

STRONG BULL DEVELOPMENT CONGRESS CALIFORNIA TOWN WALK 200 MILES TO VIEW JAPAN MAY PUT FORWARD BRITAIN STRENGTHEN THE RAILWAY FEARS FIREBUGS DEATH OF OREGON LAKES OF EXPOSITION Public Clamors Against Vast Expense, and Mismanagement.

Democratic Forces in Oregon Are United and Working in Harmony for the Election of the Commoner to the Presidency.

Oregon and Multnomah county Democrats have joined hands to pull for Bryan and Keim and from today the Democratic campaign in Portland will be fought by both the state and county central committees from the same headquarters in the Merchants' Trust building at Sixth and Washington streets.

Body Blow Is Struck at R. R. Monopoly Through Resolutions Which Will Be Presented to the Next Legislature.

(By a Staff Correspondent.)
March 12, 1908. With Governor Chamberlain at its head, the resolution committee, composed of several leading Oregonians of the Oregon and Idaho development congress took a bold step yesterday in striking at railroad monopoly by unanimously recommending the building of a state-owned railway across the state from Coos Bay.

This shows that the governor struck fire in his address the night previous, and the enthusiastic reception of the resolutions when they were presented last night proved that the representatives of the Oregon are tired of temporizing and delay. Not a word was spoken in opposition to the resolutions and they were adopted by unanimous vote. This is the resolution that secures notice on Harriman of the government's determination to end conditions existing in Oregon.

The Resolutions.
This congress desires to raise the new issue, that the time has come for the building of a state-owned railway and proceed by every instrumentality in their possession to organize and build a trunk line across the state, east and west, terminating at Coos Bay. We believe this would break down the barriers of monopoly, open up vast unexplored territory, and build up a large city at the seaboard and other large cities in the interior of the state, adding hundreds of millions of wealth and half a million population in 10 years.

We believe the next state legislature should pass a bill authorizing the building of such a railroad over all state lands and pass a bill authorizing the state to condemn rights of way over existing land grants held by other corporations, and that the state should build, own and operate, either electric or other lines in such sections, thereof as might be necessary, utilizing the splendid resources of the state for such purpose, or guaranteeing under proper construction the bonds necessary to be issued for the purpose of raising the money to do it, to the people building proper and necessary extensions of existing systems.

Band of Ruffians Bent on 'Burning and Looting— Vigilantes Form.

(United Press Leased Wire.)
Marysville, Cal., Aug. 26.—Vigilantes are in charge of the town of Quincy, the county seat of Plumas county, today and it is feared serious trouble will result between them and a band of ruffians who have been terrifying the citizens. Matters came to a climax last night, when the fire apparatus was tampered with and the hose cut just before an attempt was made to get fire to a building in the middle of the town.

A number of incendiary attempts have been discovered. Business men have been threatening to destroy the business section of the town.
The vigilantes are well organized and determined to rid the town of the undesirable. They are prepared to use the most drastic measures and a high state of excitement prevails. The ruffians are known and it is believed they will not submit without a fight.

The vigilantes committee was formed at a secret meeting held last night, but the whole town was aware of it early today. The business men believe the desperadoes planned to put the fire apparatus out of commission and then set fire to the town in an effort to destroy the business section and cause excitement that would give them an opportunity for loot.

Mr. Grilley Walks 200 Miles to View Japan May Put Forward BRITAIN STRENGTHEN THE RAILWAY FEARS FIREBUGS DEATH OF OREGON LAKES OF EXPOSITION

The Y. M. C. A. party which visited Crater lake on a walking trip has returned and enthusiastically reports a most delightful time. M. C. Grilley, physical director of the Y. M. C. A., headed the party which went by train to Medford and then struck out afoot. In Medford they were entertained by the Commercial club and were taken through the surrounding country in automobiles before they were allowed to proceed.

