

SHOT BY FRIEND MAKING A NOISE

Extraordinary Mischance Is Responsible for Death of Edmonds Man.

(United Press Leased Wire.)
Edmonds, Wash., Sept. 8.—W. H. Freese, a pioneer of Edmonds, is dead at Everett, the victim of a peculiar accident Sunday night. About 11:30, as Mr. Freese was about to enter the office of the Wrench Manufacturing company in this city, where he was employed, and just as his hand was turning the knob of the door he was struck by a bullet which entered his right side just above the hip. The bullet was apparently fired from some distance beyond Mr. Freese from through the doorway and his call for help aroused a friend, who came to his assistance.
An investigation showed that the bullet was one of three fired from a revolver in the hands of Charles Reeves, a close friend of the wounded man. The shots were fired merely to add to the noise which was a feature of a pre-labor day celebration.
Mr. Freese was about 200 yards from the party.

THEORY AS TO HEADLESS WOMAN

B. F. Morris, a Cook at Seattle, Says Possibly His Runaway Wife.

(United Press Leased Wire.)
Seattle, Sept. 8.—B. F. Morris, a cook living at the National hotel, believes that Mrs. Morris, whom he has not seen for three years, may be the unknown woman found on the old Verde road near the lake shore at Juanita. The story told by Morris suggests a possible solution of the identity of the murdered woman.
Morris was led to believe the woman might have been his former wife by reason of the gold teeth found near the scene. In a general way, without reference to the teeth, Morris' description of his wife fits that of the body. Morris gave the name of a man for whom he said his wife left him three years ago. A search is being made for the man.

\$15,000 OPERA HOUSE BUILDING AT KESLO

(Special Dispatch to The Journal.)
Kelso, Wash., Sept. 8.—Contractors Carter and Davis are erecting in Kelso one of the finest opera houses in the state. The building is 64x100 feet. The stage measures 30x24 feet. The seating capacity will be 800. The cost of the building will be \$15,000.
Besides a theatre, under the same roof a lodge hall is to be fitted up under the control of the local K. O. T. M. lodge, but it will be used by other lodges.

Kelso, Wash., Sept. 8.—J. N. Moore, who for many years has operated a sawmill at the mouth of the Cowlitz river, will begin at once the reconstruction of the plant at that place. The capacity of the mill will be greatly increased, much new machinery being added.
The mill has made a great record during past years for steady operation, and the quality of shingles has been the best.

AND IS DORA WISE WISE OR OTHERWISE?

(United Press Leased Wire.)
Chico, Cal., Sept. 8.—The surprising facts of the rapid-fire matrimonial entanglements of Dora Wise, 19 years old, of Weed, Siskiyou county, who broke an engagement, was reengaged, married and left her new spouse without giving 24 hours, became known today. Miss Wise came here a week ago and announced that she would be married to Fred Kingsley, a mill superintendent of Weed, last Saturday. Arrangements were made for the wedding. On Friday the girl married F. J. Sherman, a traveling man, whom she had met for the first time before. On the day of her marriage she left Sherman, giving no reason.
The girl's parents took her to Orlando today. Sherman left Chico Saturday. There is much speculation as to the cause of Miss Wise's remarkable actions.

WHAT THE ILLINOIS CONVENTIONS WILL DO

(United Press Leased Wire.)
Springfield, Ill., Sept. 8.—State conventions of all political parties throughout the state will be held tomorrow under the provisions of the new primary law.
The conventions tomorrow the parties will adopt platforms, name presidential electors and choose candidates for university trustees.
National delegates and electors are exempt from the operation of the primary law. University trustees are also exempt from the provisions of the law, for if such were not the case women would be denied the privilege of voting for trustees, which they now enjoy under the statutes.

GOODING'S LIBEL SUIT DISMISSED

(United Press Leased Wire.)
Boise, Idaho, Sept. 8.—On motion of Special Prosecutor A. A. Fraser, the case against R. S. Sheridan, manager of the Evening Capital News, charged with criminal libel, was dismissed today on the ground of insufficient evidence. The charge was brought at the instigation of Governor Frank R. Gooding because of an editorial attack on the governor's administration, in the Capital News.

SCIENTISTS TO INVESTIGATE

Conditions and Needs of Eastern Oregon Counties Are to Be Investigated.

