20c and 15c Linen Envelopes, various styles, all sizes.

## FORESTERS PLAN ROYAL FIGHT CONCRETE CLAUDIANOS SAYS CATCHES GOLD FISH FOR HIS OWN TABLE OUT OF HIS OWN FISH PONDS RINGLEADER OF SMUGGLERS

### WELCOME TO THEIR CHIEF AND WOODY PIPE IT IS BLACKMAIL

All is in readiness for the grand parade of the Foresters tonight who will march to the Armory to listen to an address by John J. O'Grady, supreme chief rafter of the Foresters of America, to which the public is invited. Mr. O'Grady arrived in Portland last night from Salem and was taken to the Oregon hotel, where he found Mrs. O'Grady and their children, Dorothea and John J. O'Grady, Jr., who had come from Salem earlier in the day.

It is estimated that fully 2,000 Foresters will be in line tonight. They will form at Seventh and Morrison streets at 8 o'clock in three divisions, with a platoon of police at their head. No. 2 Frank court, Rose City No. 83, will act as grand marshal and will have as his aides C. W. Helmer, Scandia No. 8, J. T. Richards, Mount Hood No. 1, and John Morzando, Concordia No. 63.

Immediately behind the grand marshal and his aides will be carriages containing Mr. O'Grady and the officers of the grand courts of Oregon and Washington. The parade will march east on Morrison to Third, north on Third to Washington, west on Washington to Seventh, south on Seventh to Morrison, west on Morrison to Tenth, north on Tenth to the Grand Court of Oregon. The divisions will be the following courts:

**Mount Hood No. 1, Columbia No. 2, Multnomah No. 3, Webfoot No. 4 and Germania No. 5.**

**Second Division.**

The second division will be composed of Foresters from courts outside of Portland, as follows: Roblin Hood No. 8, Oregon City, St. John's No. 75, Vancouver No. 63, Astoria, No. 8, Rainier, No. 56, Boring, No. 65, Maud Marilan, No. 4, La Grande, Douglas, No. 32, Roseburg, Sherwood forest, No. 19, Salem, Bohemia, No. 33, Cottage Grove, Coos Bay, No. 14, Del Norte, No. 40, Albany and Hood River, No. 42.

The third division will be composed of Foresters from the following courts: Rose City, No. 63, and Beaver, No. 54.

Three bands have been engaged for the parade and it will be one of the largest ever given by a fraternal order in Portland.

After a brief rest at the Oregon last night, Mr. O'Grady was taken to the Tenth to the Marquim building, where he met members of the order. He immediately went his way into the headquarters of the Foresters, where he assembled in large numbers to meet their chief. In addition to being supreme chief rafter of the Foresters, Mr. O'Grady is a state senator from the Thirty-second assembly district of New York and was a delegate to the Democratic national convention at Denver last month. He is a lawyer of New York City and one of the best-known men of his state. In speaking of his western trip he said:

"I am out here to meet the Foresters. The order is so much stronger in the east than in the west that I came out to find out the cause of it. I was afraid that there was not the right amount of enthusiasm, but when I traveled through California I found they had all the enthusiasm necessary. Now I am trying to direct that enthusiasm along lines that will bring the greatest results."

"Wherever I have been the members have treated me royally and have shown an interest in the work that I little suspected. All they need is a better understanding of the working principles of the organization and they will soon have the east hustling to keep up with them."

"This great western spirit that I have found has been a wonderful revelation to me. There is nothing in the east like it and of course this being my first trip to the coast I cannot help speaking about it."

**Big Excursion Planned.**

"Taken all in all my trip has been very satisfactory and I am pleased with the results. In California I have met a class of 500 Foresters was initiated and all along my route similar conditions have prevailed. I am confident that the Pacific jurisdiction will take leading rank with the other jurisdictions in a short time."

Foresters kept open house today in their hall in the Marquim building, where refreshments and luncheon were served all day to callers who cared for them. Arrangements have been made for a moonlight excursion Friday night up the Columbia and two steamers and a dancing barge will be chartered for the affair. A barge will also be given in O'Grady's honor before he leaves the city.

It is expected that more than 4,000 Foresters will be in Portland tomorrow to attend the class initiation of 200. They will come from all parts of Oregon and Washington. The members from Salem will arrive in a special car. The executive council of the grand court of Oregon is in charge of the convention arranged by honor of Mr. O'Grady and is assisted by officers of the grand court of Washington. The Oregon council is composed of the following: Deputy supreme chief rafter, C. E. Leitze of Portland; grand chief rafter, H. B. Egan of Salem; grand sub-chief rafter, G. Freeman of Oregon City; grand treasurer, John Ecklund, Portland; grand secretary, A. H. Daltry of Portland; grand recording secretary, Ed Wright, La Grande. The grand trustees are: F. H. Peterson, chairman, W. Snyder and N. Costanzo, all of Portland.

