

OREGON MEN REACH CAMP

Ovation Is Accorded Them by Officers of Uncle Sam's Regulars—Escorted From Station by Band—Grind Begins Today.

(Special Dispatch to The Journal.)
Camp David S. Stanley, American Lake, Wash., Aug. 4.—Upon the arrival of the Oregon troops yesterday they were accorded an ovation by the officers of the regulars who are stationed at Vancouver barracks. Under instructions from Colonel Noble the band of the First Infantry met them at the station and escorted them to the site laid out for their quarters. This is the only detachment of troops that has been met in this manner and was the result of the neighborly feeling that exists between the men at the barracks

Putting Camp Supplies Aboard Cars at Union Depot.

Coaxing Officer's Mout into a Boxcar.

and the officers of the Third Oregon. On account of continued trouble with a heated journal on one of the cars of the first section several delays were caused along the road, despite which the train arrived shortly before 2 o'clock. The second section, in charge of Major F. S. Baker, arrived several hours later and Major Dunbar's section detrained late in the evening.

At once upon reaching camp the men were marched to the portion of the grounds assigned them and while waiting for the arrival of the baggage wagons containing their tents they were put through their initial drill. This was watched by a number of the regular officers, who remarked upon the efficiency of the Oregon men as compared with the other regiments of the national guard that had preceded them. Commencing with the first bugle call this morning, the work of the encampment was inaugurated. The entire forenoon was given over to squad and company drills.

The Oregon division was the last to arrive in camp. The national guard of Washington reached here on Monday and got its first taste of mimic warfare yesterday in doses sufficiently large that when taps sounded last night the members went to their quarters dusty and weary, welcoming the opportunity of a night's rest.

In addition to the 1,200 officers and men of the Oregon contingent there are about 2,500 regulars, one full regiment of infantry and a troop of cavalry of the Washington national guard.

The feature of today's work at American Lake was the instruction given in first aid to the injured under the direction of Captain Bosley of the regular medical staff, for the special benefit of the officers and men of the Oregon hospital corps.

To make the situation real, a number of men were placed on a field and each tagged with a specific injury. The Oregon men were then detailed to find these patients and were required to apply the aid that appeared necessary. Their work was watched by the officers of the medical staff, and criticisms and suggestions were made where required. The hospital corps of Washington and the regulars witnessed the work.

Shortly after sick call this morning Private Campbell, Company L, Pendleton, was removed to the general field hospital to be treated for acute rheumatism. To date this is the only case

of sickness among the Oregon men. Under command of Lieutenant Beck of the signal corps, the first wireless station was erected in front of brigade headquarters today. Tomorrow another station will be placed several miles away and practice will commence.

Adjutant General Finzer arrived in camp late yesterday afternoon, and accompanied by his staff watched the drill of the Third and Fourth Infantry today. He will remain in camp during the greater portion of the 10 days. Governor Chamberlain and staff are expected to arrive Friday.

UNCLE SAM'S BILL FOR FEEDING MEN AT CAMP STANLEY

Camp David S. Stanley, Aug. 4.—Uncle Sam will spend about \$1,200 every day this month feeding 2,548 regulars and 3,000 national guardsmen assembled here to play at war and learn the practical things of the soldier's life. Every man will be given the same ration he enjoys when at home in his own barracks, and not more than 20 cents a day, which will add in the neighborhood of \$10,000 to the cost of food for this encampment.

Even more important than the six-play war problems to be solved is the problem of subsistence. For months the quartermaster and the commissary of the department of the Columbia had the solution under way, but only with the first issuance of stores and subsistence supplies Friday did the master hand guiding it all come into evidence.

There are in the neighborhood of 70,000 acres here at American Lake, and maneuvering, but two small fenced-in areas within the shadow of Murray station are the keystones. For within these two areas—potatoes and onions, in extent—are the storehouses.

Night and day armed sentries patrol the quartermaster's and commissary's domains, and nothing leaves either of them unless carefully noted in the departmental red tape. There is plenty for all, but not one ounce to waste.

Loaves of Bread.
The staff of life comes first on the program of subsistence. Stored in the commissary's department are 112,500 pounds of flour milled on Puget sound and to be converted in the camp's eight-teen "flash" ovens into 5,000 rations of bread daily. Ten thousand bread loaves have already been drawn and baking in earnest begins tomorrow morning. Second on the provender list are 187,000 pounds of potatoes and onions, \$17,500 pounds of beef. The ration requirements allow 70 per cent of the meat ration in fresh beef and balance in smoked and canned meats, so that the proportion is 132,500 and 55,000 pounds, respectively. The fresh meat will come to the camp by railroads at various times during the maneuvers, the first car having been received Friday. The total amount of bread, potatoes and onions is somewhat indeterminate, but is being shipped in carload lots at regular intervals. With the arrival of the Washington national guard today, the requisitions on the commissary were practically doubled.