The expedition headed by President W. J. Kerr of the Oregon Agricultural college which is to make a tour of the eastern part of the state with a view to examining into its conditions and the needs of that part of the country along agricultural lines left Portland today. The party includes: President Kerr; Professor H. D. Souder, of the department of agronomy of the State Agricultural college; Professor William Jackson, of the department of agronomy; expert of the department of agriculture at Washington, A. P. Stover, irrigation expert in charge of government irrigation and in Oregon, and W. A. Jensen, secretary to President Kerr. Among the counties to be visited are Sherman, Gilliam, Morrow, Umatilla, Union and Baker. Later the same party will continue its investigations in Crook and Harney counties.
These specialists will endeavor to determine what crops are best adapted for the various sections which they will visit, and will collect data to determine the extent and kind of experimental work which should be carried on by the agricultural college throughout eastern Oregon. Climatic conditions, precipitation, the topography of the country, the direction and prevalence of the winds, the amount of precipitation, the extent and quality of the soil, are some of the matters to which the investigators will devote their attention. Special attention will be given to irrigation and to dry farming, with a view to determining which kind is the most practicable for each section.
As a result of these investigations President Kerr expects to be able to outline a program of work to be done along agricultural lines by the agricultural college with a view to raising eastern Oregon to the position of importance along agricultural work which he feels sure it ought to occupy. He hopes to be able to secure the cooperation of the federal government in the experiments which will be based upon the data collected during this trip.

FALLS FROM WINDOW, WILL DIE OF INJURIES

Falling from the window of his own room at 212 Alder street at 1 o'clock this morning, Upton O. Hinkel, a carpenter, suffered a fractured spine. At St. Vincent's hospital today it was reported that he cannot live. He fell 12 feet, his back striking the pavement with great force.
Dr. Fred J. Zeigler, city physician, ordered him removed to the hospital in a Red Cross ambulance, but little can be done to help him. He is 47 years of age, and was intoxicated when he reached the room. Apparently while stumbling around the room he fell through the open window to the street below.

DRUNK; FIRES HOUSE AND DIES IN AGONY

(United Press Leased Wire.)
Sacramento, Cal., Sept. 8.—Valentine Martz, aged about 45 years, an iron moulder in the Northern Pacific shops, was burned to death in a fire which destroyed his residence here today. Martz had been drinking heavily and it is supposed he accidentally fired his house. His body was found in a barn back of the house. He had evidently jumped through a window with his clothes on fire and rushed to the barn, where he tore off a door by main strength and then dropped dead.
Martz' wife left him about a month ago and started an action for divorce on grounds of cruelty. His son and daughter, both grown, sided with the wife and Martz was left alone in his house with an injunction preventing him from disposing of his property.

HARRIMAN RUSHES GEORGETOWN WORK

(Special Dispatch to The Journal.)
Georgetown, Wash., Sept. 8.—The Oregon & Washington Railway company has commenced actual construction work along the right of way leading to and from Georgetown, leaving the work to be done in Georgetown until such a time as the railway officials and the city authorities come to some agreement. Twohy Brothers of Spokane, who have the contract for the work, have a force of men at work north of Georgetown, west of Argo station and at Van Sledright.
Last Friday the school board met with the representatives of the railway company and an understanding was practically reached, which the railway will move the school buildings to the new location. Before all this can be done, though, the matter will have to come before the people for a final vote. It has not been decided yet where the new location of the school site will be.

DIXON ASKS JONES TO TAKE G. O. P. STUMP

(United Press Leased Wire.)
Seattle, Sept. 8.—Congressman Wesley L. Jones has received a telegram from Senator Joseph M. Dixon, chairman of the speakers' committee of the Republican national committee, requesting his services on the stump in the forthcoming national campaign. Senator Dixon's telegram follows:
Chicago, Sept. 7.—Hon. W. L. Jones, Seattle, Wash.—When can this gentleman have the benefit of your services on the stump in campaign? Anxious to know where you desire to go.
(Signed) "JOSEPH M. DIXON."
On the results of today's primaries in this state will depend whether Mr. Jones will accept or decline the invitation.

