

One Never Knows

Where they stand, or where they land, until they've adopted the CASH PAYING plan in its entirety. All credit systems are a guess, regardless of their supposed perfection. And many times the excess price you pay for credit accommodation represents a defaulted payment of some credit buyer. And, as a matter of fact, there is no reason why you should not pay a bonus to the man who is willing to give you credit. He is entitled to interest on his money, same as you would want under similar conditions. Just as long as you can afford to pay that 25 per cent extra and more for credit, you can be comfortable; but when the time comes for full realization concerning such a costly habit, you will then appreciate in full measure what we are doing for you by our strictly cash buying, cash selling business principles.

PORTLAND LANDS AGAIN

Rose City Chosen Convention City for Insurance Men—Honor Due Largely to Illustrated Campaign Conducted by McMurray.

For the fifth time within a period of about three weeks Portland has scored a credit mark in being chosen the convention city for a gathering to be held here in 1909.

Following the selection of Portland as the national convention city next year by the Retail Grocers' association, the Baptist church conference, the American Bookage Transfer Men's association and the selection only a couple of weeks ago of this city for the big convention of the Ancient Order of Hibernians in 1910, comes the announcement through William McMurray, of the U. S. N. that next year delegates of the American Association of Mutual Insurance Companies will assemble here.

Mr. McMurray received the following telegram this morning from J. W. Purdie, general manager of the J. F. Lines insurance men are at present gathered.

"American Association Mutual Insurance Companies in convention here voted the present month. The insurance men will bring between 500 and 600 delegates here next summer."

PAY LICENSE RATHER THAN SUFFER ARREST

That people would rather pay their delinquent license fees and continue in business rather than be arrested and fined in the municipal court is the belief of City Auditor Harbor who stated this morning that more than a third of the delinquents had already paid their licenses and that he expected the rest to come in within the next day or two.
