

RECORD OF QUIET MONTH IN RUSSIA

Only 12 Government Officers Assassinated in June—The Atrocity List.

(United Press Leased Wire.)
Warsaw, July 22.—An official government report issued today, covering June, shows a startling state of affairs in Russian Poland. Some of the items in the record of the month follow:
Twelve government officers assassinated.
Thirteen government officers severely wounded by would-be assassins.
Thirty-nine private individuals murdered.
Nineteen private persons badly injured in attacks resulting from political troubles.
Revolutionists secured \$170,000 by raids on official bureaus, banks and custom houses.

SCOTTY SAYS HE WAS NEVER SO WEALTHY

(United Press Leased Wire.)
San Francisco, July 22.—"I have more bullion now than I ever had," said Death Valley Scotty at the St. Francis today.
Scotty says he is preparing to go to Europe. He says he will run down his mine in Death Valley and get a few more dollars and then "beat it for the old country."
The miner still wears his blue shirt and red string tie. The bellboys at the caravansary believe he means what he says when he talks about money. They are in clover.

OH, CHERRY FAIR, HOW GLAD WE BE

The Journal staff is reveling in a box of as fine "Bing" cherries as ever grew in Oregon—the natural home of the cherry—which was contributed by E. W. Power, C. A. Park and H. S. Gila, a committee of the recent state cherry fair at Salem. The fruit is perfect in form and color, and unrivaled in flavor.

MALARIA AND WEAK HEART

The following interesting story told by Mr. J. H. Riley, pensioned fireman of South Boston, Mass., is a sample of the thousands received from grateful men and women who have been benefited by the world's great tonic stimulant.

In an interview Mr. Riley said: "I joined the fire department of South Boston in 1890 and was lately pensioned off because of a bad fall while in service, which telescoped my spine.

"A little over a year ago I was taken sick while in the engine-house, and it developed into heart trouble and malaria. I went to a number of doctors and two different hospitals and went through a course of treatment from each, but I did not receive much benefit from any of them. The doctors would not let me go in swimming, nor smoke, nor drink anything but water. I stopped both tea and coffee. My case was getting very serious when a friend said to me: 'Why don't you get a bottle of Duffy's Malt Whiskey? I know a man who was given up for all time, and he took Duffy's Malt Whiskey, and today he is as well a man as you can find.' So I commenced taking Duffy's Pure Malt Whiskey, and the result is that the doctors now say that I am all right, and I never felt better in my life. Of course, I am very little good as far as heavy work is concerned, owing to my injury, but I am well, and that is a good thing to be able to say. I thank you for the remedy that put me on my feet again."

Duffy's Pure Malt Whiskey is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a predigested liquid food in the form of a malt essence, which is the most effective tonic stimulant and invigorator known to science; softened by warmth and moisture, its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

(Dose)—One teaspoonful in each glass of drinking water during the hot weather will kill all germs.

If weak and run down, take a teaspoonful four times a day in half a glass of milk or water. It stimulates the heart action, causes the blood to course more quickly through the veins and builds new tissue.

Duffy's Pure Malt Whiskey is sold throughout the world by druggists, grocers and dealers, or shipped direct for \$1.00 per bottle.

SCIENCE WORK IS WELL DONE

A Group of Teachers Attending the Catholic Teachers' Institute This Week at the High School.

One of the most interesting addresses of the entire Catholic Teachers' Institute was given this morning by Dr. Charles Friedel who was formerly professor of physics at the University of Oregon. His talk came under the departmental work, but its prominence brought many from other departments.

Miss Helen Burke.

feature, and a number of visitors attended. He spoke of the necessity of being educated to a taste for this form of music to appreciate it, but said that children could easily be taught the love for it because it is natural music, with melody the most prominent feature. He spoke eloquently of the modern composers who sacrifice melody to har-

mony, and said that Humperdinck with whom he studied in Germany, bemoaned the art of counterpoint or weaving of melody and harmony, as almost lost in the modern composers.

Father Dominic, while enthusiastic in his love for the plain chant, is not fanatic and while he places it at the head of church music and says it is the most dignified and beautiful for religious work still does not say it is superior to all other forms. Father Ford asked him if he placed the plain chant above Palestrina's music and he said no, because the melody in the latter was so beautiful, but in answer to another question, he did place it above modern figurate music.

Talk on Primary Work.
Miss Helen Burke's talks on primary work are proving interesting and are well attended. This morning she spoke on oral reading and emphasized the importance of it for the child when he is only becoming acquainted with the language and correct pronunciation is so important. H. P. Conway spoke on arithmetic and gave the simplest methods of teaching fractions, common and decimal.

