#### Forewarned of Brother's End, Mrs. Thompson Finds His Mangled Remains.

Dreaming that she saw her brother dying in awful agony Tuesday night, Mrs. Emmett Thompson of 280 Crosby street, was so strangely convinced that the dream was a telepathic communication from some mysterious source that she hurried to the morgue and there on a slab lay the body of the brother she had dreamed of.

### T. P. A. AND WIVES

(Continued from Page One.)

This afternoon the ladies of the party are being entertained at the Oaks by members of the Portland Women's club. This evening there is to be a reception at the Commercial club in honor of the visitors. This is to be the first reception in which the ladies have participated in the club's new home.

Tomorrow morning early the bunch will take a ride up the river. The Bailey Gatzert will be theirs for the day. They will see the locks and the hills and all that sort of thing. In the evening they will come back to the club but enthusiastically and raving about the beautiful scenery and all that sort of thing. That night they will continue on their way.

Frank M. Jolly, traveling passenger agent of the Peninsular & Occidental Steamship company, is said to be the saddest man in the delegation. Also it is said of Mr. Jolly that he is the man in the crowd farthest away from home. He lives in Jacksonville, Fla. Mr. Jolly is accompanied by Mrs. Jolly.

J. Pope of Chicago of the Chesapeake & Ohio bears the reputation of being the biggest cut-up in the crowd. It is said that Mr. Pope keeps the men and women laughing all day long and even during the night. It is said that he has the funniest and the cutest little snore one ever heard anywhere.

J. G. Everest, general traveling passenger agent of the Chicago, Milwaukee & St. Paul, is among those present. And then there is J. B. Frawley, general traveling passenger agent of the Mobile & Ohio, headquarters Chicago, and who was elected president of the association during the game in Seattle, when drumming up business was forgotten completely. And then there are about 100 others.

### Are You Sick?

Much sickness is due to a weak nervous system. Yours may be. If it is, you cannot get well until you restore nerve strength. Your nervous system is nature's power house; the organs of your body get their power from it. If the power is not there, the action of the organs is weak, and disease (sickness) follows. Dr. Miles' Nerve Cure cures the sick because it soothes the irritated and tired nerves and gives the system a chance to recuperate. Try it, and see if you do not quickly feel its beneficial effect.

"I was given up to die by a leading doctor. Got one of Dr. Miles' books and found that Dr. Miles' Nerve Cure fit my case. From the very first dose I took I got better. I am better now than I have been for years, and do all my own work on the farm. That's what Dr. Miles' Nerve Cure did for me, and I am glad to recommend it to others."

JOHN JAMES, Riverton, Nebr. Your druggist sells Dr. Miles' Nerve Cure, and we authorize him to return price of first bottle (only) if it fails to benefit you.

Miles Medical Co., Elkhart, Ind.

Portland accompanied the special train and its load to the city, the two having gone to Seattle for that purpose. The reception tonight will last until 11 o'clock.

### FALLS 34 FEET, ESCAPES INJURY

Frank Lawrence, an employe of the Portland Bridge company, fell through the new trestle being built across the Columbia slough to the Swift packing plant last evening, but though he fell 34 feet upon hard ground, he escaped with slight injuries. Lawrence was working near the pile-driver when he stepped backward and missing his footing fell through the bridge-work to the earth beneath. His companions expected to find him killed, but instead no bones were broken. Holman's ambulance was summoned to the scene, a half mile west of the Vancouver carline, and Lawrence taken to St. Vincent's hospital. It was reported at the hospital this morning that no internal injuries have developed. A new Belgian life-preserver, in the form of a knapsack, which the inventor claims is unbreakable, contains a small storage battery to light an electric lamp in a headpiece which forms part of the apparatus.
