Worth $4 . . $2.98 Worth $5 . . $3.98

SHERMAN ACCEPTS

His Speech an Indorsement of the Platform in Toto, of Taft's Declarations and of Roosevelt's Policies.

(United Press Leased Wire.)

Utica, N. Y., Aug. 18.—James Schoolcraft Sherman was formally notified by Senator Burrows of Michigan at 12:30 o'clock today of his nomination as the Republican candidate for the vice-presidency, and in his speech of acceptance declared his support of every statement made by William H. Taft, the presidential candidate at Cincinnati. Mr. Sherman spoke as follows:

"Senator Burrows and Gentlemen of the Notification Committee: Your chairman, speaking for the committee, has notified me of my nomination by the Republican national committee held in Chicago in June as the party's candidate for vice-president. As I chanced to be in Chicago on June 1 had an inkling of the convention's action, which was confirmed by a warm hearted reception tendered me by my neighbors on the occasion of my homecoming on July 2. This official notification, however, is welcome and the nomination you tender me is accepted with the gratitude, commensurate with the great honor conferred; accepted with a full appreciation of the obligations which accompany that honor, an honor greater because my name is linked with that of William H. Taft, whom I respect and esteem highly, and who approaches the high office of president exceptionally well equipped to discharge the duties and bear the varied and weighty responsibilities of that exalted position.

Indorses Platform and Taft.

"My acceptance could not be made with honor unless I were in full accord with the declaration of principles adopted by the convention. Not only am I in full and complete accord with my party's platform, but I indorse every word of the statement made by Mr. Taft in his address of acceptance when notified of his nomination as the Republican candidate for president.

That speech fully and comprehensively discusses the issues of this campaign as presented by the platforms of the two great parties, so that it is appropriate that my statement should be short. Those not convinced by the presentation of Mr. Taft I could not hope to persuade. It is, however, in conformity with custom that I refer at least briefly to some of the important issues of the campaign.

Protection, With Revision.

"First, then, let me say that I am a protectionist. I am sufficiently practical to value the utility of a fact higher than the beauty of a theory, and I am a protectionist because experience has demonstrated that the application of that principle has lifted us as a nation to a plane of prosperity above that occupied by any other people.

"I especially commend that plank of our platform which promises an early revision of tariff schedules. That pledge will be fulfilled in adjustment based in every particular upon the broad principles of protection for all American interests, alike for labor, for capital, for producers and consumers. The Dingley bill when enacted was well adapted to the then existing conditions. The developments of industrial prosperity in a decade, which in volume and degree have surpassed our most roseate expectations, have so altered conditions that in certain details of schedules they no longer in every particular mete out justice to all. In this readjustment this principle of protection must and will govern; such duties must and will be imposed as will equalize the cost of production at home and abroad and insure a reasonable profit to all American interests. The Republican idea of such a profit embraces not alone the manufacturer, not alone the capital invested, but all engaged in American production, the employer and employe, the artisan, the farmer, the miner and those engaged in transportation and trade; broadly speaking, those engaged in every pursuit and calling which our tariff directly or indirectly affects.

Revenue Tariff Means Want.

"During a statutory application of this principle, prosperity has abided with us. When a revenue tariff has been the law adversity and want have been our portion. Our Democratic brethren, whose memories are as short as their promises are frail, and who have always exhibited a lack of capacity to profit by experience, unmindful of the distress and destruction that arrived and departed with the last Democratic administration, declare in their platform that they favor such 'immediate revision of schedules as may be necessary to restore the tariff to a revenue basis.'

"A 'revenue basis,' a 'tariff for revenue only,' 'ultimate free trade,' all have an identical meaning, that meaning being an assault upon American industries, a attack upon the American wage scale, a lessening demand for the products of American soil and American toil; less work, less pay, less of the necessaries and comforts of life. In the light of history, what issue of the campaign so vitally affects American citizens? Experience, that effective teacher—effective save with the one-man power now parading under the title of the Democratic party—has taught the nation a valuable lesson and the result of the coming November election will once more prove the American people to be apt scholars. What the laborer of the land, skilled and unskilled, desires is the opportunity at all times to exchange his brain and brawn for good pay in good money. A protective tariff and the gold standard, both now the existing achievements of the Republican party in the face of Democratic opposition, gave the laborer that opportunity.

"The Republican party believes in the equality of all men before the law, believes in granting labor's every request that does not seek to accord rights to one man denied to another. Fair-minded labor asks no more, no less, and approves the record of the Republican party because of the party's acts.