### Trades Council Declares Both Materials Impracticable for New Pipe Line.

The iron workers of Portland do not take at all kindly to the suggestion that has been made that the new pipe line provided by the referendum vote at the recent election to bring the Mount Hood waters into the city be constructed of wooden staves or concrete. It is, however, the business end of the Iron Trades Council, announces its intention of fighting any such action and says that as well appear before every push club in the city and advance his arguments why the pipe line should be constructed of riveted steel instead of wood staves or concrete.

"The present pipe line," Mr. Kelly says, "has been a success except for a few places affected by electrolysis where the line is crossed by electric streetcar tracks. I have investigated the concrete pipe and find it is absolutely impracticable for any such distance as will be required in this case. To have proper structural strength a wooden pipe line would have to be secured with metallic bands. It would be impossible to insulate these bands properly as the pressure in the pipe would destroy the insulation. Besides that, the varying pressure in the pipe, due to opening gates, fires in the city, etc., would cause a constant vibration in the pipe, which would also have a tendency to destroy the insulation or a careless workman might drop a boulder on the line and break the insulation that way."

"A steel pipe line would be fully as much affected by electrolysis as would steel pipes. In Colorado, where wooden pipe were largely used for irrigation purposes, they are considerably bothered by the breaking of the bands, due to excess pressure. An accident of that kind would cost the city thousands of dollars besides shutting off the water supply for an uncomfortably long time. A concrete pipe is practically impossible on account of the fact that the line would be liable to run through districts which in the city are congested. If it were ever necessary to blast or use explosives in any way in such districts the shock would break the pipe. Even the variation of heat, streetcars would crack the concrete, which is very fragile, no matter how thick and make it practically impossible of repair."

"A steel pipe line, on the other hand, is practically indestructible. It is not affected by vibrations, seismic disturbances or any other cause. With proper inspection and care it will last a lifetime."

"I am going to use these arguments before all the push clubs in the city if any attempts are made to build a wooden stave or concrete line and will fight it to the end."

**SELINA BARR ESTATE IS TO BE PROBATED**

Judge Webster in the county court this morning granted letters to S. M. Barr on the estate of his late wife, Selina Barr. Although she died in September, 1906, the estate has never been probated. The property is valued at \$25,000, all in real estate. The heirs are S. M. Barr, the husband, Elsie B. Barr, daughter, and Henry W. Barr and George E. Barr, sons. W. A. Shupe, J. P. Menefee and H. W. Fries have been named to appraise the property. The property is situated on Woodland and E. M. Miller has appraised the estate of Dorothy Elizabeth Collins and George Ainsie Collins, heirs of the late Wm. Miller, at \$10,000. The bulk of the estate consists of the west half of lots 3 and 4 in block 66 of Holladay's addition, valued at \$11,000.

The fellows who were born tired are those who are apt to get punctured.

**COFFEE**

Coffee is nothing; good coffee, that's the thing!

Your grocer returns your money if you don't like Schilling's Best; we pay him.

### Peter Declares He Is Victim of His Brother John's Spite.

(United Press Leased Wire.)

Chicago, Aug. 11.—John involved me in this case through revenge because I would not send him money when he demanded it. I am not afraid to go back to San Francisco and face the charges against me. It is a case of revenge and blackmail by my brother, who wanted to get me into trouble and get away with it. I have declared Peter Claudianos, the San Francisco brother, under arrest here on the charge of complicity in the Gallaicher dynamiting outrage at Oakland, Cal.

He was calm and the detectives were able to get little from him by vigorous application of the "thirty-third degree." He said he left California as soon as he heard he was charged with connection with the explosion. He would go back with him, if he were caught, because he would not be able to pay "the lawyers."

He especially said his brother, John Claudianos, now in jail at San Francisco, involved him in the case through the use of a false statement.

"It was through a letter that John wrote to me in a money belt. This letter was caught. Then the search for me was begun. Reporters forced John to confess."

"The money he implicated me was because he could not get any money out of me. I left San Francisco just after the explosion. I had a letter from John to Reno, Nevada, and opened up a restaurant. I was in Reno in a gambler's good deal. John wrote me there something of this sort:

"You are a good man. I am in desperate need of money. You had better pony up or you will find your name mixed up in this affair."

"Then Peter ran away."

"When the letter arrived, I had left Reno. The letter was sent back to San Francisco and I was told that the newspaper reporters, who followed me to Reno, caused my arrest."

"Peter stated that since he had read John's confession in the newspaper, he determined to return to San Francisco, but got frightened on account of the difficulty of proving his innocence."

"I had to turn my way, but I got across the country pretty fast and I was arrested on my way here. From St. Louis I hurried my way to Chicago. In the meantime the authorities got wind of me and they traced me here and I was arrested. John charged that he was hired by Peter to dynamite the home of ex-Superior James L. Gallaicher in Oakland."

San Francisco, Aug. 11.—The crime in which Peter Claudianos is implicated by being involved was detailed by his brother, John, in a confession following his arrest here. John charged that he was hired by Peter to dynamite the home of ex-Superior James L. Gallaicher in Oakland.

