## GIBBONS IS 75 YEARS OLD TODAY

Is Now on Atlantic Bound for Rome—Secret of His Great Powers.

(Special Dispatch to The Journal.) Baltimore, Md., July 23.—His eminence James Cardinal Gibbons, the only representative of North America in the Sacred College, enters upon his seventy-fifth year today.

Cardinal Gibbons is not only the primate of the Roman Catholic church in America, but one of the most eminent leaders of the church throughout the entire world. He has spent over half a century in the service of the church.

On account of his piety and worth in keeping out of controversies that have caused excitement in the church.

Cardinal Gibbons was born in Baltimore, but at a tender age his parents took him with them to Ireland, where he received his seminary education.

seventeen he began to study for the priesthood at St. Charles college. After finishing his course there he pursued his theological studies at St. Mary's seminary, and was ordained to the priesthood in 1861. In 1868 he was consecrated bishop and vicar of North Carolina and in February, 1878, he was raised to the archbishopric and on June 30, 1886, he received the red hat.

The years of his life have told lightly upon Cardinal Gibbons, and to look at him one would not imagine that he had reached his seventy-fifth year. Never what can be termed robust a frugal husbandry of his physical powers has more than atoned for what nature did not bestow. Many a man of giant stature, minus the great reserve power of the cardinal, would have succumbed to the tremendous mental strain which his high office entails. In the upbuilding of the faith he espoused, Cardinal Gibbons has worked in season and out of season. His sermons hold upon the love and affections of the people of Baltimore regardless of creed is well known.

**Experienced.**  
From the Somerville Journal. "Never mind, dear," he said reassuringly, as she raised her sweet face from his shoulder, and they both saw the white blur on his coat; "it will all brush off."

"Oh, Charlie, she burst out sobbing, hiding her face again upon his white shoulder; "how do you know?"

**A GOLDEN WEDDING**  
Means that man and wife have lived in a good old age and consequently have kept healthy. The best way to keep healthy is to see that your liver does its duty 365 days out of 365. The only way to do this is to keep Ballard's Liverline in the house and take it whenever your liver gets inactive. 50 cents a bottle.

## QUALIFYING FOR THE S. P. FINALS

Record Registration for the Primaries Where Supremacy Will Be Decided.

(United Press Leased Wire.) San Francisco, July 23.—Completed records at the registrar's office today, after the clerks had worked until daylight, show that over 54,000 voters registered to vote in the coming primary. This is far above any previous record. Over 4,000 registered yesterday.

The fight in both the Democratic and Republican parties to eradicate the Southern Pacific element from politics is responsible for the increased registration, as the August primaries will decide who will control the next state convention.

## EX-FISHWARDEN IS GIVEN GOLD WATCH

(Special Dispatch to The Journal.) Astoria, Or., July 23.—H. G. Van Dusen, ex-fish warden, was surprised yesterday when Water Bailiff Settem, in a special speech, presented him, on behalf of the community, with a gold watch.

handsome solid gold watch, with the following inscription: "Presented to H. G. Van Dusen by employees of 1907, department of Fisheries. Mr. Van Dusen thanked his donors, saying that while the gift was a costly one, he prizes it the more on account of it coming from the people he has been overcharged on a shipment of fish from Hazelwood on the Mount Scott line to Lents and on a shipment of fir cordwood from the Sunnyside spur to Spicer spur. The claim was filed with the company last February and Palmer has been unable to get any satisfaction on his claim.

An order was also made by the commission yesterday suspending the provisions of the demurrage law 30 days or until August 23 on the line of the Oregon Electric between Portland and Salem. The Oregon Electric by September 1 hopes to be fully equipped for hauling freight, but is not yet provided for handling everything that might be

LOCAL COMPLAINT BEFORE COMMISSION  
Salem, Or., July 23.—As a result of the recent hearing held at the Dalles, the Oregon Railroad & Navigation company has been ordered by the railway commission to improve its facilities for handling livestock at that point. The yards will be drained and planked so that they will be reasonably dry during the different seasons.