SUSPECT ARRESTED IN MURDER CASE

(United Press Leased Wire.)
Boise, Idaho.—Reveries was the motive for the murder of William C. Simmons, who was found dead with a bullet wound in his back at his ranch in Highland valley last Saturday, according to the theory of officers working on the case. Suspicion pointed to Emil Stanke, brother of August Stanke, the man killed by Simmons two years ago, and at the request of the local police, Stanke was arrested yesterday at Harrison, Neb., as he was alighting from an eastbound train. He will be held pending further investigation.

IOWA KILLS PRIMARY LAW LIKE OREGON'S

(United Press Leased Wire.)
Des Moines, Iowa, Sept. 8.—The state legislature today voted to amend the primary law modeled on the Oregon law, by a vote of 21 to 11. The bill had a big support from good government clubs and a large part of the citizens but the party organizations were against it. It was believed from the first that it could not be passed this year.

Autumn Suits \$24.75

We have for this week exceptionally clever Tailored Suits to offer. Styles that will add greatly to our reputation of being able to produce stylish garments at popular prices

Manufacturers anxious to have their goods strongly represented in our suit section and get their share of the enormous business that is done in this popular department, have made for us some fine suits for this early showing. The success of their garments at this first sale has much to do with the business that goes to them later on. Therefore, you may rest assured that these suits are made right in every respect.
We have 150 suits in the style here illustrated, which we are going to sell at this sale for \$24.75. This is by far the best suit we have ever offered at this low price. It has the style and shape of the high-priced models and is carefully tailored. We know of suits being sold this season at \$35.00 that are not the equal of this one in any particular. We wish we had ten times the number, as every one would be picked up at this sale and every purchaser would be a more than satisfied customer.

The suit above mentioned was sketched from life and the graceful cut is plainly shown in the illustration. It is made of broadcloth, in pretty shades of blue, brown and green. The coat is semi-fitted and has the new glashes at the sides and back, trimmed with wide folds of satin and buttons with satin centers. The skirt is the latest gored model with wide fold at the bottom.
Another very stylish suit at this price is made of broadcloth, strictly tailored, with plaited skirt and long semi-fitted, single-breasted coat. The lapels of the coat are inlaid with satin matching the broadcloth in color, and the handsome woven satin buttons ornamenting the lapels and back of the coat are also of the same shade. The lining in both these suits is of an especially durable quality of taffeta.

THE PLAY

Orpheum—Vauville.
By D. S.
The regular attendant of the vaudeville houses, the judge and sponsor of all that's good and bad in this special class of amusement, the Orpheum offering this week a list of good, near-good and indifferent attractions. On the whole the numbers are probably the best which have been presented since the new vaudeville house became a permanent fixture in Portland nearly a month ago.
General Edward La. Vine, an agile and acrobatic "soldier," amuses his audience with a variety of clever juggling. He is alone on the stage, with the exception of numerous dummies, which add to his irresistible fun-making movements, and laughter is produced without the necessity of speaking a word. As an "opener," his turn would place the most disheartened gathering in a pleasant mood.
In the same breath is mentionable Will Cressy's laughable skit, "Town Hall Tonight," a burlesque on one-night stand towns where the manager of the local opera house is manager, stage hand, musician, property man—in short, as Cressy put it, "All there is in me." The playlet stirred the mirth of the audience almost without interruption from beginning to end.
Quite different from either of the preceding two, but equally as entertaining and well presented is "Fagin's Decision," a one-act characterization of an ex-prize fighter who meets in his own home for the first time a 12-year-old street waif—a girl, too, whom he has contracted to adopt. Claude and Fannie Usher are responsible for the half hour of unbridled amusement, a larger share of which is due to the latter's comendable efforts of Patsy and her omnipresent dog Spare-Ribs.
The Yullians troupe of acrobats present some difficult feats of acrobatic ingenuity and received last night vigorous appreciation. It is not on the cards that their work has ever been duplicated in any local vaudeville house in this city.
There are the head-liners that make the bill worth while. In addition Vitse Daily sings and dances, mixing both with rapid changes of attire. Her brothers also sing and dance in an acceptable manner and have some of their own originality that pleases.
Five pleasure-loving women and four men to manipulate the keys form the working capital of the Pianophobes. The extremely advertised and received more could be expected of the team.

