

# WORLD'S MARKETS TODAY

## PACKERS SEE A GOOD MARKET FOR CATTLE AND PAY THE PRICE, ALTHOUGH VERY HEAVILY OVERSUPPLIED.

### Best Eggs Are Doing Better.

With smaller supplies, there is a better tone ruling in the local egg market at this time. Generally, the trade says it is able to secure 30c for select local stock. Those dealers who were very heavily overstocked with eggs a short time ago, state that they are experiencing no difficulty at this time in finding an outlet for all that comes and generally obtain the top notch figure. Eastern eggs are not pressing upon the market so badly because of the great improvement in local quality.

### Butter Market Is Firm.

There is a firm tone in the butter market with the makers of the better grades doing better than values. Several of the larger outside creameries say they do not have sufficient supplies to fill the market, therefore they are holding values at the top, and unchanged.