Miss Deo Whittlesey spoke on beginning work in Latin and said the principal motive for teaching Latin is to help the student understand his own language properly, so that the study of derivatives is important. She touched on the five points of teaching—securing vocabulary, learning paradigms, mastering the Latin order, interpretative construction and translation, and gave suggestions on simple methods.

This afternoon Miss Burke was the main speaker on "Fiatig." Yesterday afternoon J. H. Ackerman, state superintendent of schools, complimented the Catholic teachers highly on the grade of their work. He spoke of the relation between public and private schools and of the influence public officials may have over schools not under their control by suggesting and holding up high ideals; by working for uniformity. Miss Deo Whittlesey read a paper on "The Education of Children."

A MILLIONAIRE'S BABY

Attended by the highest priced baby specialist could not be cured of stomach or bowel trouble any quicker or surer than your baby if you give it McJee's Baby Elixir. Cures diarrhoea, dysentery and all derangements of the stomach or bowels. Price 25 cents and 50 cents. Sold by Skidmore Drug Co.

COMPILER OF OREGON CODE LONGS FOR HOME ON PORTLAND HILLS

W. Lair Hill of Berkeley, formerly a Portland newspaper man and who got up the Oregon code which was in use until replaced by those arranged by Cotton and Ballinger, is at the Cornwell hotel. Mr. Hill has been to Eugene on business and goes to Seattle this evening. From there he will go to British Columbia.

Mr. Hill was editor of the Oregonian from 1872 until 1877 when he was compelled to retire on account of ill health. He is the father of Dr. Reuben C. Hill, who was born in Portland and who is now in the emergency service in San Francisco and one of the best known physicians and surgeons in the city by the golden gate.

CITY'S LEAN-TO'S TO BE PAINTED SO STAY-LATERS CAN FIND 'EM

Portland's fire hydrants are being painted a nice, pretty white. The white is to cover a dirty-looking green that has done duty for several years. White is harder on the eyesight than green. Therefore it is more easily distinguished. When the firemen rush out in the dead of night they cannot always see green. But not so with the white hydrants. Hereafter Portland's fire hydrants will look up at night like a white star.

Now that the Portland fire hydrants are to be a bright color, too, the late stayers-out at night won't have much trouble to locate the things for temporary support.

PHYSICIAN STRICKEN BY APOPLEXY

Dr. W. E. Best of Cottage Grove Is Found Dead in His Room.

(Special Dispatch to The Journal.)
Cottage Grove, Or., July 22.—Dr. W. E. Best of this place, was found dead in his room yesterday afternoon by a patient. The examining physician, Dr. Kime, had been treating him for heart trouble for some time, and pronounced his death due to apoplexy. Mrs. Best had gone to Wildwood, 18 miles distant, for an outing and left her husband in his usual bed.

MADE OLD STOCKS AS GOOD AS NEW

(United Press Leased Wire.)
San Francisco, July 22.—Chief of Police Biggy today received word that N. R. Hopson, who was indicted here Tuesday by the grand jury on a charge of fraud in connection with the sale of alleged bogus mining certificates, is still at large in Nevada. The police of that state have been instructed to arrest the accused man and return him to this city.

Hopson was indicted on the testimony of C. L. Booth, who is under arrest here and was indicted Tuesday on the same charge. Booth alleges that he and Hopson marked out the cancellations on old stock issues and sold them again.

INCORPORATION ARTICLES

(Salem Bureau of The Journal.)
Salem, Or., July 22.—Articles of incorporation have been filed in the office of the secretary of state as follows: Red Cross Drug company; principal office, Eugene, Or.; capital stock, \$1,000; incorporators, O. J. Hull, J. M. Wells and F. W. Scott.

College Shoe Store Retiring From Business Proves to Be Center of Attraction for Shoe Buyers of Portland

Right in midsummer season, when sales are reigning throughout the city and merchandise is sold at small profits, THE COLLEGE SHOE STORE is forced to slaughter prices in order to dispose of the entire stock in the required time. We are actually going out of business, and fully realize we must make extraordinary price concessions. Our fall stock has been received—many new styles and lasts—which we have cut to absolute cost. All spring and summer goods are being sold at far less than the manufacturers' prices.

The Following List of Prices Will Convince You of Our Determination to Retire From Business

- Ladies' Shoes and Oxfords**