### WIFE ASKS COURT TO DIVIDE \$700 STRAPPED ABOUT HUSBAND'S WAIST

Mr. Ollie Stephens wants her husband, William M. Stephens, ordered into the circuit court to divide up \$700 that he is in the custom of carrying strapped around him in a money belt. This is an incident to her suit for divorce, also filed in the circuit court, the \$700 being the joint savings of the couple since they were married in Buffalo, Wyo., in October, 1906.

Mrs. Stephens in her complaint says she fears that Stephens will deplete his savings as soon as he learns of the suit and for this reason she asks the court to order the sheriff to march him into court with the money. She wants \$350 which she claims as her share, deposited with the clerk of the court. She also asks for an order restraining her husband from interfering with her pending the trial of the case.

Mrs. Stephens alleges that her husband beat her while they were living at 17th and Bond and Bandon, Or. last year. She charges that once he discolored the flesh and dislocated her thumb by striking her with his fist. She says he has an unmanageable temper and also charges unfaithfulness, naming Daisy Campbell and Mrs. Frank Eckert, both of Helena, Mont., as co-spendons.

him to his room. This angered Craig, who then threatened him with the revolver he had already drawn. Corneille got out of sight in a hurry, and Winkler, an ironworker, appeared in the hallway. The fire fighter rushed toward the roomer and fired at him, but the bullet went wide.

"I was insane by this time, Craig put his pistol to his own forehead and fired. Death took place almost at once."

Deputy Coroner Dunning visited the Baumann hotel this morning and questioned the witnesses of the tragedy. Craig, who was 32 years old, had only one relative in this country, an uncle known as Uncle in Aberdeen, Wash., his parents living in Scotland. He worked in the shipping department of the Mitchell, Lewis & Staver Co.

**Not Becoming.**

From the St. Louis Post-Dispatch.

Mr. Taft seems to think it will not be easy for him to be as good a president as Mr. Roosevelt has been, but he will try. His humility is not becoming.

### SENATOR ANKENY SAYS HELLO TO BOYS IN VANCOUVER BANK

United States Senator Levi Ankeny who has been in Portland since Saturday leaves tomorrow morning, accompanied by Mrs. Ankeny, for the sound country. Mr. Ankeny spent today in Vancouver, Wash., having gone over this morning.

"Yes, I'm going over to Vancouver," the senator said this morning. "To look after some of my business interests. I'm interested in a Vancouver bank, merely being a figurehead. I want to look in a while and say hello to the boys and see how things generally are going along."

The interest that Mr. Ankeny has in the Vancouver bank is that of president.

being shown as the stellar attraction in the Senor Don Carlos Trained Animal circus. The whole show is good but the work of Professor Kidd is marvelous. He created a sensation at his initial appearance Saturday afternoon.

**Grand's Good Show.**

This week Sullivan & Conditine are giving another good vaudeville show to the Grand. The present bill includes Manuel Roman and the Foley boys, three people who are recognized everywhere as minstrel stars. The Monars have an act, "Helma, the German Cabbler," which is repaying at the Grand the same success it had in London.

**Something Queer Somewhere.**

From the Washington Star.

There seems to be some sort of a trend which enables Mr. Harriman to attend to railroadings while Mr. Roosevelt attends to politics.

**Dog Circus at the Oaks.**

One of the most wonderful trained animals in existence is being shown at the Oaks every afternoon during this week. It is Professor Kidd, the remarkable trained baboon who is now

### ACTION POSTPONED ON COADJUTORSHIP

Roma, Aug. 11.—At a meeting of the congregation of the propaganda today it was decided to postpone the selection of a coadjutor for the San Francisco diocese until the end of the month, when the question of the new bishop for the Cleveland diocese will be discussed.

Today's developments are reported as being favorable to the appointment of Dr. Hanna as coadjutor of the San Francisco diocese. Cardinal Gibbons had hoped that the question of the San Francisco coadjutorship would be decided while he was in Rome.

### S.S.S. CONTAINS NO MERCURY

Medicines containing Mercury are often given to persons suffering with Contagious Blood Poison, and so powerful is the action of this drug that it frequently removes the symptoms in a short while, and shuts the disease up in the system to do greater damage to the delicate internal members. When, however, the treatment is left off, the disease always returns, and the patient finds that his health has been injured by this powerful mineral, and is often left with weak stomach, disturbed digestion, mercurial rheumatism, etc. The action of S. S. S. is entirely different. It contains no Mercury, nor any other harmful drug, but is made entirely of healing, cleansing roots and herbs. It cures Contagious Blood Poison by removing the virus from the blood. It searches out every particle of the poison and does not leave the least trace for future outbreaks. S. S. S., in addition to curing the disease, builds up and strengthens every part of the body. Its fine tonic effects tone up the stomach and digestion, improve the appetite and regulate the entire system. Home treatment book containing valuable information about the different stages of the disease and any medical advice desired sent free to all who write.

**THE SWIFT SPECIFIC CO., ATLANTA, GA.**
