

MISCHE FILES PLAN FOR COLUMBIA PARK

Proposed Plan of Improvement of Columbia Park Submitted to Park Board This Morning.

When the park board met this morning Parkkeeper Mische submitted a plan for beautifying Columbia park and the board decided to set a day for a special meeting when the matter will be taken up for discussion. The plan submitted by the parkkeeper is on the same general lines in vogue in parks in other cities in that it provides a large vacant area for playgrounds and at the same time reserves the natural beauty of the park for walks and resting spots.

All the trees will be arranged in a manner that will preserve the symmetry of the grounds and provide shady

resting spots for the habitues of the park. Some of the trees are now located on the vacant area but in order to carry out the scheme they will be removed to adjoin the music court and pathways.

The park comprises about 30 acres and the board this morning voted to ask the council to purchase a strip about 50 feet wide and 750 feet long adjoining the park grounds from F. I. McKenna.

Included in the park will be swings, lawns for children, ball grounds, tennis courts, a music court and promenade besides pathways and benches. Once the board takes action in approving the plan, working plans and specifications will be drawn up and then the board will ask the council for the money for the park. While this red tape procedure takes time, Parkkeeper Mische hopes to be able to have the plans approved and favorable action taken by the council in January when the yearly estimates are made.

Mische stated that in other cities where he has worked that when he had drafted a plan for a park it was considered by the president of the board and himself. They either adopted the plan or rejected it within half an hour's conference. Mische was considerably surprised when he found out that it would take a special meeting of the board to decide whether the plan is a good one or not.

When the park board met this morning Parkkeeper Mische submitted a plan for beautifying Columbia park and the board decided to set a day for a special meeting when the matter will be taken up for discussion. The plan submitted by the parkkeeper is on the same general lines in vogue in parks in other cities in that it provides a large vacant area for playgrounds and at the same time reserves the natural beauty of the park for walks and resting spots.

BRYAN TO SPEAK WITH GOMPERS

Chairman Mack Announces This a Possibility of Labor Day.

(United Press Leased Wire.) Chicago, Aug. 7.—Following a conference with Bryan over the long-distance telephone, Chairman Norman E. Mack of the national Democratic committee today said he was arranging the plans for the Labor day celebration in this city. Mack said it was probable that Samuel Gompers, president of the American Federation of Labor, and Bryan will speak from the same platform.

FRACTURES SKULL WHILE THRESHING

(Special Dispatch to The Journal.) Pendleton, Or., Aug. 7.—The first harvest accident of any consequence to happen in Umatilla county this season occurred at Myrick station north of here last evening when William Ruthers, a separator-tender, sustained a fractured skull while under a threshing machine adjusting the machinery. His head was caught between two wheels and was cut and bruised fearfully. The skull was fractured at the back of the head. He was brought to St. Anthony's hospital in this city.

"JUICE" ON THE ESPEE LINE

Reports Current That Forest Grove Branch Will Be Electrified.

(Special Dispatch to The Journal.) Forest Grove, Or., Aug. 7.—It seems probable that there will be three electric railroads entering the town before another year.

The Oregon Electric is grading within the city limits and if work is not held up will have cars running by November 1.

A party of surveyors have been making a survey into Forest Grove, coming in from a northeasterly direction, and it is thought they are working for the United Railways.

The third line that is to enter the city is the Southern Pacific. It is reported that it is the intention of that company to electrify its roads from Portland and far as this city, and that a deal is pending for the Southern Pacific to take over the holdings of the Forest Grove Transportation company running from the Southern Pacific depot up town.

FLAMES EAT TIMBER NEAR MAGONE LAKE

Canyon City, Or., Aug. 7.—A forest fire is burning in the vicinity of Magone lake, and forest guards and owners of the timber are making a hard fight.

The Brewer-Knapp company owns a large amount of timber land in that locality. Wednesday morning its local agent, F. S. Johnson, left for the scene of the fire with a number of men, who will also assist in fighting the flames.

Wants Magazines for Sailors. Rev. A. E. Bernays, chaplain of the Seaman's Institute Front and Flinders streets, wants magazines and other periodicals in English, French, German and Scandinavian. A large number were contributed last year and were placed on board outgoing vessels for the use of the sailors. Mr. Bernays wishes to continue the service and will be pleased to accept any donations that may be offered.

