THE OREGON DAILY JOURNAL, PORTLAND, THURSDAY EVENING, SEPTEMBER 24, 1908.

be quite good prices for turkeys during the coming bolidays. The fact that some 5,000 birds have been coutracted for by the government for the feeding of the soldiers in the Philippines has eaused many dealers to look askance at the situation. The taking of this number of birds out of the country means considerable to the producers. Heretofore practically all the Philip-pine business was said to be filled by eastern dealers no the sending of large supplies to the islands did not affect the Pacific coast markets at all. Up to this time very few birds have been received for the open market, but the contractors who secured the government order have been purchasing quite heav-ily, both for that account and for them-melves.

Supplies Likely to me Short.

Egg Market Is Advancing.

Egg Market Is Advancing. An advancing tendency is shown in local egg values. Along Front street prices are rather badly mixed again, with some talking of materially ad-vanced values. The general quotation along the street today is believed to be around 30c, but once in awhile the trade talks of 82%. There is a firmer tone in chickens. but prices are generally unchanged. Creamery butter market is holding very firm and present indications point to another advance in the price. Balmon Eun & Smaller.

Salmon Enn Is Smaller.

A smaller run of selmon is reported along the Columbia river. At this time but, a few chinooks and sliversides are being caught and the trade is experienc-ing some difficulty in supplying the trade. Former prices are, therefore, easily maintained. The trade is await-ing the regular October run of sliver-sides. 123

sides. As a result of the wreck of another vessel with a large cargo of Alaska sal-mon, the cannod fish market is very firm and prices are being quite easily maintained. There is practically no new business reported in Columbia river fish because packers have no supplies to offer.

100 tons—or December oats (No. 1 white) was sold at \$1.57½ per cental. The market for oats was firm through-out although the September was neglected because this option is prac-tically case.

40¥ 337 58

out although the September was neglected because this option is prac-tically cash. Barley futures were also firm today, the strength invading the entire ccarse grain list. Two contracts—100 tons each—of December barley were sold at \$1.35 a cental, or 6 above the closing bid of yesterday. The wheat market was quiet but firm for futures on the board of trade today, the closing being at exactly the same figures as yesterday. The wheat market is more active and as high as 90c is being bid and paid for club, track delivery here. While the demand is still very insistent for bluestem so little of that grade is now being offered that the buyers are tak-ing hold of the other varieties. The market for export flour con-tinues rather quiet although a small amount of additional business is re-ported with North China and Japan. Local grades are firm though rather quiet. 165

quiet

oats and barley markets are firm at former quotations. Hay is steady with values un-Cash holding market changed. Board of trade prices today.

record. The president then states that the attorney-general of Oklahoma secured an injunction restraining the construc-tion of a pipe line by the Prairie Oli & Gas company, and that Haskell had it set aside.

Control Admitted.

A Gas company, and that Haskell had it set aside. Control Admitted. As far as I have seen, the president continues, Governor Haskell has not even attempted anything which can be called a defense of this action. It thus appears that his action was as in-thread a defense of this action the interests of a great corporation to which to see you a great corporation to the state and at all hazards, he intended for some reason of his own, to protect the interests of a great corporation signing the interests of a great corporation signing the interests of the theory that, in defiance of the at torney-general of the state and at all hazards, he intended for some reason of his own, to protect the interests of a great corporation signing the interests of a great corporation magning the law. This act for the interests of a great corporation to which the gen-reat paralysis of husiness which any tice what you have advocated would been a matter of common notoriters to the renomination of Senator Foraker, to not care for the president to the renomination of Senator Foraker, to not care for the president to the renomination of Senator Foraker, to not maker of pulcies for to the renomination of Senator Foraker, to now this, the standard Oth thas words were true when he said: traskell' with hundred-fold clearer evidence to act and ther of pulcies for one to even though it was represented the traskell' unit. Taft then had as to the connection of the committee avent in the standard Oth thas words were for hes placed for which the traskell' unit. Taf

Let me add that Governor Haskell's

Let me add that Governor Haskell's utter unfitness for any public position of trust or for association with any man anxious to make an appeal on a moral issue to the American people has been abundantly shown. I have not space in this letter to discuss Governor Haskell's conduct, for instance in veto-ing the child labor bill, or the fact that his name appears as one of the defend-ants in various suits brought by the government to prevent the Creek Indi-ans from having a certain amount of their lands fraudulently taken, or his connection with various other matters

