POLICE TO GUARD BIG PROCESSION

English Government Takes Steps to Prevent Outburst of Bigotry During Parade of Catholics Closing Eucharistic Congress.

Ineffectual Appeal to Home Secretary to Prevent Carrying of Host and Wearing of Vestments—Cardinal to Celebrate Mass.

(United Press Leased Wire.) London, Sept. 12.—It was announced here today that 3,000 police will guard the immense parade that is to mark the closing of the nineteenth Eucharistic congress, tomorrow, and that troops have been provided also to prevent the slightest disorder.

After an ineffectual appeal to the home secretary to prevent the carrying of the host and the wearing of vestments in tomorrow's parade, the Protestant alliance tried to prevent the parade by injunction, declaring it was against the law of the land. They were too late, however, and the parade will be held.

Over 30,000 Catholics will march in the parade tomorrow and it is expected to be one of the greatest pageants of modern times. Cardinal Gibbons will celebrate pontifical high mass at the cathedral tomorrow morning at 10:30 and many Americans will be present.

Seattle, Wash., Sept. 12.—The steamer Chippewa, bound for Victoria, crashed into the steamer Sentinel, bound in from Bainbridge island, at 9 o'clock this morning in the fog and the latter was so badly injured that she began sinking immediately. The Chippewa lowered her lifeboats and took off the passengers from the Sentinel and the latter was run to West Seattle and beached just before water in her hold extinguished her fires.

Captain McAlpine made his report to the officers of the Inland Navigation company and proceeded on his way to Seattle. He stated that he was running under slow bell, blowing his whistle every 15 seconds and did not see the Sentinel until he was almost upon her.

HOUGHTON MICHIGAN IN DANGER

Citizens Resort to Back-Firing to Save City—Governor Johnson Orders the Railroads to Keep Telegraph Wires Repaired.

Wall of Flame Sweeps Toward Chicago Bay, Cascade and Other Places Along North Shore of Lake Superior.

Duluth, Minn., Sept. 12.—Reports today from the Lake Superior region state that the situation on the north shore is terrible. There is little hope of saving many homes and villages and the people are fleeing before the wall of fire. All telephone wires to the burning district are down and it is impossible to learn anything definite from the stricken points.

The people were preparing a ring of waste around the town and setting it on fire, in the hope that the flames could be turned away by back firing. Reports from Manitowish state that the Canadian town of Soudan, 15 miles square has been almost burned over. A pall of smoke is hanging over Lake Superior today and the wildest rumors are coming in. Governor Johnson has asked the railroad companies to keep their wires in repair so that communication with the stricken districts will not be entirely shut off.

Although the fires on the Mesaba range have burned themselves out and the prospect of further damage in that region is now negligible, the reports from the north shore of Lake Superior are still alarming. At last reports, the fire was sweeping in a perfect wall of flame on Chicago Bay, Cascade River Indian reservation, Coffin and Nutson and other scattered lumber camps and fishing hamlets along the north shore of the lake.

Calumet, Mich., Sept. 12.—Reports today from Isle Royale say that three cottages have been destroyed and that much standing timber is being burned up by a fierce wall of flames that is warding the fastest of Harbor, Washington Harbor and other summer resorts. There are no means of fighting the fire on Isle Royale and the loss will be over \$1,000,000 unless a providential rain intervenes.