Sherman's Own Appeal to Labor.

"I have helped to make my party's record in the enactment of the eight-hour law, the employers' liability act in the states to minimize the hazar of railroad employes, the child labor law for the District of Columbia, and other enactments designed especially to improve the condition of labor.

"I cannot hope to better state my position on injunctions than by a specific indorsement of Mr. Taft's Cincinnati declaration on that subject. That indorsement I make.

Must Uplift Colored Race.

"As a nation, our duty compels that by every constitutional and reasonable means the material and educational condition of the colored race be advanced. This we owe to ourselves as well as to them, for the result of a course of events that can never be retraced, that are a part of our civilization, their prosperity is our prosperity, their debasement would be our misfortune. The Republican party, therefore, will offer every encouragement to the thrift, industry and intelligence that will better their prospect of higher attainment.

Army, Navy and Other Things.

"I believe in the maintenance of such an army, the upbuilding of such a navy, as will be the guarantee of the protection of American citizens and American interests everywhere, and an omen of peace, that at every exposed point we may be so fortified that no power on earth may be tempted to molest us. I believe in the restoration of the American merchant marine and in rendering what financial aid may be necessary to accomplish this purpose. I approve the movement for the conservation of our natural resources, the fostering of friendly foreign relations, the enforcement of the civil service law, and the enactment of such statutes as will more securely and more effectively preserve the public health.

Roosevelt's Policies.

"Our platform, as it should do, pledges adherence to the policies of President Roosevelt; promises to continue the work inaugurated during his administration, to insure to persons and property every proper safeguard, and that all necessary strengthening of administrative methods will be provided to furnish efficient inspection and supervision, and prompt righting of every injustice, discrimination and wrong.

"I have not touched upon every plank of our splendid platform, but I reiterate my full and unqualified approval of its every promise.

Special Favors to None.

"I emphasize, as my party's creed and my faith, that in legislation and administration, favor should be extended to no class, no sect, no race, no section as opposed to another. To foster class hatred, to foster discontent, is unrepublican and un-American. Our party * * * offers no safeguard to capital that is not guaranteed to labor; no protection to the workman that is not insured to his employer.

"The work that has been given the Republican party to do has been of immense importance. Much of that work has been fully accomplished, some has yet to be completed. Republican declarations once in our platform and no longer there are omitted because they have become accomplished facts. On the other hand, Democratic declarations have been abandoned because the voters have pronounced them to be unwise and unsafe and unsuited to our times and our country.

Ridicules Bryan's Slogan.

"'Shall the people rule' is declared by the Democratic platform and candidate to be the overshadowing issue now under discussion. It is no issue. Surely the people shall rule, surely the people have ruled, surely the people do rule. * * * Shame on the party which, shame on the candidate who, insults the American people by suggestion or declaration that a majority of its electorate is venal.

"The overshadowing issue of the campaign is, 'Shall the administration of President Roosevelt be approved; shall a party of demonstrated capacity in administrative affairs be continued in power; shall the reins of government be placed in experienced hands, or do the people prefer to trust their destinies to an aggregation of experimental malcontents and theorists, whose only claim to a history is a party name they pilfered?'

Burrows' Notification.

Senator Burrows in notifying Sherman of his nomination, said in part:

"Five times in the history of the country a vacancy has occurred in the office of president by the death of the incumbent. Five times the vice-president has been called upon to assume the duties of the president. It is the mysterious dispensation of Providence such responsibility should fall upon you, your long experience in public life, your familiarity with public affairs, your mature judgment and patriotic impulses would insure the continuance of wise administration.

"Bryan, in his recent acceptance address, presented what he regarded as the paramount issue in the campaign in the question, Shall the people rule? This will be answered November next, as evidenced by the triumphant election of the nominees of the Republican party for president and vice president of the United States.

Burrows declared that the failure of the senate to pass the campaign contribution law was due to the Democratic members of the committee on privileges, who opposed the bill. He denied the charge made by Bryan that the rules of the house of representatives do not allow the people, through their representatives, to legislate freely. He declared that he and Sherman had been kept night after night in their seats by Democrats refusing to answer the roll call, destroying the quorum.

In conclusion Burrows said the question, 'Shall the people rule' was settled over half a century ago when Lincoln declared that the purpose of the party in power was to continue the contest in behalf of popular government.