Fight Against Combinations. For several years now I have been steadfastly fighting to secure thorough-oing and far-reaching control in the interest of the public over the business ombinations which do an interstate business. In this affort I have been as much hampered by the extremists, well meaning or otherwise, who demanded visionary and impracticable radicalism, as by those other extremists, no less dangerous, who stand for the reaction-ary refusal to remedy any grievance. One side, the side on which I am obliged to say you have placed yourself, has shown itself to be just as much the en-emy of progress as the other. I hold it unitrely natural for any great law-de-placed in the presidency, rather than Mr. Taft. Your plans to put a stop to abuses of this character are wholly charget. **EXEMPTO Test.**

Title to Properties

We accept title to properties to be held pending future disposition, or awaiting distribution to legal heirs, or to be held for sale at a later date for some specific purpose.

The corporate trustee is superior to the individual in point of efficiency as well as economy.

Judge Bronaugh in the circuit court

cided in each case perore a decision was rendered. Taking the building operations of the whole country into consideration 50.88 per cent were for wooden structures and 39.12% per cent for fire-resisting buildings, but the cost of the latter amounts to 32.67 per cent of the total.

A BURGLAB IN TOWN his name is "bad cough." He doesn't care for gold or silver, but he will steal your health away. If he appears in your house arrest him at once with Ballard's Horehound Syrup, it may mean consumption if you don't. A cure for all coughs, colds and chest trou-bles.

Price 25c, 50c and \$1.00 per bottle.

Oranberries From Sand Island. A small shipment of Sand Island cranberries arrived in this morning and found a fair demand, although the price was high at 35 per box. Stock was rather green and of unusually small

Peach market is doing better for best quality.

quality. Tomatoes are in better demand and prices are somewhat higher. A small amount of chittim bark is finding a demand around 5c to dealers. A car of bananas and a car of Rogue River watermelons were among the morning's arrivals. Weather too cool for melons. A car of sweet potatoes was unload-ed this morning and was in good re-quest.

quest. Manila rope of all grades is down ¼c pound; all grades of sisal down ½c. Front street sells at the following prices. Those paid shippers are less regular commissions:

Buenos Ayres, Argentina, Sept. 24 .--Rains have fallen in the grain country and though the showers are very light the indications are that more moisture will be given the parched grain fields.

CHICAGO WHEAT MARKET.

1% Chicago, Sept. 24 .-- A slight conces-

sion in the September and a fractional advance in the December and May op-

advance in the December and May op-tions were shown at the opening of the wheat, market here today. The closing was strong 1 to 1% c above the final figures of yesterday. Foreign markets were of special in-fluence in today's trading, for export sales are again getting under way. Some liberal transactions for foreign account were reported by the trade during the past 24 hours. Liverpool became stronger after the opening and closed at the best prices of the day. The opening there was % d above yes-terday, but the closing showed further gain of from % to %d. Minneagiolis stocks of wheat show an increase of 1,660,000 bushels and this influence was all that kept the market from running away.

connection with various other matters of the kind; but let me call your atten-tion to his conduct in prostituting to base purposes the state university, as set forth in an article in the Outloak of September 5 last, under the heading, "Shall the People Rule-in Oklahoma?" In this article you will see that Gov-ernor Haskell was given full opportunity to make every explanation and that he made none.

Unworthy of Position.

Unworthy of Position. You close your telegram by saying that you expect and will demand fair and honorable treatment from those who are in charge of the Republican cam-paign. I am not in charge of the cam-paign, but am greatly interested in it. I have shown you above fairly and hon-orably that Governor Haskell is a man, who, on every account I have named, is unworthy of any position in our pub-lie life. You also say that you will not per-mit any responsible member of the

You also say that you will not per-mit any responsible member of the Republican organization to misrepre-sent the attitude of your party in the present campaign. You will have no difficulty in getting me to represent it aright, for my sole anxiety is that the people of the country shall know this attitude clearly and then shall condemn it as it should be condemned. You say you have advocated more radical measures against private monop-

STORM HITS CIRCUS TENT; KILLS A JAP

(United Press Lessed Wirs.) Holdenville, Okis., Sept. 24.—Satsuro Saitow, a Japanese acrobat performing on a high tight wire in a circus, was hurled from the wire and instantly killed and eight others were seriously injured during a performance today. A storm uprooted the poles to which the wire was attached. The Jap's neck was broken. The large tent was demolished and the smaller ones overturned.
