

JAP SENSATION FLATTENS OUT

President's Letter to Secretary Root Makes Incident a Commonplace.

(United Press Leased Wire.)
Washington, Sept. 2.—Diplomats here today are discussing a letter sent to Secretary of State Root by President Roosevelt commending the action of the Japanese government in postponing the Tokio exposition and taking occasion to state that the American people feel friendly toward the Japanese. The letter, which was made public from Oyster Bay last night, is considered as having been written for the purpose of putting to an end the sensation created last week by a hurried visit of Baron Takahira to the president and the rumor that Chinese Minister Wu is to be recalled because Japan does not like him.

After Baron Takahira's hurried visit to President Roosevelt and Secretary of State Root, he hurried to a railroad station and sent a cablegram costing \$96 to his home government. When he was asked for a statement he replied that President Roosevelt would give out what was to be said.

The letter to Root is Roosevelt's reply to a request for a statement. It assumes that Takahira's visit was with reference to the postponing of the Tokio exposition, the president and the secretary has refused to make a further statement.

The president's letter to Root states that the American government commends the decision of Japan to postpone the Tokio exposition.

President Roosevelt says further: "The people of the United States hold for Japan a peculiar feeling of regard and friendship and no other nation is more anxious than we are to help make the exposition a success in every way."

NEW 300-TON BRIDGE PLACED, 3 1/2 MINUTES

(Special Dispatch to The Journal.)
Chester, Penn., Sept. 2.—A real object lesson in the evolution of railroad bridge replacement was given on the Philadelphia and Erie Railroad, between Ohio and Pennsylvania, when the old bridge across Chester creek, between this city and Upland, was pulled out and a double-track bridge 150 feet long was slid into position in just 3 1/2 minutes without a hitch, breaking the time record on this system. It was thought to be the quickest work of the kind ever done anywhere.

There was not the slightest interruption to traffic.

The new bridge weighs about 300 tons and was built completely alongside the old one by the Pittsburgh Construction company of steel furnished by the American Bridge company.

20 NEW LOCOMOTIVES FOR PITTSBURG ROAD

(Special Dispatch to The Journal.)
Pittsburg, Pa., Sept. 2.—The New York Central has placed orders for 20 new locomotives to be delivered within 30 days to the Pittsburg and Lake Erie railroad, the Pittsburg end of the New York Central. The order was placed after a careful resume of conditions in the Pittsburg district, where it was found much improvement in the rolling stock must be made in order to handle the business of the fall, especially coal shipments.

The Pittsburg and Lake Erie railroad now has more locomotives to the mile than any other road in the country, having 35 to its 43 miles of four tracks.

Still Expanding.

Busy men with saw and hammer, with saws, gas pipes and electric wiring are invading Eilers Piano House these days, and while they make more or less confusion, particular attention is paid by the management not to have the remodeling work, now under way there, interfere with the regular conduct of business. Expansion has become necessary in the Talking Machine Department, which has shown a constant growth, and also the Piano music library is going to be extended and remodeled. An unusually large stock of Pianola music rolls is being sold, not less than 25,000 such rolls being carried in stock.

Another large display room is being fitted up in the building for what the firm calls its "business music department"—instruments of a more or less elaborate nature that are played by means of electricity or other power, many of which are operated with a click in the slot device.

The firm has closed the largest sales record for any month of August ever experienced, and every preparation is being made to handle a vastly increased trade in every department hereafter.

FALL HATS ARE READY

The new blocks are here. They're right handsome. We've the smart styles for the swell young fellows, and conservative shapes for the older men.

SOFT OR DERBYS
\$3.00
BLACKS, BROWNS, OLIVES

Every hat guaranteed to give perfect satisfaction. Step in and try on some of the new shapes.

ENGLAND SHOWS UNUSUAL BIGOTRY

Proposed Reception of Cardinal Vannutelli Causes Feeling Among Classes.

(United Press Leased Wire.)
London, Sept. 2.—Fearing that an anti-Catholic demonstration and possibly bloodshed would result from the proposed grand procession of Catholic clergy here at the opening of the Eucharistic congress, September 9, the churchmen in charge of the congress have abandoned the parade at the urgent request of the London police.

Every effort has been made to keep the abandonment of the procession a secret but the facts became known today. The parade was to have been the greatest procession of Catholic clergy in the history of the church and elaborate preparations had been made for it.

