New Fall Suits--Hats Are Here

Hundreds of New Fall Suits are now being shown in our Suit Section at all prices. Just arrived from New York in all their novelty and freshness. Two important features this season—the Directoire effect and the exquisite new colors. We show exclusive shades in the new catawba, smoke, olive, amethyst, wisteria, electric, sage and grass. The accompanying illustration, while an extreme novelty, shows the features of the modified Directoire style. With the revival of the modes of the Directoire period, there will be many innovations in the way of long draped sashes, broad revers, long close-fitting sleeves, high turnover collars, etc. All of these will be worn this fall, and if you wish to see just how they are going to look, our Suit Section will interest. The new Neckwear Novelties are also shown in scores of styles.
