NATIONAL STOCK

A Fortune for Everyone—Quick

I have always preached "Don't speculate," they can spare and not be frightened off by the System's machinations.

The soundest, safest, surest principle of speculation is: Buy 100 shares of something selling at \$2

per share to make 100 points profit instead of buying 100 shares of anything at \$100 per share to make 2 points profit.

Your liability on \$100 per share is \$10,000; at \$2 per share it is only \$200.

The greatest fortunes in the world have ALL been laid on this foundation.

My own fortune and financial success was laid in buying Butte & Boston at the present price of "National Stock."

Standard Oil, Rogers and Rockefeller, who were my partners in the deal, and every broker in Boston and New York, will vouch for this fact.

They will vouch, too, for the fact that I advertised "National Stock" that all who would buy at \$2 per share would be able to sell at \$100 per share.

and also for the fact that inside of two years from the time I advertised they could all have sold at \$130 per share.

and notwithstanding the recent panics and what-nots each \$2 invested in Butte & Boston upon my pledge for its future is worth in the open market today \$80.

I trust that people everywhere will buy "National Stock" to the extent of every dollar
