

The country is imperatively in need of more active agricultural operations. The industry seems to have been held back by the contentment of those who hold the lands or by the settling of the estates of deceased pioneers, or by the owner's failure to adopt modern methods of diversified farming. The lands are rich and will produce immense crops if properly cultivated. There is but a small proportion of the lands now under continuous cultivation, and a vast acreage is still in virgin timber.

Whitney L. Boise presided at the meeting and made a short talk. He was followed by Dr. James Withycombe, director of the Oregon agricultural college experiment station, who urged the board to go on with its proposed campaign, and said any change from present conditions would be a benefit to the people of the valley.

Other men who spoke favoring the movement were: Francis H. Clark, president Spokane, Portland & Seattle railway; B. B. Miller, general freight agent Harriman lines; B. E. Josselyn, president Portland Railway, Light & Power company; G. W. Talbot, general manager Oregon Electric railway; K. L. Thompson, of the realty board; George M. Brown, president Hazelwood Cream company; C. C. Colt, purchasing agent Swift & Co.; H. A. Wheeler, Chicago.

Home From Goldfield.

George W. Bever who has recently returned from Goldfield in the interest of the Butte Boys Consolidated Mining company, has much of interest to the readers of this paper. Mr. Bever reports three shifts working from the Annex shaft and two shifts from the Ched shaft on the Butte Boys Florence leases. He says they are also working two shifts on the Night Hawk and are making wonderful progress. The Engineers lease, 100 feet from the Butte Boys lease, has taken out as high as \$60,000 in a single day and it is expected that Butte Boys will be shipping this same grade of ore in a very short time.

ST. JOHNS, THOU HAST A MIGHTY THIRST

Every evening there is a heft from St. Johns to Portland or across the ferry to Linton and Claremont. Laboring men who formerly quenched their thirst at one or more of the half dozen saloons in the days when the "wets" of St. Johns were in the ascendancy now find the nearest place to satisfy that dry feeling is at Linton, across the river. Professional men and others who do not have to work until 6 in the evening have time for a ride down to Portland and back before dinner.

A GOLDEN WEDDING

Means that man and wife have lived to a good old age and consequently have kept healthy. The best way to keep healthy is to see that your liver does its duty 24 hours every day. The only way to do this is to keep Ballard's Herbine in the house and take it whenever your liver gets inactive. 50 cents per bottle. Sold by Skidmore Drug Co.

WILSON HAS EYE ON LEAD PLACE

Linton Boy Enters Journal Contest Determined to Win Prize.

David McK. Wilson, though a young Michigan boy, is no goose; that is, he is not as silly as the proverbial goose. David is a chap of 13 and first saw the light away back in Michigan, in Manistee, a lumbering town. Some day he expects to manage or own a great big sawmill similar to his father's at Linton employing about 250 hands with a payroll of over \$500 a day.

Now indifference in a boy will not likely tend to put him at the head of a big lumber mill or in any other position of trust. This boy knows this, and he is making good use of his spare time as is evidenced in the fact that he is an enthusiastic competitor for one of the Journal's scholarships. Young Wilson is making a determined effort to head the polls in this great contest and will not let up with his canvass until the last minute in order to win a full year's tuition in the Portland academy. He has lived in Linton three years and is a son of C. G. Wilson of the Clark & Wilson Lumber company. Mr. Wilson appreciates the efforts of his boy in his praiseworthy undertaking and will encourage the youth to carry out the same traits of integrity and ambition during his life. Dave graduated from the Linton school last year. He belongs to the Methodist church, Rev. J. D. Vace pastor, and attends the Sunday school, having a large number of friends. His father belongs to the Masons and is a Knight Templar. Many friends will place their Journal subscriptions with young Wilson and will also use their influence to secure votes for him.

Honesty and ambition are synonymous of success and the young person possessed of them will succeed. Duty well done is always a source of consolation to those who do not succeed as well as it is always a cause of sorrow when we find we failed in a good purpose through apathy.

Energy Counts.

The energetic boy embraces every opportunity to better his condition. Many boys become degenerates simply through idleness and indifference. They get so careless and so lazy that they will

not exert themselves to the extent of walking across the street to earn an honest dollar and finally plan to steal and rob rather than do honest work. It is a noble character in a boy or girl to see him or her striving honorably to succeed in life, and such young people are respected in the community and should get hearty encouragement. Neither the heat nor the rain will keep ambitious boys or girls from attaining the object of their ambition. Nor will pleasure interfere much with their work when they are fully determined to succeed with any undertaking. They will strive on and on and they will have the laugh on their companions at the close of The Journal's contest. The merry ha ha of the winners will be a great chagrin to their dilatory friends and companions who would not forego a little pleasure during vacation to win a valuable scholarship and a good cash award. This contest will last about two months longer so that there is ample time for many more enterprising young people to enter and hustle for subscriptions for The Journal. This is a good time to secure subscriptions, as it is presidential year and the public wants the election news. Apart from this it is an easy matter to get Journal orders as The Journal is the people's popular paper, giving news in concise form. The women are especially interested in The Journal for it has many exclusive features for them that are foreign to all other Oregon publications and they find The Journal's funny pages keep their children in good humor from Sunday to Sunday.

Start in at once and begin a systematic canvass of the community and you will be surprised how easy a mat-

ter it is to win a scholarship. Call on the contest manager as soon as convenient and he will instruct you how to proceed.

Everybody Come.

SEEK COUNTY HELP FOR YOUTH VETERANS

A movement has been begun by Scout Young camp No. 2, Spanish-American War Veterans to secure pensions or county relief for indigent veterans of the Spanish-American war. Notice was filed in the county court this morning that a committee composed of Seneca Pouts, A. G. Salisbury, George H. McCord, George H. Dufur, Adolph Weolin and H. E. Williams had been appointed to take the matter up with the county commissioners.
