BANDON-BY-THE-SEA'S SCENIC BEACH RAPIDLY BECOMING TOURISTS' MECCA

Massive Rocks on the Beach at Bandon, Oregon.

Bandon, Or., July 25.—Those gigantic formations bordering the coast at Bandon, Coos county, Oregon, and commonly known in that part of the state as the "Bandon Rocks," make up one of the chief attractions for visitors.

"Bandon-by-the-Sea," as this little city is well named, is located at the mouth of the Coquille river and directly on the shore of the ocean. The city is on a high bluff at the bottom of which extends for several miles a beautiful beach. The big rocks number about a dozen and stand out in the water some distance from the shore.

Many of the rocks can be reached from shore at low tide and visitors climb to the top and go through the natural caves and tunnels which the waves have formed. In high tide the surf beats through these tunnels with terrific force and the rocks form a breakwater which presents a most attractive scene.

The Bandon beach is a mecca for many tourists from different parts of the country during the summer. Some have houses overlooking the ocean and make these cottages their summer abode. The beach with its rocks and excellent bathing is probably the finest on this part of the coast.

The place is reached by boat from San Francisco or by rail and river trip from Coos Bay. With the new boat service that has been established and the additional daily train which has been put on by the railroad from Coos Bay, Bandon has become much more accessible.

Only a railroad is needed to make it one of the premier summer seaside resorts of Oregon.

WHEAT TRADE SLOW IN FRISCO MARKET

Only a Nominal Business Is Reported at Tidewater —Barley Is Lower.

(Hearst News by Longest Leased Wire.)

San Francisco, July 25.—The local wheat market was inactive today at nominally unchanged prices. None has been arriving at Port Costa lately and today's receipts at this port were only 805 centals. Shippers are not yet in a position to do business of any note, though they may have made some contracts in the country. Millers have no large requirements at this time and are buying for immediate use.

There was a lull in the barley market, but a strong tone prevailed, with relatively higher prices asked in the country. Brewing was reported to have sold as high as $1.45 per cental, the offerings of choice having been light. On Friday nearly all the offerings here were quietly picked before it dawned on the minds of sellers that there was something in the wind. Today's receipts were 3,820 centals locally and 16,500 sacks at Port Costa. December weakened and closed ¾ per cental lower.

Oats were firm with no receipts. There has been more inquiry for reds for seed.

Receipts of flour were only 843 barrels. Rolled barley was held higher and other leading feeds were firm.

Butter advanced ½c per pound for extras and firsts and the market closed steady all round.

All grades of eggs were firm, with extras and firsts 1c per dozen higher.

All descriptions of cheese were firm, except Oregon Young America, which was weak. There were no price changes.

Choice green peas and bay green corn did a little better in price. Small lots of asparagus continue to arrive, 8@10c per pound being obtained Friday for No. 1 and 5@6c for No. 2. Tomatoes, cucumbers and summer squash continued weak. Choice bell peppers have been selling quite well. Potatoes and onions were practically unchanged.

SETTLE GOLDFIELD MINE INVESTIGATIONS

(United Press Leased Wire.)

San Francisco, July 25.—It was learned here today that two big Goldfield litigations had been settled out of court at a conference held at the St. Francis hotel last night, and it is thought the stock market will be affected by the news of the ending of the legal battles. The apex controversy of the Goldfield Consolidated, which threatened the camp with war, was one of the suits settled at the conference. By this settlement the wedge claim of the Jumbo Extension Mining company passes into the hands of the Goldfield Consolidated. A half interest in the Vineragone fraction also passes into the hands of the Goldfield Consolidated. The second suit settled was the litigation that has been in the courts for three years between the MacNamara and the West End companies. The vertical line was the basis of this settlement.