Nothing is done on a small scale at this camp and especially at the commissary and quartermaster's department. Almost every staple purchasable in a grocery store cannot be there and in quantities such as beans, 10,000 pounds; sugar, 27,000 pounds; coffee, 8,400 pounds; salt, 5,500 pounds; prunes, 1,000 pounds; rice, 3,300 pounds; apples, 3,000 pounds; evaporated peaches, 5,000 pounds; tomatoes, 7,500 cans; soap, 4,800 pounds; candles, 4,000 pounds; safety matches, 14,400 boxes. There are 119 different kinds of staples in the stores.

Feed for Thousand.
Less extensive in variety, but much greater in amount is the forage to be issued by the quartermaster's department. Just now there are about 1,000 animals here, but this number will vary during the encampment and the exact amount of forage needed cannot be estimated at present. Leading the forage list, however, are 360,000 pounds of hay, 125,000 pounds of oats, 100,000 pounds of straw and 30,000 pounds of bran. All camp supplies other than subsistence come from the quartermaster, and in addition to the vast amount of general stores there are 500 cords of wood, 200 barrels of crude oil and 100 barrels of lime.

It is estimated that about \$250,000 will be spent by the government with Tacoma commission merchant and supply men for supplies during this encampment.

THOUSANDS OF \$\$ FOR STATE FAIR

Grounds at Salem Are Being Prepared—Attractive Purposes Will Be Offered.

(Salem Bureau of The Journal.)
Salem, Or., Aug. 4.—For the state fair in 1907 the Southern Pacific railroad handled 215 carloads of stock and exhibits. This year, while the fair is more than six weeks away, 119 cars have been ordered for hauling exhibits and stock. Many favorable conditions are working together harmoniously for a great fair at Salem next month. Several thousand dollars have been expended in enlarging the permanent exhibit building. The grandstand has been enlarged so that it will accommodate a half more people. Men have been at work on the grounds for some weeks preparing them for the fair. The shrubbery and grass is being cared for and skeletons for decoration purposes are being erected. All preparations are starting early.

A feature that will greatly assist to make the state fair this year of more worth and value will be the cooperation of the Perennial County club, which is offering attractive purses for the livestock exhibitions and races.

NATURE AND A WOMAN'S WORK

LYDIA E. PINKHAM

Nature and a woman's work combined have produced the grandest remedy for woman's ills that the world has ever known.

In the good old-fashioned days of our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering.

The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffle the most skilled physicians who have spent years in the study of drugs.

From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their peculiar ills, more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for woman's ills.

Mrs. Bertha Muff, of 516 N.C. St., Louisiana, Mo., writes:

"Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my troubles public.

"For twelve years I had been suffering with the worst forms of female ills. During that time I had eleven different physicians without help. No tongue can tell what I suffered, and at times I could hardly walk. About two years ago I wrote Mrs. Pinkham for advice. I followed it, and can truly say that Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice restored health and strength. It is worth mountains of gold to suffering women."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Muff, it will do for other suffering women.

LYNN COUNTY BANDIT CAUGHT

Mike Nicolitch, One of Team Which Robbed Greeks, Makes Confession.

(Salem Bureau of The Journal.)
Salem, Or., Aug. 4.—Mike Nicolitch, one of the Austrians implicated in the recent outbreak at Sweet Home in Linn county when a camp of Greeks was held up and the occupants were relieved of all their valuables, was arrested on the train at Salem by Sheriff Minto, Sunday. After Nicolitch had avoided the Linn county posse he worked his way to the main line of the Southern Pacific, pilfering hints along the way.

Sunday evening Sheriff Minto was informed over the telephone that a foreigner had robbed a tent and taken from it a watch and \$40 in coin belonging to H. C. Harsauk and that the man had taken the north-bound train at Turner. The sheriff caught the train and found the wanted man in a brief description received over the phone.

Yesterday Nicolitch confessed to having been in the disturbance at Sweet Home. He said he had lost his partner and showed two bullet scratches where shots from the guns of the Linn county posse had hit him. He said he had been in a running fight with the sheriff's posse, in which they fired 100 shots at him and he returned about 15.

COUNTY TEACHERS MEET IN NOVEMBER

(Special Dispatch to The Journal.)
La Grande, Or., Aug. 4. The Union county teachers institute will be held some time in November at Baker City, jointly with the Baker county institute. This institute will be held in connection with the eastern trip of the teachers' association meeting. There will be a large gathering of teachers at Baker from all parts of eastern Oregon.

