# The Scientific Treatment of Weakness

Dosing the system with powerful stimulants and tonics in an effort Dosing the system with powerful stimulants and tonics in an effort to restore functional vigor can have but one final result: The condition is rendered worse than before. "Weakness" is morely an indication of a low form of inflammation in the prostate gland, and this inflammation is but aggravated by stimulating remedies that excite temporary activ-ity. I employ the only scientific and fully effective treatment for "weak-ness," which effects a permanent cure by restoring the prostate gland to a sound and healthy state. I obtain complete results in every case I treat. Those in any trouble suffering from SPER-MATORRHOEA, LOSSES AND DRAINS, VARI-COCELE, HYDROCELE, BLOOD FOISON OR any other disease tending to destroy and disfig-ure and to render happiness impossible are urged to call upon me without delay.

fending side. May Decline Fenalties. In regard to all penalties for forls it has been determined that they may be declined by the offended side, ex-cept penalties under the forward pass. This, however, in case where the dis-qualification does not save the playar from being put out of the game. Instead of having 10-minute intermis-sion between halves, it has been de-termined to extend the time to 15 min-utes. The teams are to be notified three minutes before the expiration of the time. If one of the elevens does not appear on the field five minutes afterward, the ball wil be put in play as first down by the ofended side on the ofending side's 30-yard line. Another change is that if a ball on a forward pass or a kicked ball, except try at goal, strike the uprights or crass bars, the ball accidentally striking an official, the play shall be gone through again.