AT THE THEATRES

Shetlands at Pantages.
The antics of John Hodge and the wrestling ponies, Banner and Madison, is the funniest and most amusing act before the public. The little Shetlands, seven in number, are pretty and well educated. The performance opens with a lightning pony drill and by way of diversion leaping greyhounds are introduced by La Bella Helene.
Dorothy Vernon Souvenirs.
A dainty souvenir of Dorothy Vernon will be given to each lady attending the performance of the delightful play by Baker Stock company at the new Bungalow this evening or on next Thursday evening. The play is one of the most interesting and fascinating dramas of the romantic class ever seen here.
Richard Jose in Songs.
At the Baker this week the noted singer Richard Jose in conjunction with the rattling farce "Don't Tell My Wife" is the attraction. Jose's magnificent voice as he sings the favorite old songs never fails to elicit the most enthusiastic applause.
The School Girl at the Oaks.
People who desire to be taken back to the days of their childhood can enjoy the sensation by attending the production of "The School Girl" at the Oaks by the Allen Curtis Comedy company this week. The comedy of the piece is built on the happenings of the country school.
See Hoolligan at the Star.
A comedy drama picturing a phase of life in a big city that cannot fail to excite the interest of all patrons of the drama, "Hoolligan in New York" is full of sensational scenes, original comedy situations and thrilling climaxes. Scarcely the production is unusually elaborate.
"Lena Rivers" Tonight.
Tonight the popular Blunkall Stock company will repeat its successful offering, "Lena Rivers," in which the company is scoring a brilliant success. Ervin Blunkall's character is one of the best things he has done here.
Comedy Vaudeville.
Comedy vaudeville is the kind that the Grand presents this week. There

ROOSEVELT HEARS

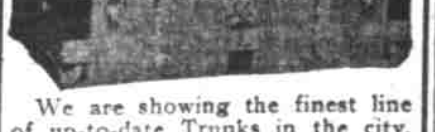

(Continued from Page One.)
In a small hand satchel carried by Coughlin the police found a six-shot revolver, unloaded, and a dirk. The pistol was inclosed in a cloth bag, which had a drawing, like the handbags lawyers used to carry. The charge against Coughlin was carrying concealed deadly weapons.
Whether Coughlin was in the neighborhood of Oyster Bay on Saturday when the shot was fired at the president is unknown. The secret service men are doing their utmost to trace his movements during the last three days.
Vince Daly at Orpheum.
Vince Daly, actor and Orpheum theatre this week is the youngest member of the famous Daly family. She has had a phenomenally successful career. A few years ago she was a feature in the various Ward & Vokes shows and later George W. Lederer brought her to Broadway in his production of "The Southerners."
DOCTORS BELIEVE
COUGHLIN INNOCENT
OF SATURDAY AFFAIR
Minneapolis, L. I., Sept. 8.—After an examination of the prisoner Doctors Wright and Burns today declared they were convinced that John Coughlin, arrested yesterday at Sagamore Hill, was not connected with the supposed attempt on the life of President Roosevelt Saturday. To a representative of the United Press Coughlin today said his home was at Walpole, Mass., where he lived with his father, James Coughlin. He denied any intention of harming the president and asserted he was nowhere near Oyster Bay last Saturday.
The man talks in a rambling fashion and evidently is demented. Doctors explained that he carried a revolver for his own protection and said he had no idea of ever using it except in self-defense. There is no indication that the revolver has been fired recently.
He could not clearly explain the rambling story he told at Sagamore Hill last night about wanting the president to send troops to Boston to capture his fugitive.
It is probable he will be confined in

MRS. WARREN KILLS HERSELF; DESPONDENT

(United Press Leased Wire.)
St. Louis, Mo., Sept. 8.—Despondency over ill health is the only explanation given for the suicide of Mrs. Thomas B. Warren, sister-in-law of Edward J. Nally, vice-president and general manager of the Postal Telegraph company, who shot herself in the bathroom of her home late last night. Mrs. Warren, a strikingly handsome woman, being to marry her second husband, had a few minutes after firing the fatal shot.
The Australian ballet company, employed recently by the Institute of the Klammath reservation in Oregon, is about to depart for home, leaving to represent the tribes in their dancing with the whites.