CHICKERING

The name has been famous for over eighty-five years. Four and a half score years of practical experience in piano building embodied in the Chickering Piano of today. Its tone of exquisite quality is peculiarly its own—no other maker having succeeded in reproducing it.

Many efforts have been made to equal the grand piano tone into a small instrument and as many failures have resulted, with but one exception—Chickering & Sons succeeded and gave to the world over six years ago the now-famous Quarter Grand.

It is a perfect grand, with the sweetness and quality of the larger grands, and occupies but little more space than an upright, and the cost is but little more than the large upright.

All Chickering models—uprights and grands—on exhibition and sold exclusively in the Northwest by Eilers Piano House, the House of Highest Quality, 351 Washington St., Cor. Park

DAKOTA SOLDIERS: PASCO RESTAURANT

(Special Dispatch to The Journal.)

Pasco, Wash., Aug. 18.—Three companies of North Dakota National Guardsmen yesterday raided the Northern Pacific and Eagle restaurants and carried away everything edible. They were only prevented from confiscating all of the cigars by a young employe with a loaded revolver. They became indignant at what they considered exhorbitant charges.

When the train reached Pasco the soldiers piled into the restaurant at the depot. When they ran up against a charge higher than they expected, they proceeded to help themselves to everything in sight.

The restaurant did not last long, and they adjourned to the Eagle, where the maneuvers were continued. They started for cigars and secured one box. Taking them by the box was too slow, so they started off with the entire case, when they were confronted by Dennis McNeil with a drawn gun. The soldiers had left their shooting irons on the train and so they beat a hasty retreat.

The proprietors of the two raided restaurants have telegraphed to the North Yakima authorities of the occurrence. Damage suits are threatened.

BOYS LAY RAIL ACROSS TRACK

Stone Coaches When Train Stops—Caught; Say Were Only in Fun.

(United Press Leased Wire.)

Santa Rosa, Cal., Aug. 18.—For attempting to wreck a train on the Northwestern Pacific railroad, two small boys, Henry Fehler, 11, and Austin Davis, 10 years old, were brought before a magistrate here today. They were also charged with hurling rocks through the windows of the passing train.

Just before the camp vacation special from San Francisco was due to arrive here the boys placed an iron rail across the track on a curve outside the city limits. Fortunately the engineer saw the obstruction in time to bring his train to a stop, thereby preventing a wreck that undoubtedly would have resulted in fearful loss of life, as the train was crowded with passengers.

Blackening their faces the lads waited for the train. As it slowed down at the curve they hurled stones at the windows of the cars from a place of concealment. Several windows were broken and passengers were cut by the glass. A large rock struck Mrs. T. J. Roche of San Francisco in the face, causing painful injuries. H. A. George was cut by flying glass.

The young desperadoes were caught by A. J. Rosenheimer and placed in jail. When questioned in court this morning they declared they had no idea of the peril of their act and did it only in fun. The elder boy will probably be sent to the reform school.

FARMAN SAYS EDISON HAS HIS SHIP BEATEN

(Special Dispatch to The Journal.)

New York, Aug. 18.—The first fruit of the retirement of Thomas A. Edison, the great inventor, has come in the announcement that he has invented a flying machine, which Henry Farman, the French aeroplanist, thinks is better than the machine he brought from France. So interested was the Frenchman that he went to the Edison laboratories to talk with the inventor about it. Mr. Edison has got no farther than the plans, but that is the whole job with him. He has sent to Mr. Farman plans for a ship that would not only fly, but would ascend from the ground straight up to the height at which its flight might begin. Mr. Farman's machine is handicapped by the necessity of rising with a running start on wheels.

New Lands in California.

(United Press Leased Wire.)

Stockton, Cal., Aug. 18.—A petition is being circulated among the farmers in the southeastern part of San Joaquin county asking the county board of supervisors to create a new irrigation district under the so-called Wright law. It is proposed to open about 60,000 acres of unwatered land by constructing a canal that shall connect with the Woodbridge system, thus securing water from the Mokelumne river. Water can be supplied at from 75 to 80 cents an acre. Farmers who are interested in the project expect to have the system installed by 1910.

Excellent Health Advice.

Mrs. M. M. Davison of No. 879 Gifford Ave., San Jose, Cal., says: "The worth of Electric Bitters as a general family remedy, for headache, biliousness and torpor of the liver and bowels is so pronounced that I am prompted to say a word in its favor, for the benefit of those seeking relief from such afflictions. There is more health for the digestive organs in a bottle of Electric Bitters than in any other remedy I know of." Sold under guarantee at Skidmore Drug Co. 50c

TEA

Buy tea by the ounce until you get Schilling's Best; it makes no difference then.