Lovers may quarrel, but Post Toasties and cream make things right. "The Taste Lingers" Popular pkg. 10c; Large Family size 15c. Made by Postum Cereal Company, Ltd., Battle Creek, Mich.

SHOP FOREMEN WALKING OUT

Refuse to Work With Jap Strikebreakers on C. P.—Men May Quit Keys.

(United Press Leased Wire.) Winnipeg, Man., Aug. 7.—The strike situation is more serious this afternoon than at any time since the Canadian Pacific machinists went out. Fifteen shop foremen walked out today, refusing to work with Japanese strikebreakers. It is reported that the telegraphers employed by the company are on the point of striking in sympathy.

Grain dealers expressed the greatest anxiety this afternoon regarding the movement of grain, and there is a great fear that heavy loss will be sustained.

Vancouver, B. C., Aug. 7.—There are no new developments in the Canadian Pacific mechanics' strike locally. The men held a meeting behind closed doors this morning. The local Japanese employment firms are engaging orientals for use on the prairie sections. The men are laborers and will probably take the place of the skilled mechanics who were taken from among the section hands to work in the shops.

At Kenora last night the whistle of a locomotive was opened in the engineer's absence and the engine went through a turntable and was wrecked.

Reports from Winnipeg say that ten strikebreakers have been brought in from Chicago.

The men are confident and declare the whole line will be disabled by Saturday.

SUMMER NORMAL DRAWS TEACHERS

Albany College Institute Is Proving Popular—Good Attendance for Coming Year.

(Special Dispatch to The Journal.) Brownsville, Or., Aug. 7.—Many teachers, lecturers and ministers from this section are taking advantage of the summer normal school conducted by the Albany college. The attendance is very large. Hereafter this will probably be one of the drawing cards for Albany college.

Teachers are in attendance from Marion, Lane, Benton, Lincoln, Linn and other nearby counties. Lane county especially is proving its loyalty toward the church college by a good attendance.

For the summer school the college has secured the services of some of the best educators in the United States.

The attendance during the coming college year will probably be as large as that of the Willamette and the State universities. The college has not been extensively advertised and but a few people know what a large attendance it has.

The Day Off. From the Malheur Evening News. The Stoneham Enterprise did not publish one evening last week as Editor Lewis and family went on their annual business trip to Salem, Illinois.

HOOD RIVER TO BE WELL REPRESENTED

Fifty Delegates Coming to Portland to Attend the Good Roads Convention August 11.

(Special Dispatch to The Journal.) Hood River, Or., Aug. 7.—Hood River will send a large and enthusiastic delegation to the good roads convention to be held in Portland August 11. Twenty-five prominent residents of the city will represent the Commercial club and an equal number have been selected to represent Hood River county. All have signified their intention of attending.

The good roads question is receiving a great deal of attention at Hood River at present owing to the fact that a concerted movement is being made to secure better roads for the new county. The matter has been taken up by the county commissioners, the local commercial club and an automobile club recently organized, and the delegates will attend with the idea of getting additional information in regard to securing the best permanent results.

OLD ACADEMY WILL SOON BE VACATED

Sisters of St. Mary's, Jacksonville, Are Preparing to Move to New School at Medford.

(Special Dispatch to The Journal.) Jacksonville, Or., Aug. 7.—St. Mary's academy, which was established in Jacksonville in the early fifties and which has for years been an important feature of this historic old town, will soon be a thing of the past.

The Sisters, who are in charge of the institution, are now making preparations to move to Medford, where their new academy is nearing completion and where they will open school in September.

MAY UTILIZE TRUCKEE RIVER

(Continued From Page One.) is pointed out by engineers that the power developed there cannot be sold in San Francisco as the cost of maintaining the line to this section would be too heavy.

This power is not needed in the excess of the region, which are already amply supplied, is admitted.

Several parties have been busy for some time laying out lines on the project. The company doing the work is known as the Water & Power company of California.

TEA is the drink, if you make it right; good tea, of course. And it costs a third of a cent a cup. Your grocer returns your money if you don't like Schilling's Best; we pay him.