Mr. Grilley said the Rogue river country was full of unexpected surprises for them, for though they had been taught to believe it a beautiful spot, they had not been told of the many beauties of nature. Especially did they enjoy the Mill Creek falls, the canyon and the natural bridge. For Crater lake he said he had no words to do it justice, but that has been more often described than some of the lesser beauties to which justice has never been done.

At Fort Klamath they met Dr. W. E. Bywater, who helped make their stay pleasant and showed them the country about there.
View Harriman's Lodge.
An interesting feature was the election of the first Indian council at the Klamath reservation. Later the government has decided that 12 men shall be elected from the tribe as council and when a power was to be held by the Indians together. Mr. Wilson of the training school retained the council. He said he would be very beautiful and the Indian institutions.

Public Clamors Against Vast Expense, and Mismanagement.

(Special Dispatch to The Journal.)
Tokio, Aug. 26.—The unpopularity of President Kaneko in spending great sums of government money and the result in the postponement of the great exposition, which now is set for 1912. The people are clamoring against the method of Kaneko in spending great sums of government money and the result in the postponement of the great exposition, which now is set for 1912.

Already many millions of yen have been expended in the preparation and there is no doubt that further appropriations will have to be asked if the present plans are carried out. Kaneko belongs to the party represented by the deposed cabinet and is not the fair Kaneko in present economic policies of the government. People accuse him of extravagance and of mismanagement of the public funds. They say that the enormous expense of the fair is too great a scale and that he actually may bankrupt the government if he persists in his present policy.

A postponement of the exhibition would not be a great surprise in Tokio, even after the dental today.
(Special Dispatch to The Journal.)
Seattle, Wash., Aug. 26.—It has for a long time been the sentiment of the Swedish-American citizens of Seattle to celebrate a certain day during the exposition next year. July 11 has been obtained for that purpose from the officials of the fair and the day will be known as the Swedish day at the Alaska-Yukon-Pacific exposition.

BRYAN WILL CARRY NEW YORK BY BIG MAJORITY

New York will give Bryan 100,000 majority, the cheering news swept today by State Chairman Alex Sweek from Walter Francis Burns, of New York city, personal representative of Norman E. Mack, chairman of the Democratic national committee.
Mr. Burns is in Portland in conference with Chairman Sweek for the purpose of getting in touch with the Democratic organization in this state. For the past three weeks, Mr. Burns has been traveling in the Rocky mountains and north Pacific states. He has consulted with many of the leading Democrats in these states and has met with such encouraging reports that he predicts Democratic success in Montana and Idaho with a strong probability of carrying Washington.

CANADIAN PACIFIC SHOWS BIG INCREASE

In the face of the mechanics' strike and the business quiet, the monthly statement of the Portland office of the Canadian Pacific for the August just coming to a close will show an increase of 20 per cent over the same month in 1907. The present month will be the largest in the history of the Portland office of the Canadian Pacific.

ASK POLICE TO FIND HER MISSING HUSBAND

Joseph Graybill, 35 years of age, was reported to the police today to be missing from his home, 230 Larabee street, on the corner of Third and Larabee streets. He is five feet, six inches in height, weighs about 250 pounds and wears a black derby hat and has a dark brown mustache. His complexion is light.

APPLY U. S. R.S. FORFEITURE BONDS TO HILLSBORO RAILROAD

No action was taken by the council this morning upon Mayor Lane's communication regarding the forfeiture of the United Railway company's bond of \$100,000 other than to refer it to the committee on judiciary and elections and now it appears as if the council will vote to apply the bond to the Hillsboro railroad instead of to authorize Mayor Lane to institute a suit to collect the face of the instrument.

WIFE AND FAMILY LEFT PENNLESS

Mrs. Rosa Neuber is anxious to learn something of the whereabouts of her husband, Peter Neuber, who was last heard of in eastern Oregon, and who is believed to be in the woods somewhere near Portland cutting cord-wood. Mrs. Neuber and child are penniless and are being temporarily provided for at the Salvation Army Industrial home, 111 East Third and East Tenth streets.