It is understood the police were informed several days ago of a plot to interrupt the parade and feared that the high feeling engendered by the recent church controversy would result in a general riot with serious consequences.

The Catholics here blame the council of the Protestant alliance for the agitation and the council admits the charge, declaring that arrangements for the coming Eucharistic congress are a violation of the constitution and the bill of rights and a "disgrace to England."

It is not unlikely that the sessions of the congress will be marked by disorder. It is understood that the police have made preparations to quell at any anti-Catholic demonstration that may be attempted.

Edward's Offenses.

The trouble arose over the contemplated reception of Cardinal Vannutelli at Windsor castle. He will be the first papal legate to visit England since the reign of Queen Mary. The council of the Protestant alliance is incensed at the proposal to receive the papal legate at the king's castle and has notified the secretary of state for home affairs that it proposes to appeal to parliament unless the king heeds its warning "not to violate, for a second time, the Protestant constitution of the kingdom established by the bill of rights and the act of settlement."

The council's contention is that any British monarch who recognizes the pope officially, thereby automatically vacates his throne.

Council Snubbed.

When the council learned that Cardinal Vannutelli was to be received by the king, the secretary sent a strong protest to the foreign office, hoping that he would communicate with Rome and stop the contemplated audience of the papal legate with the defender of faith. The only answer was:

"The under-secretary of state for foreign affairs presents his compliments to the secretary of the Protestant Alliance and, by direction of the secretary of state, declines to accept of his letter of the 21st ult."

The king's advisors take the position that, while required to swear at his coronation that he is not a Roman Catholic, nothing in the constitution prohibits him from acts of courtesy toward Catholic governments and the see of Rome or its representatives.

\$9,000 IN GOLD IN POOR MAN'S TRUNK

(Special Dispatch to The Journal.)
Great Bend, Ind., Sept. 2.—Nine thousand dollars in gold coins, mostly of large denominations, was found in a battered leather trunk here by the sons of Leman Roosa, an old farmer, who died alone in his humble country home last week.

Seemingly in reduced circumstances, Roosa had raised small crops here for years, and no member of his family remained with him. His children had grown up and gone away.

Two of them remained on the farm after his funeral, and made an examination of their father's effects. In the trunk, which was supposed to contain old papers and possibly a deed of moderate value, the searchers found the fortune.

MARQUIS INOUE AT DEATH'S DOOR

(United Press Leased Wire.)
Tokio, Sept. 2.—General Marquis Inouye, one of the foremost statesmen in Japan, passed away today at his villa at Okitsu. He was stricken with heart trouble today and it is not thought that he can recover.

COON HUNTER TREED BY HUNTED COONS

(United Press Leased Wire.)
San Rafael, Cal., Sept. 2.—Although he had his best to keep the story a secret, Sheriff Richard Polastri of San Rafael county spent most of Sunday night in a tree hole which he had been driven by coons that he went out to trap.

TO FORCE VOTE ON CUMMINS

Progressives Override Proposed Postponement in Senatorial Case.

(United Press Leased Wire.)
Des Moines, Iowa, Sept. 2.—Twenty-four progressives in the house of representatives announced today that they had agreed to vote with the Democrats on the Lanber-Demar resolution to elect a senator for a short term to succeed the late Senator Allison, at this session of the legislature.

This means that the movement to take a recess until November 9 before holding the senatorial election will be defeated. It was planned by certain interested parties to put the matter over until after the national election.

The progressives will vote for the resolution this afternoon and demand its passage. The result will be the forcing of a vote immediately on the candidacy of Governor A. B. Cummins for the short term.

REAR ADMIRAL GLASS DIES AT PASO ROBLES

(United Press Leased Wire.)
Berkeley, Cal., Sept. 2.—Preparations are being made today by the servants at the residence of Rear-Admiral Henry Glass, who died at Paso Robles last night, for the reception of the late officer's body. Mrs. Glass and Frank A. Glass, the son of the admiral's first marriage, are today en route to this city with the remains. They will arrive at 5 o'clock this afternoon. Nothing has yet been determined concerning the funeral arrangements. All

Companies Incorporated.

