

### FULL-FEET SHEETS OR FIGHT

#### Commercial Travelers Will Petition Two Legislatures for Longer Bed Covers.

Members of the Travelers' Protective association last night declared themselves as being in favor of nine-foot bed sheets in all hotels in Oregon and Washington.

And furthermore, the question was left in the hands of the legislative committee with instructions to make every possible effort to have a law providing for such coverings passed at the next session of the state legislature in January.

There was but one dissenting vote. He was a very small man. Said it didn't matter whether the sheets were long or short.

Ordinarily, sheets in the hotels are about seven feet in length. The traveling men want them longer for various reasons. Principally, however, to keep their feet from slipping out from under the covers.

The meeting last evening was in the convention hall of the Commercial club. In adopting the resolution calling for nine-foot sheets, the committee also put in several paragraphs relative to ropes in all hotel rooms where the buildings are more than one story. This is for their own protection in case of fire. The same resolution is to be presented to the legislatures of both Oregon and Washington.

It was announced by the railroad committee chairman that in all probability the 1,800 mileage books on the Harriman systems in Oregon, Washington and Idaho, would be put on sale October 1 at \$10. There is a possibility, however, that there may be some delay in the date as to when these mileage books will be placed on sale for the benefit of the traveling men.

An invitation has been extended by the Seattle exposition management to have a T. A. day next year some time during the latter part of July or early in August. The suggestion was acted upon favorably.

The annual holiday banquet of the association is to be held the last Saturday night of December in the Commercial club rooms. A new feature is to be the introduction of several vaudeville stunts.

Members of the Travelers' Protective association last night declared themselves as being in favor of nine-foot bed sheets in all hotels in Oregon and Washington.

### WARRIOR CRUISER OF BIG STORM

#### Wireless Stations Desire to Give Vessel Knowledge of Approaching Danger.

(United Press Leased Wire.) Washington, Sept. 26.—All of the wireless stations of the navy department are trying to pick up the cruiser *Prairie* to give her warning of a terrific West Indian hurricane advancing toward Porto Rico from the southward.

She is due to come within the area of the hurricane's forces tonight and the department desired to give Captain Ackerman more definite information as to how much more he may expect than she barometer tells him.

The storm was first reported from the south of the island of St. Kitts. The weather bureau observer on that island reported it to the weather bureau and directed to get in touch with the cruiser and also make things in their own vicinity as safe as possible.

The *Prairie* is carrying 250 sailors for the Pacific fleet to Colon where they will be sent to Panama and San Francisco. In addition, she has a crew of about the same number. As figured at the navy department, she was due to be taking one of the four passages into the Caribbean sea sometime today. She left Norfolk on September 22.

To burn out weeds between rows of cane or other crops a Hawaiian planter mounted a gasoline tank on wheels and from it led a number of pipes terminating in burners, from which the cane was protected by sheet iron shields.

The average importation of tea into the United States each year is about 30,000,000 pounds, a pound to each inhabitant.

The crew of the passenger train testified that they were flung when within 300 feet of the freight, when they were bowling along down-grade at 50 miles an hour. The freight engineer and brakeman were in a desperate effort to warn Engineer Hurley through flaming fuses into the cab window.

The brakeman then turned his head away and rushed into a nearby patch of weeds in an effort to avoid the horrible sight of the collision. The belief prevails in railroad circles that the freight crew erred in attempting to make the switch.

### WIFE QUARREL LEADS TO SHOTS

#### Former Portland Negro Perhaps Fatally Wounded at Seattle.

(Special Dispatch to The Journal.) Seattle, Wash., Sept. 26.—Mose Cantrell, a negro longshoreman, was shot through the stomach tonight, probably fatally, by Warren Buffet, colored, the result of a quarrel in the lower part of the city. Cantrell says Buffet broke up his family. He says his wife and two children live at Portland.

The would-be murderer is believed to be headed for Portland to join Cantrell's wife. Police officers failed to apprehend him. The men met at a livery stable and started to fight. They were put out by Reuben Mays, the proprietor. Shot in the head, Cantrell staggered back into the livery stable and his assailant fled. The victim was taken to the Wayside emergency hospital, where physicians say he cannot live. Buffet has a wife and six children.