WALLA WALLA BOYS START FOR CAMP

(Special Dispatch to The Journal.)
Walla Walla, Wash., Aug. 4.—Under the care of six leaders, 27 boys started this morning from the Y. M. C. A. building for the first annual camping trip the junior department of the association has ever had. They are to be gone 10 days in the Blue mountains, 20 miles from here. Physical instructor B. Appleton is the camp in charge, assisted by Hugh A. Martin, the boys' secretary.

DON'T RUB AND SCRATCH CURE THE SUMMER ITCHES

All Forms of Itch Caused by Warm Weather and Perspiration Can Quickly Be Cured.

Mosquito bites—nettle rash—prickly heat—bites and all forms of itch can be instantly relieved and quickly cured by a simple liquid known as "The Itch Cure." It is a simple liquid containing other purely vegetable compounds. If you are troubled with prickly heat, hives, rash or any form of itch, simply rub this liquid and instantly the itch is gone and you feel soothed, calmed and relieved. Mosquito bites, summer rashes, poison ivy and the like will no longer trouble; in fact, the second and third applications will begin to allay the eruption.

This liquid is known as D. D. D. prescription. It is the standard relief, his own remedy and we positively vouch for its effectiveness in all summer rashes, mosquito bites, poison ivy, etc. For sale by Woodard, Clarke & Co.

A. B. Steinbach & Co.

Prepared in two colors—PINK and WHITE. Sample of either color free, or buy a large bottle for 75 cents at your druggist.

LYON MANUFACTURING CO., 44 South Fifth St., BROOKLYN, N.Y.

FIVE VICTIMS OF AN AUTO WRECK

(United Press Leased Wire.)
San Mateo, Cal., Aug. 4.—Miss Ethel McCormick, who escaped miraculously from the automobile accident in which her mother and four other members of her family perished yesterday afternoon at Burlingame, and Miss Emma McCauley, her friend from San Francisco, who is also a survivor, are both reported resting easy today.

Miss McCormick sustained only a sprained ankle, but she is prostrated and is under the care of a physician at her home.

Both Miss McCauley's arms were fractured when the machine plunged over the embankment, but at the Red Cross Guild hospital, where she is being attended, it was stated today that her recovery is assured.

Joint funeral services will be held tomorrow morning over the bodies of all five victims.

The five victims were: Mrs. T. A. McCormick, Miss Clara McCormick, her daughter; Mrs. Ira O'Brien, a married daughter; Robert O'Brien and Mrs. O'Brien Jr., sons of the latter. Mrs. McCormick, her daughter Clara

and her infant grandson, Robert O'Brien, were instantly killed.

The accident occurred on a steep grade. The brakes failed. Ethel McCormick was driving. With marvelous presence of mind she used every means for checking speed, but a stone in the road threw the machine into a line that made a catastrophe inevitable. It collided with a tree with terrific force.

Mrs. McCormick was the wife of Thomas A. McCormick, president of the McCormick Iron works in this city. Ira O'Brien, husband of Mrs. O'Brien, is proprietor of the Keystone Manufacturing works in San Mateo. Both families are prominent in society circles of San Mateo and San Francisco.

Saturday afternoon Mrs. Frederick Marriott, wife of a well known San Francisco publisher, and James D. Gilbert lost their lives in a similar accident near Los Gatos and three others were injured.

Mother (crossly)—Tommy, haven't I told you you must not talk when I am talking? Tommy—But mamma, you won't let me stay up after you go to bed—Sketch.

She Likes Good Things.
Mrs. Chas. E. Smith of Wood County, Mo., says she has used the Pinkham Pills as her family doctor because they are good and she can get without making a fuss about it. Mrs. Smith's husband and three other children are prominent in society circles of San Mateo and San Francisco.

A Cooling Drink

One of the most delicious, wholesome, and of late years, highly popular summer beverages is

ICED POSTUM

boil according to directions on the package. Cool it with cracked ice, add sugar, cream, a "suspicion" of lemon and a "whisper" of nutmeg, perhaps—or simply sugar and lemon juice if you prefer it clear. There's

No Prohibition

movement against Postum in any State because it is made from clean, hard wheat skillfully roasted, contains no coffee, alcohol or other injurious substance. It is

Good for all Classes--Old and Young

When boiled properly, all the nutritious elements in the wheat are brought out, including the phosphate of potash, grown in the grain for rebuilding brain and nerve cells.

"There's a Reason" for POSTUM
