CHLOROFORM LION TO CUT HIS TOENAILS

Nero, the lion in the city park, is going to get everything in the tonsorial line but a shave and a haircut next week. First of all he will have his nails manicured, then if any other parts of his toilet need caring for they will be attended to at the same time for when Nero is attended by the manicurist and chiropodist it is necessary to place the king of beasts under an anesthetic. Veterinary Surgeon J. M. Cramer has been selected to perform the task and under the direction of Parkkeeper Mische the huge beast will be caged in a small enclosure and put under the influence of chloroform. When Nero is in a stupor Dr. Cramer will trim the animal's nails, which have grown so long that they have curled up into the flesh, causing blood to flow with each step Nero takes.