The crew of the passenger train testified that they were flung when within 300 feet of the freight, when they were bowling along down-grade at 50 miles an hour. The freight engineer and brakeman were in a desperate effort to warn Engineer Hurley through flaming fuses into the cab window.

The brakeman then turned his head away and rushed into a nearby patch of weeds in an effort to avoid the horrible sight of the collision. The belief prevails in railroad circles that the freight crew erred in attempting to make the switch.

Billings, Mont., Sept. 26.—Direct contradiction in the testimony of the crews of the Burlington freight and passenger trains which collided on the Northern Pacific at Youngs Point yesterday morning, causing the death of 21 and the injury of 16 persons, was the feature of the coroner's inquest begun here this morning.

The crew of the passenger train testified that they were flung when within 300 feet of the freight, when they were bowling along down-grade at 50 miles an hour. The freight engineer and brakeman were in a desperate effort to warn Engineer Hurley through flaming fuses into the cab window.

### JURY BLAMES FREIGHT CREW

#### Catastrophe on Northern Pacific Caused by Reckless Running.

(Special Dispatch to The Journal.) Butte, Mont., Sept. 26.—The coroner's jury returned a verdict tonight blaming the freight crew for the wreck at Youngs Point yesterday, finding that they were running on the time of the Burlington flyer. Prosecutions will immediately follow.

Billings, Mont., Sept. 26.—Direct contradiction in the testimony of the crews of the Burlington freight and passenger trains which collided on the Northern Pacific at Youngs Point yesterday morning, causing the death of 21 and the injury of 16 persons, was the feature of the coroner's inquest begun here this morning.

### SMITES MAN WHO LED HIS SON TO DRINK

#### (Special Dispatch to The Journal.) Santa Rosa, Cal., Sept. 26.—J. Hopper is lying at death's door at Forestville as the result of having been struck in the head by a rock thrown by M. Kinnaman, a prominent resident of that place and a man who has always been one of its most peaceable citizens. The trouble occurred over Hopper's endeavor to induce Clay Kinnaman to return to a saloon and have another drink after the father had succeeded in inducing the youth to come from the saloon.

When the father found Hopper trying to persuade his son back to the saloon after he had believed the son was going away with him, Kinnaman suddenly picked up a large rock and hurled it with great force. Hopper fell, his skull fractured.

W., opposite Meyer & Frank's, Main 7111. BRYANT—To Mr. and Mrs. J. C. Bryant, 125 North Eighth street, Portland, 28, a son.

**SWINTON**  
IS THE  
HEART AND  
CENTER OF THE  
INDUSTRIAL FUTURE  
OF  
**PORTLAND**

Millions upon millions of dollars are being dumped into Portland by Harriman, Hill and Swift. They show their confidence in the future of Portland by spending their fortunes here. The Peninsula is absolutely settled as their base of gigantic operations. Wherefore, O Sluggard, hesitate to join in the magnificent prosperity that these, the biggest wielders of wealth in the world, are throwing into the lap of this beautiful city? Stand back, if you falter, and let the man of progress here place his savings, that he may a year or two hence reap the reward of his foresight. For SWINTON is right in the midst of the greatest activity Portland has ever known.

**WARNING**  
If you do not invest in SWINTON now at the low prices we have named, you will regret your lost opportunity to the last day you draw breath. You can buy lots now at less than the prevailing acreage prices on every side. Fail not.

Have you seen the enormous amount of construction work that Swift & Co. is now carrying on? You haven't? You have missed the most inspiring sight in half a century. See it today. See it without fail. Board a Vancouver car at 10:10, 10:50 or 11:30 this morning, or 12:10 and every 40 minutes thereafter this afternoon. Get off at Columbia Boulevard and walk west. The farther you walk, the greater will be your amazement. Capital of profound proportions has been at work while you have been sleeping. **THINGS HAVE BEEN DOING.** Our automobiles will meet every car in the afternoon, treating you to a feast of prosperity that will cause your eyes to bulge out in marvelous astonishment.

**GET ACQUAINTED WITH SWINTON**

Yes, and get acquainted with your own city. Eastern men of money are walking quietly into our city, investing in our real estate, and walking as quietly away with their seal wallets chock full of gold dollars that you ought to own.