Your grocer returns your money if you don't like it: we pay him.

PIOUS MAN HAD AWFUL TEMPER

William Kitely Shoots at Sister and Then Blows His Brains Out.

(United Press Leased Wire.)

Tacoma, Wash., Aug. 18.—William Kiteley, 50 years old, night watchman at the Carmen Manufacturing company plant, at 6:40 this morning shot his sister, Mrs. Louisa Henstone, and then blew out his brains.

The injury to the woman was slight, the bullet glancing from her head and inflicting only a scalp wound.

Kiteley has been considered a quiet and well behaved citizen, but members of the family say he was the victim of an ungovernable temper. His wife left him a few months ago and is now at Vancouver. His daughter and son-in-law, C. P. Leland, travel as canvassers, and their little child is with Mrs. Kiteley at Vancouver.

Kiteley has been considered eccentric. He was a stickler for his peculiar notions, refusing to read a Sunday newspaper under any circumstances and was a rigid total abstainer. He owned considerable property.

WOMAN LOSES $15,000 CROP IN WHIST GAME

With Husband Sits in Play With Orchard's Products as Stake—Loses Without a Wince.

(Special Dispatch to The Journal.)

Los Angeles, Aug. 18.—With a fruit crop worth $15,000 as the stake, the fiercest game of whist ever seen in the southwest was played in a little summer cottage at Corona del Mar, near Balboa Beach. The players were Mrs. George E. Hart, a Los Angeles society woman, and her husband, a prominent broker, on one side, and George A. Nelson and Hugh W. Nelson, Nevada mining men, on the other.

The game was the outcome of a real estate deal, the Nelsons trading the whole town of Winchester, Riverside county, for the Hart ranch in Simi valley, north of this city. Both parties insisted on having this year's valuable crop from the ranch. The Harts had lea s and American and international whist signals at their fingers' ends, but the Nevada men had the trumps.

In spite of brilliant and bewildering playing by the Harts, the rough and ready cowpuncher luck won. Mrs. Hart lost without a wince. The Harts led the first 35 points, though it was close, and then their rivals jumped ahead and stayed there.

NOT MUCH DAMAGE TO THE COLORADO

(United Press Leased Wire.)

Navy Yard, Puget Sound, Wash., Aug. 18.—A further investigation yesterday showed that the damage to the bottom of the cruiser Colorado received last Saturday when the ship ran aground is not serious. There is very little possibility of the ship being able to leave here within three weeks and several experts state that it will take two months to repair the damages. A survey of the hull of the ship was conducted by the naval constructor of the yard and the full extent of the damages will not be known until he makes his report today. The bottom on both sides of the ship was scraped by contact with the rocks, showing that the ship must have gone its length after going aground.

The cruiser Charleston, flagship of the second squadron of the Pacific fleet, will probably take the Colorado's place in the first squadron of the Pacific fleet during the fall cruise to the south Pacific.

Comes to Buy; Remains to Wed.

(United Press Leased Wire.)

North Yakima, Wash., Aug. 18.—Miss Emma C. Gregory, who came here from Chicago three months ago to invest in Yakima real estate, has remained to marry the real estate man. Her decision was made irrevocable Saturday when she became the wife of John O. Jeffery, the first real estate man into whose office she chanced on her search for investment.

CHILD DROWNS IN SNAKE RIVER

Mother and Little Brother Almost Lose Lives in Attempted Rescue.

(Special Dispatch to The Journal.)

Payette, Idaho, Aug. 18.—Nine-year-old Iola, daughter of Mrs. Jess Bryan, this place, was drowned in the Snake river yesterday. This is the third drowning within the last three weeks. Each resulted while the victims were in bathing. Iola was bathing with her mother and 11-year-old brother, when she got into deep water. Both the mother and brother came near losing their lives in their efforts to save her. The drowning occurred near the Bryan home. The body was recovered in about two hours. The little girl was a granddaughter of Mr. and Mrs. Jacob Stroup, prominent pioneers of Payette valley.

STOLE CLOTHING OF GIRL CAMPERS

(Special Dispatch to The Journal.)

