That the Portland Raliway, Light & Power company will soon build a new ferry to operate between the Oregon shore and Vancouver was again stated this morning in a letter from President Josselyn to Government Inspectors Ed-wards and Fuller. The ferry will be completed as soon as possible. The letter came in response to a let-ter from the inspectors to President Josselyn wherein they stated that it had become apparent that the old ferry was being overtaxed and that it would be necessary for them to restrict the

mate here lead Sheriff R. L. McAtes to believe that Hatfield is James Dunham, the man wanted for the murder of six people at San Joze 12 years ago. Hatfield is being closely watched. He swears to the authorities that he is not Dunham and never heard of the man until arrested here. He claims that he can prove an allbi, proving that he was in Texas at the time of the Dunham murders.

San Jose, Cal., Sept. 18.—Additional identification marks received from Sheriff R. L. McAfee of Sherman, Texas, by Sheriff Langford today strengthens the beller that John Hap-field, the suspect heid there, is James C. Dunham, the Campbell murderer. Sheriff McAfee wired today a description of Hatfield's eyes, height and additional features of his makeup and they cor-respond exactly with the description of Dunham. We want you to see a plano that is a plano; it is built right and has a tone that will please the finest musician.

We know you will think this piano can't be very good, for the ce is so little, \$224, but that is just where our "from maker to price is so little, \$224, but that is just where our player" plan comes in.

It is good, in fact, it is so good it discounts any giano on the market sold in a retail way for \$350.

Take this statement as gospel and see for yourself. If it be true a good piano can be had for \$224, why pay more and especially when it may be had for \$6 a month.

Two cars of these pianos to select from. See them Saturday.

Every act on the bill at the Grand pleases this week. There are three fa-mous singers, Frederick V. Bowers, the American tenor; Tom Moore, the great-est of "ceon shouters," and J. K. Em-met in "A Dakota Divorce." Any one of these three singers would be a star attraction on an ordinary program. "The Flip Mr. Flop," a farcial sketch, will be the headline act. at the Grand next week. In it will appear Rube Welch, formerly a well-known theat-rical manager in Portland; Klity Fran-cls, the noted comedienne, and Miss Kate Coyle, the most popular singer of il-fustrated songs Portland ever boast-ed of.

SAW NOTHING OF THE AEON.

French Bark Reports Stormy Weath er From Australia.

cr From Australia. Captain Nicholas of the French bark La Rochajequelin reports that coming here from Newcastle, Australia, the ves-sel ran into some very severe weather; or about 20 more than the average. Not a sail or steam vessel was sighted during the entire voyage. It was hoped that possibly the French windjammer would bring some news that would lead to the solution of the mystery sur-rounding the disappearance of the Brit-ish steamer Aeon, bound from the mystery except saying that severe weather had prevailed in the path pos-sibly taken by the Aeon. The Aeon is now out about 65 days with rein-surance at 55 per cent. Francisco. The French coal laden bark reached the harbor this morning and anchored in the stream until space can be se-cured at the bunkers. She has 3,000 tons of coal to be discharged and will then begin loading wheat for Europe under charter prior arrival. "We had a very rough voyage at times," said Captain Nicholas, "and lost quite a few sails in heavy squalls. Headwinds held us back, but aside from that the voyage was quite ordinary."

BIG CARGO OFF FOR SEA.

British Steamer Queen Amelie Departs With Wheat for Europe,

parts With Wheat for Europe. parts With Wheat for Europe. The British steamer Queen Amelle left down this morning bound for Europe with a corgo of 23,527 bushels of wheat, valued at \$208,400. It is one of the largest cargoes shipped from this port for some time. It is already estimated that the wheat shipments for the month will run close to the 2,000,000-bushel mark, which will be by far the greatest record ever at-tained for September shipments. A noticeable fact this season is that the grain carriers engaged are consid-erably larger on the average than in former years, few of the vessels cleared so far since the beginning of the sea-son having departed with less than 100,000 bushels most of them having taken over 150,000 bushels. Another noticeable fact is that a larger number of steamers are in the wheat trade out of the port than are asked for sul-ing vessels and besides deliver the cargoes with greater dispatch. Ome steamer was reported today as having accepted 25 shillings for wheat from this port to Europs. The name of the cargoes with greater duspatch. Ome <text><text><text><text><text>