This is the grandest opportunity for a ground floor real estate investment ever known in the history of Portland. Money invested alongside of Hill, Harriman and Swift, is as certain to increase as dawn is to follow sunset. Do not juggle with fortune any longer. Act in the living present

**SWINTON**

Offers you business property now at lower prices than you can buy residence property in any part of Portland. Every street in SWINTON is a business street. We are selling SWINTON lots at one third the price at which owners are holding adjoining lots. Improvements are not in, but they are included in the prices. Before improvement work is started, we will allow 10 per cent discount from regular prices, and 5 per cent additional for cash. Regular terms 10 per cent cash and 2 per cent per month. Nothing ever known to equal this investment. Chicago, Kansas City, Omaha, Fort Worth and Sioux City would have gone mad over such an opportunity.

**SWINTON**

Adjoins the Swift holdings, is closer to Portland and farther from the stockyards. It is a genuine business proposition, with better inducements than you are accustomed to. We have prepared a magnificent booklet, illustrated, carefully showing the tremendous effect this great packing industry will have upon the entire northwest, which will be mailed to you without cost. Fill out the accompanying coupon and forward it to us at once. The supply is limited, and one ought to be in the hands of every man and woman in the state of Oregon. This book is worth 25 cents of any man's money, as it tells the inside facts about the biggest industry that has ever dropped upon us. Get it and learn what is going to happen in the "Rose City."

### POWER MERGER IN EAST IDAHO

(Special Dispatch to The Journal.) Butte, Mont., Sept. 26.—By a deal consummated by Ralph M. Hodgson of this city, T. M. Hodgson, formerly president of the State Savings bank of Butte, and principal owner of the St. Anthony Light Power company of St. Anthony, Idaho, has become the owner of the lighting and power plants in Fremont county, Idaho, and will consolidate them and build a new plant on the Peton river valley. All the companies will be merged. The plants which are now controlled by Mr. Hodgson are the Fremont Light & Power company, the St. Anthony Light & Power company, the Sugar City Power company, located at Sugar City and the Rexburg Power company, located at Rexburg.

### FOUND SENSELESS; IDENTITY A MYSTERY

Until the young man who was found unconscious in a room in the Yamhill house, 351 Yamhill street, early last evening, regained his senses the police will remain baffled in the efforts to learn how the injury was inflicted.

Late last night the man became partially conscious at St. Vincent's hospital, but fell at once into a deep sleep without speaking an audible word. It was feared at first his skull was fractured, but an examination made by Dr. C. C. Moore, who was called to the room, showed that the injury was not serious.

The landlord told the officers that the man who rents the room where the unknown was found had told him his visitor became drunk in the room and he had led him outside, where he fell and received his injury. By the time the policemen arrived the former host had disappeared.

### GREAT TEMPERANCE PARADE IN CHICAGO

(United Press Leased Wire.) Chicago, Sept. 26.—A procession of women, children and men that was four and one half hours in passing the government building made the most remarkable demonstration against the liquor traffic ever seen in this country. It is estimated that 20,000 persons were in the parade. It was headed by the police, followed by the women's temperance societies and 1,000 little girls, who sang temperance songs and bore banners with inscriptions. Colonel Alfred Frost of the United States army and Bishop Samuel Fellows were the marshals.

### DOCTOR LOVES HIS ENSANE PATIENT

(Special Dispatch to The Journal.) Cincinnati, Sept. 26.—Dr. John Levin McLeish, who until yesterday was a physician in the Ohio state hospital for the insane, fell in love with one of the patients in the institution while he was there and expressed his determination to obtain her release and marry her. The name of the patient is Barbara Kitta. She is 28 and pretty. "Miss Kitta is now sane," said Dr. McLeish today. "I love her and I intend to marry her. I leave tonight for fronton, Ohio, to see her mother, Mrs. Mary Kitta, and induce her to get a habeas corpus writ for her daughter's release. If she refuses I will take the initiative."

Dr. McLeish acknowledges that his resignation was requested at the state hospital for the insane because of the attention he has been paying to Miss Kitta.

Morace White, the Republican nominee for lieutenant-governor of New York, is a nephew of Andrew D. White, ex-senator to Russia and Germany. Mr. White is 42 years old and a native of Buffalo. Since 1881 he has been a member of the legislature.