Washington, Pa., Aug. 18.—The 20 members of the "Dew Drop Inn" club of Washington contemplate changing the name, which appears in big letters on a steamer in front of their summer camp at Vanceville. Marauders apparently weak on spelling, but ready to take the girls at their own word, "Old drop in," and while the 20 maidens and their chaperone slept, collected nearly everything of value, including clothes and victuals and disappeared.

Next morning only two loaves of bread were left as a breakfast, while it required nice calculations to distribute the remaining garments so that all could venture into the open. A messenger dispatched to Washington got clothes and eatables to relieve the situation.

GREETINGS TO OREGON FROM NEWSPAPERMEN

Here is a word or two from the editors of the National Editorial association now assembled at St. Paul:

"The Journal, Portland, Or.—The National Editorial association in twenty-third annual convention assembled sends kindly greetings to Oregon and says 'Some day we'll wander back again.' ALBERT TOZIER."

Admitted to Bar.

Salem, Or., Aug. 18.—Robert J. Kitchen was admitted to practice law in Oregon on presentation of a certificate from the state of Indiana in the supreme court today. Mr. Kitchen is proprietor of the Eagle Valley News at Richland or Baker county. B. J. Howland of Myrtle Creek was admitted on motion.

VELVET IS LESS BY MILLIONS

Harriman Systems Report Gross Revenues Lower, Operating Higher.

(United Press Leased Wire.)

New York, Aug. 18.—Annual statements showing a total decrease of $10,000,000 in the profits of the Southern Pacific and Union Pacific railroads created a flurry of excitement in financial circles here today.

The depreciation in the earnings of the Harriman roads, although it was known to be heavy, was scarcely expected to reach such a large figure.

The gross revenue for the Southern Pacific for the year ending June 30 was $123,274,423, a decrease of $2,894,289. The operating expenses were $84,659,905, an increase of $4,415,598. The revenue over operating expenses and taxes was $34,662,577, a decrease of $8,365,289.

For the Union Pacific system the gross revenue was $76,039,224, a decrease of $292,786. Operating expenses aggregated $4,694,293, an increase of $1,510,983. The revenue over operating expenses and taxes was $31,900,205, a decrease of $2,160,499.

MAIL CLERK KILLED IN A COLLISION

(United Press Leased Wire.)

Seattle, Aug. 18.—Southbound passenger train No. 2 on the Northern Pacific crashed into northbound freight No. 45 at Woodinville at 2:55 yesterday afternoon, killing Joseph Thompson, a mail clerk, and injuring Albert O. Wishard, the engineer, both of Seattle.

Thompson was in the mail car and when the engines came together the coach was badly shattered. He was caught between the splintered timbers and so badly injured that he died an hour later. Thompson was 39 years old and leaves a wife and four children. The accident occurred within the yard limits of Woodinville, 12 miles east of Seattle. The responsibility for the accident is not yet fixed.

Many of the passengers were slightly bruised, but none are believed to be seriously injured.

EQUAL SUFFRAGISTS BUSY IN CALIFORNIA

(United Press Leased Wire.)

San Francisco, Aug. 17.—Emissaries were chosen by the Equal Suffrage league of this city today to interview the delegates to the Republican state convention of California to learn how they stand on the question of woman's rights. The convention opens next Tuesday in Oakland.

It is the intention of the league to interest all delegates in their cause and bring the matter before the convention in the form of a resolution indorsing equal suffrage.

The same effort will be made to enlist the support of the delegates to the Democratic convention.

S.S.S. HEALS SORES AND ULCERS

Sores and Ulcers are indications of impure blood. They show that the circulation has become infected with germs and poisons, which are being constantly discharged into the open place to irritate the delicate nerves, tissues and surrounding flesh and keep the sore in a state of inflammation and disease. Whether these impurities in the blood are the result of some debilitating sickness, an old taint from a former disease, or whether it is hereditary bad blood, there is but one way to cure sores and ulcers, and that is to purify the blood. Washes, salves, lotions, etc., are often beneficial because of their cleansing, antiseptic effects, but nothing applied to the surface can reach the blood, where the real cause is, and therefore cannot cure. S. S. S. is the remedy for sores and ulcers of every kind. It gets down to the very bottom of the trouble and removes every trace of impurity or poison, and makes a lasting cure. S. S. S. changes the quality of the circulation, so that instead of feeding the diseased parts with impurities, it nourishes and heals the irritated, inflamed flesh and causes the ulcer to fill in with healthy tissue by supplying it with pure, rich blood. Book on Sores and Ulcers and any medical advice desired sent free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.
