

# WORLD'S MARKETS TODAY

## WHEAT MARKET

Larger Receipts From the South and Walla Walla Bring Price Lower.

## QUESTIONS GOES AT 91 CENTS

Extraordinary Price Paid at Country Shipping Points by Many Buyers.

## ADVANCED PRICES AT THE END OF WEEK

### Front Street Features:

Cotton market on down grade. Potatoes are holding steady. Poultry is very dull. Power price named in eggs. Watermelons are to be found in Car Imperial valley "cans" in. Cabbage in still very scarce. Wheat is still much neglected. Slurry advance in syrup prices.

### Onion Market on Down Grade Again:

Another car of Walla Walla onions was reported in this morning by Front street handlers. The market is now very well supplied with both the California red and the Walla Walla golden. The trade seems quite well fixed up. The market is easier. Prices along the street are varying but little at the present time. The general quotation for both red and whites being \$1.25 per sack. Quality of the Walla Walla stock is better, but it is not up to the Oregon standard.

### Potatoes Holding Steady:

At the decline of about 10c per hundred pounds quoted by The Journal yesterday there is quite a steady tone in potatoes along the street. Local demand has at yet appeared, but receipts are not so liberal because of the press of farm work. Local demand is quite good and prices are being maintained.

### Egg Market Weaker and Lower:

With heavier arrivals and the trade unable to find an outlet for outside demand at the moment, egg prices are suffering the loss of a fraction and the market even at the lower end is being rather dull. A prominent Front street handler tells the following of the market:

There is a very large receipt—everyone seems to have lots of them. Quality at this time of the year is inferior, and with plenty of eastern and other eggs on the market, conditions are not all that one would have them. It is likely that prices will not improve for some weeks, but of course, this is all dependent on the matter of receipts.

### Poultry is Dragging Lower:

Because of the very heavy arrivals and the smaller supplies demanded by retailers with somewhat lower prices. Dragging and passing down. Extensive & Farrell says of the poultry situation today:

This has been a week of very heavy receipts in the matter of poultry. It would seem as if the shippers had at last "loosened" and the market has been stamped with hens and chickens. Prices have suffered severely and many merchants have been unable to "clean up" their goods on the market. It is my opinion that the coming week will see no improvement in the situation, and it will be well for shippers to attempt to regulate the matter of supply for by so doing conditions may be improved for all concerned. The demand for turkeys—any sort—is unimpaired, however.

### Watermelons Down to Cent a Pound:

The watermelon market is suffering somewhat from competition. Methods and prices are down. For some weeks sales are reported down to a pound for good stock, and the highest value obtainable today.

### Front Street Briefs:

Dressed meats are firm but unchanged in price. The advance of 2 to 5c a gallon is today quoted by local syrup people. There is nothing new in the hop situation. The market is being held from the market in the hope of buying lower. Hay offerings are increasing, but few sales are reported. A better movement expected after Monday.

### Grain, Flour and Hay:

Wheat—Buying price, new—Track, Portland—40c, 50c, 60c, 70c, 80c, 90c, 100c, 110c, 120c, 130c, 140c, 150c, 160c, 170c, 180c, 190c, 200c, 210c, 220c, 230c, 240c, 250c, 260c, 270c, 280c, 290c, 300c, 310c, 320c, 330c, 340c, 350c, 360c, 370c, 380c, 390c, 400c, 410c, 420c, 430c, 440c, 450c, 460c, 470c, 480c, 490c, 500c, 510c, 520c, 530c, 540c, 550c, 560c, 570c, 580c, 590c, 600c, 610c, 620c, 630c, 640c, 650c, 660c, 670c, 680c, 690c, 700c, 710c, 720c, 730c, 740c, 750c, 760c, 770c, 780c, 790c, 800c, 810c, 820c, 830c, 840c, 850c, 860c, 870c, 880c, 890c, 900c, 910c, 920c, 930c, 940c, 950c, 960c, 970c, 980c, 990c, 1000c.