A hearing will be held in Portland August 7 for the purpose of investigating the complaint of O. A. Palmer brought against the Portland street railway company. Mr. Palmer says that he was overcharged on a shipment of fish from Hazelwood on the Mount Scott line to Lents and on a shipment of fir cordwood from the Sunnyside spur to Spicer spur. The claim was filed with the company last February and Palmer has been unable to get any satisfaction on his claim.

An order was also made by the commission yesterday suspending the provisions of the demurrage law 30 days or until August 23 on the line of the Oregon Electric between Portland and Salem. The Oregon Electric by September 1 hopes to be fully equipped for hauling freight, but is not yet provided for handling everything that might be

## FARMERS FACE WATER FAMINE

Crook County Men Victims of Irrigation Bubble Long Since Punctured.

(Salem Bureau of The Journal.) Salem, Or., July 23.—Conditions facing the settlers in Crook county, where private irrigation projects have been started and have failed, are not encouraging, said Attorney-General Crawford on his return to Salem after a trip of a week or 10 days into the territory for the purpose of making an investigation and gathering testimony against the Columbia Southern Irrigating company.

People from all parts of the country have been induced to settle on the large tract granted by the state to the Columbia Southern company in Crook county, by the promise that it would be adequately irrigated within a few years. No money has been put into the project except that taken from the settlers and now the company is bankrupt and the settlers are there, many of them unable to get out.

It is hoped that the state will be able to cancel its contract with the Columbia Southern company so that new settlers can go in and begin their work. It is feared that the state will be unable to do this.

and there is little hope for the settlers. The settlers themselves want water and the fight between the land board and the irrigating company interests there has been little. The company was granted 2,000 acres originally and about 100 families were induced to come in. Now, according to the attorney-general, there are about 30 families left almost destitute. The original contract was made with the Three Sisters Irrigating company and had a very little of the ground was ever irrigated. What ditches were built were very crude and the engineering poor.

The case against the Columbia Southern to revoke the contract has been brought by the state in the federal court. Attorney-General Crawford and State Engineer John H. Lewis spent three days at Laidlaw taking testimony.

**SOIL SURVEY FOR KLAMATH COUNTY**

(Special Dispatch to The Journal.) Klamath Falls, Or., July 23.—Klamath county is to have a soil survey. The agricultural department, through its bureau of soils, has assigned one field party to study and prepare maps of the soils of the Klamath valleys. The work is now going on and will continue all summer.

The soil survey was secured through the efforts of the Oregon senators and representative Hawley, as well as through the local reclamation service. The different valleys of the Klamath basin show a great diversity of soils, and the survey will aid greatly in the improvement and cultivation of the lands under the federal irrigation system, as it will not then be necessary to experiment in order to find out what crops are best adapted to the various sections.

**A Phenomenon.**  
New boys go back west, then they come back in the summer. They take a look in the summer and they come back in the winter.

## DRIVE FOR LIFE BY CHAUFFEUR

Louis Cohn Races 15 Miles With a Bullet Near His Heart.

(United Press Leased Wire.) Winnemucca, Nev., July 23.—Louis Cohn, a chauffeur, lies at the point of death today in a local hospital as the result of a bullet wound over the heart. If he lives, it will be because he drove his machine 15 miles from Dun (Nev.) yesterday afternoon, after he was shot, with the blood pouring from the wound.

While he was fixing a valve on the machine, a revolver fell from Cohn's pocket and was discharged. The bullet entered his breast just over the heart. No one else in the machine knew how to run it, and Cohn had to climb back into the seat and make the run to save his life.

He arrived here just as he fainted from loss of blood.

**A Phenomenon.**  
New boys go back west, then they come back in the summer. They take a look in the summer and they come back in the winter.
