PORTLAND PAIRS IN SEATTLE SHOW

Blueblooded Steppers Expected to Take Prizes at Big Sound Affair.

Entries for the Seattle Horse show, which were to have closed yesterday, will be held open until Samuel E. Kramer's departure for Seattle Monday evening, for the benefit of Portland owners who are out of the city and who will be probable exhibitors. Mr. Kramer, who is assisting President Metzgar in arranging for the horse show, is provided with blanks for the Seattle entries and is authorized to accept entries. He can be communicated with at Boat club headquarters, 229 Lumbermens' building, Main 8337, or the Oregon hotel, and those who contemplate entering should consult him without delay.

Thomas B. Wilcox has taken the lead in entering in his intention to exhibit in the Seattle show and will take his handsome Black colt, Hindoo Prince and Black Chief to the Sound city for entry in the Creighton, Victoria and Tandem classes. These animals were blue ribbon winners in the Seattle show last fall and Mr. Wilcox's expectations of repeating these honors will doubtless be realized as his horses are exceptionally fine for their class.

Sanford Hirsch will send his magnificent pair of chestnuts if he can get them in satisfactory condition before entries close. One of his horses has been out of form a few days, but is fast recovering and will be up to his usual standard in another day. With a pair of this class and the perfect appointments Mr. Hirsch has provided he should be a winner several times in various classes in which he will exhibit.

An effort will be made to induce F. W. Leadbetter to ship his new pair of blacks, Nip and Tuck. These horses are Chicago winners and will prove fit for any competition in Seattle. The Lewis pair of Chestnuts will also be a valuable acquisition to the Seattle show and Mr. Kramer is using every effort to have them entered.

The Seattle show will be an outdoor affair this year and there will be opportunity to exhibit show horses to the very greatest advantage. The stabling accommodations are ideal and visiting exhibitors are assured of every comfort and convenience for their horses and men. Portland owners are urged to send their horses for competition in this event, and in appreciation of Seattle's generous display made here last fall, and expected again this year, there will doubtless be a number of local horse owners public spirited enough to respond.

NEW TURN VEREIN INSTRUCTOR

RICHARD ENSEROWSKI.

Richard Enserowski, one of the foremost German athletes in the United States, arrived in Portland last week from Chicago and will immediately take up the physical direction of the local turn verein, the prominent German athletic organization. Few athletic instructors possess more honors than Mr. Enserowski, gained both in America and abroad. That Portland was able to secure the man who instructed the largest gymnasium class in Chicago is considered a master stroke, as several large cities were after him.

Mr. Enserowski had the distinction of having been named by the German government while he was still an active athlete to represent it in the Olympic games in Paris in 1900. He won first place of his own nationality in special gymnasium work and second in all round athletics.

Eight years ago he came to America and was engaged to instruct in physical culture in Buffalo. He remained there three years, going then to the Vorwaerts society of the Turn Verein in Chicago as physical director. Starting with one of the smallest classes he so increased its membership that when he left Chicago several weeks ago, he had the distinction of having the largest class in that city.

Just now several of his pupils are representing America in the great turn verein tournament in Frankfort, Germany. They are ranking high in the opinion of the judges and will no doubt bring a number of prizes back to America. In the olympic games at St. Louis in 1904, his pupils captured a number of prizes.

Wrestling, tumbling, fencing, swimming, bar work, fancy dancing and other athletic exercises will be taken in hand by the new director. In addition he will introduce the Gilbert system of fancy dancing steps, quite a feature will be made of fancy dancing in connection with the gymnasium work.

Mr. Enserowski is also a noted swimmer and during the summer months omnia a portion of his residence in Chicago was the supervisor of the public baths, the position being a distinguished one.

GRAND WELCOME FOR AMERICANS

President Roosevelt Will Pin Medals on Conquering Athletes' Breasts.

New York, Aug. 23.—Plans are made for a very imposing official reception for the returning American Olympic athletes on August 29. It is true that many of the athletes have arrived here already, but the reception is just as much for them as for anybody else.

The American athletes who took part in the great International games before the Stadium are the lions of the hour in the athletic world. They are the snowy-petalled marguerites, the kingpins in the eyes of all sport loving folks.

The Olympic games were necessary to show just how supreme the United States is in the sphere of brawn. But add to the strength and skill of the American athletes a use of brain which after all elevates sport out of a sordid sphere. While the English, by their unique system of scoring, claim the greater need of honors, all fair minded and impartial observers are ready to admit the claims of the Americans. It is with this added prestige in the Athletic kingdom that the Americans are coming home and that is why a pageant so splendid has been prepared for them.

Streets Kept Clear.

Money has been collected for the purchase of tickets and to defray necessary outlay to show the appreciation of the people for the good work done by the Yankee abroad. At a special meeting of the board of aldermen plans were made for a monster parade and General Bingham, police superintendent, has promised that the streets shall be reserved for the athletes and their admirers on the 29th.

President Roosevelt has been invited to pin the medals upon the breasts of the conquering heroes as the crowning feature of the reception. President Roosevelt's love for sport and out door life will likely lead him to accept this honor with pleasure. The presentation of the medals will take place upon the steps of the capitol.

Governor Higgins has been petitioned to allow a troop of the national guard to participate in the parade. Mayor McClellan will extend to the athletes the freedom of the city. Perhaps one of the most enthusiastic of the official welcomers is "Little Tim" Sullivan.

"Tim" Feels His Roll.

"Now is the time for us to show our material appreciation for our boys who did so much to redeem the fair name of America in the great sporting show," said "Little Tim" as he pledged an elephantine roll and peeled off several yellow backed bills.

"That's right," said Percy Nagle, who was a member of the old Metropolitan Rowing club which won the national regatta championship in August, 1884. "And what is more," continued Mr. Nagle, "I am going to be in that parade and have as many of our old victorious crew with me as possible."

While considering olympic athletics it is interesting to note some of the things which have been done so far during the present olympiad. Ten titles were lost and the old champions were unsuccessful in defending the former top notch figures.

Passing of Titles.

James Lightbody of Chicago had the misfortune to lose two "highest figures." The 3,000 meter title passes to Melvin Sheppard, who was good it himself last year. Russell of Great Britain, took the fence clearing honors from Sheppard. Paul Pilgrim of New York, was the star of the two titles. Con Leahy of Ireland was another Athens champion who passed up a title. Harry Millman lost on elevenths the first year, for the 110 meter hurdle championship, which he won at St. Louis.

In spite of his splendid showing in the all round throwing events, Martin Sheridan lost a title at the Stadium. Before the Shepherd Hill meet Sheridan was the champion shot putter of the world, although he did not hold the record. At Athens he won with a throw of 40 feet 8 inches, and it was no surprise when he failed to place in the galaxy of stars that had foregathered at London.