(Salem Bureau of The Journal.)
Salem, Or., Sept. 2.—Articles of incorporation have been filed in the office of the secretary of state as follows:

Coquille Laundry & Ice company; principal office, Coquille; capital stock, \$10,000; incorporators, S. M. Noyer, A. T. Morrison and George T. Moulton.

Rogue River & Oregon Southern Railway company; principal office, Grants Pass; capital stock, \$1,000,000; incorporators, H. B. Buddenborg, Glenville A. Collins and O. S. Blanchard.

Pacific Toilet Soap company; principal office, Portland; capital stock, \$25,000; incorporators, N. A. Baker, William A. Lovett and R. H. Hughes.

The International Discount company; principal office, Portland; capital stock, \$50,000; incorporators, H. D. Wells, G. D. DeMorriss and H. M. Esterly.

Cured Chronic Dyspepsia.

Mrs. W. Warner, New Orleans, La., After Suffering for Years from Dyspepsia, Found Immediate Relief from the Use of Duffy's Pure Malt Whiskey.

Recently she wrote: "I have been suffering from dyspepsia for the last 12 years, and have tried almost everything, but failed to get relief. I was told to try Duffy's Pure Malt Whiskey. I went to the drug store and bought a bottle, and before I finished using it I was relieved. I have been taking Duffy's Pure Malt Whiskey for some time and am glad to say it was the medicine that cured me. I highly recommend it to any one suffering from dyspepsia."

Duffy's Pure Malt Whiskey

is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a predigested liquid food in the form of a malt essence, which is the most effective tonic stimulant and invigorator known to science; softened by warmth and moisture, its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

If weak and run down, take a teaspoonful four times a day in half a glass of milk or water.

Duffy's Pure Malt Whiskey is sold throughout the world by druggists, grocers and dealers, or shipped direct for \$1.00 a large bottle.

If in need of advice, write Consulting Physician, Duffy Malt Whiskey Company, Rochester, New York, stating your case fully. Our doctors will send you advice free, together with a handsome illustrated medical booklet containing some of the many thousands of gratifying letters received from men and women in all walks of life, both old and young, who have been cured and benefited by the use of the world's greatest medicine.

Daniel Webster.
DESCENDED from a stern unbending race of Puritan Pioneers and Indian fighters, this colossal personality "With eyes of power and Jove's own brow" was born in the village of Franklin, N. J., where his father kept a roadside tavern, and where his intellectual development began.
The principles of "Liberty and Union, now and forever, one and inseparable," so eloquently enunciated by him, in after years nerved the arm of Lincoln, flashed from the blades of Sheridan, and glinted from the bayonets of Grant.
And some of his most memorable orations were delivered in taverns and at public banquets, where the delicious juices of the barley fields gurgled cool and invitingly from a thousand bottles; filled every bumper glass, and delighted his own palate; developing within him, force and energy, intellect, eloquence, mind and soul.

Budweiser

The Natural Drink of America

A pure and wholesome product of barley fields and hop gardens. LUPULIN, which has created a stir in the medical world because of its great Tonic properties for stomach disorders, is found in the highest and most effective form in Saazer Hops, grown in the Province of Saaz, Bohemia. The Anheuser-Busch Brewing Association, St. Louis, U. S. A., imports more of these hops than all other brewers in the United States. More Budweiser is drank in American homes than all other beers.

An Evidence of the Tone of ELMHURST

Excerpt from Morning Oregonian, Sept. 1, 1908

The long-delayed...
The offer of the subdividers of Elmhurst, a new tract, to open Tillamook avenue through for the distance east of Sandy road, where it is still closed, to Cully avenue, where the Country Club will take up the work and grade the thoroughfare to the entrance of the grounds, has been accepted. The Elmhurst people announced that they have let the contract for grading Tillamook for the distance of one-third of a mile, and will have it ready for use by the time the race meet opens. This arrangement will relieve the Country Club of a considerable burden, and will solve the problem of securing a through street from the river out to the racetrack much more easily than was anticipated. The engineers of the Country Club tract have already put a force of men at work opening up Tillamook for several blocks east of West avenue. This will be pushed forward to meet the grade established through Elmhurst.

The only direct route to the Country Club is through ELMHURST. Every automobile, trolley, carriage, also those who travel by horseback to the Country Club will pass through ELMHURST. There is nothing in the Northwest that will attract the attention of the better classes more than the Portland Country Club.
