Indiatization, Aug. 16. The nonof John Worth Kein in accepting t Democratly monimation for all clare dent of the United States was in full as follows:

I appreciate most highly this great honor conferred upon me by the unanimous vote of the representatives of my party in national convention assembled, and I shall strive most earnestly to earn a continuation of the confidence and good will manifested by that ac- be

and good will manifested by that ac-tion. 1 did not seek this nomination indeed, if my own personal desires had been consulted, another would have re-ceived the honor, but it having come to me without solicitation 1 prize it all the more, and accept it with a full sense of the burdens and responsibil itles. As a candidate I shall try to wear the honor worthily, and as faitn-fully as I can discharge all the duties properly devolving on me as one of your standard bearers, and if elected I promise to serve all the people of the republic by the conscientious discharge of the duties of the office. It is pleasing to me to be associated in this campsign with the distinguished gentieman to whom the standard of the party has been committed. For years we have been friends. I recognize in

party has been committed. For years we have been friends. I recognize in him a man of spotless character and high ideals always actuated by patri-otic motives and an earnest desire to promote the weifare, the honor and glory of his country. He became your candidate because his nomination was demanded by the rank and file of the party, which demand was emphasized by a popular movement in his favor, which, as it proceeded, so grew in vol-ume and force as to become irresistible. Bryan's One-Man Power.

Bryan's One-Man Power. A distinguished Republican the other day referred to his influence with his party as a one-man power. If by that he meant to say that Mr. Bryan pos-sessed the power, in a marked degree. to influence the thought and arouse the conscience of the republic as no other man of his time, or if he meant that by his upright life, his consistent course, his appeals for right living and patriotic action, he has earned the confidence and personal affection of millions of his countrymen, and gained the respect and admiration of all the people of the world who love liberty and humanity-then the distinguished gentleman was right with respect to the one-man power of William Jennings Eryan.

The Republican nominee for vice, president, in his recent speech of acceptance, affected the belief that the gardinate power. If our notrestaties so desire, let them pursue that course. There comes a time when the life of a mathematical time in the life of a mathematical course. The president in the people have ruled without hindrance.
 The factor the people and by the people. They presumably govern thematical terms in the life head concession of the people and by the people.  And if the will of the people, once the work, is not given effect, then the go in the success work for a righteous course and a glorious victory in National terms in the state and a glorious victory in National terms in the state and a glorious victory in National terms in the state and a glorious victory in National terms in the state and a glorious victory in National terms in the state and a glorious victory in National terms in the state and a glorious victory in National terms in the state and a glorious victory in National terms in the state and a glorious victory in National terms in the state and a glorious victory in National terms in the state and a glorious victory in National terms in the state and a glorious victory in National terms in the state and a glorious victory in National terms in the view is the state and the state and the state and a glorious victory in National terms in the state and a glorious victory in National terms in the state and a glorious victory in National terms in the view is the state and a glorious victory in National terms in the view is the state and terms in the view is the state and a glorious victory in Nation terms is the view is the state and terems is the vice of the

Piano Values That Attract Attention

The attraction to this store to the piano-buyer is not alone in the great collection of instruments shown here, but also in the values, which are evident to all who make investigation and comparison.

By reason of the magnitude of our wholesale business, we are enabled to command resources and to control facilities by which we reduce our selling cost per piano to a much lower point than is possible for the retail dealer.

Our business is principally that of wholes ling, but we are selling many pianos here in the city from our wholesale warerooms because it can be done without any additional expense.

This is our wholesale distributing point for the entire northwest, and it costs us nothing extra to sell a piano to a private individual. How can you expect to buy a piano as cheap elsewhere? All retail dealers have to add to the cost of each piano their expense for lights, clerks and a retail store, which is usually enormous. We have no expense whatsoever to charge that department.

Some of the world's best pianos are on exhibition here, and the low prices at which they can be purchased is already the talk of the musical fraternity. Why not investigate for yourself? Our liberal plan of deferred payments makes it possible for you to own even a MASON & HAMLIN (the costliest piano in the world).
